Smart RV Travel Guide For The Lower 48 States List of RV & National Parks, the Cost, the Amenities, What to See and Do in Each State Smart RV travel guide For the Continental 48 states is a three-year compilation of all the RV parks and National parks in each and every state in the continental US. I outlined all the amenities they offer, the actual cost to stay and so much more. We gathered this data from our last three trips across all 48 states. I also included what to see, where to visit and what they are famous for in each of the states. For each state, I

created a detail travel plan that covers everything that is worth seeing along with where to stay while visiting that state. There are 48 chapters, each representing one individual state. Each state is divided into three categories. "Suggested RV trips" - this is where I outline what the main attractions are for each of the states including cities, next I name each and every RV parks, the amenities they offer and what the costs are. Finally, I discuss all the state parks in each state and what perks and goodies they offer along with actual costs. By profession, I was in instructional design, where I designed various commercial and industrial training modules and helped create mini-guides which are far from writing an RV travel guide. I am not qualified to write such guides, but after our 3rd around the country trips, my wife made a convincing argument that people like us could truly benefit from such guides which we didn't have when we first started traveling around our great country. It took me little over nine months to gather all the information and start writing. It is a no-fluff guide with no storytelling as I am good at writing fiction, so I didn't even try, I stayed with the facts and information that I know is helpful to everyone that is looking to take a trip around our good ole' USA. My wife and I were lucky enough to be able to retire at age 52. We both share one passion, and that is the beautiful wide open roads and to see this great vast country of ours. We were able to buy us gently used Class A Fleetwood Southwind for a very reasonable price. It is spacious, maybe a little too spacious for just two of us, but we love every bit of it. It drives beautifully, and the interior comfort is almost like a 5-star hotel. We both love living in it. We spend roughly five months out of the year

on the road; we take a 2.5 month long trip around the lower half of the country during the spring, then another 2.5-3 month's long trip during late summer to early fall around the upper part of the country. Since we have been to each of the lower 48 states a dozen or so times and tried out various parks and amenities in every state. We have decided to share all our knowledge here with you. Enjoy the freedom of open roads.

Why We Left

"It was 12 years ago when I moved to Mexico, leaving my comfortable, familiar life and community, driving by myself to start a new life in a foreign country. Some sort of bravado or naivete or, as my friends would say later, courage, allowed me to pooh-pooh concerns about all the unknowns- culture, language, customs-and head off nonetheless." And so begins one of the more than two dozen essays in this anthology, written by "regular" women about their "regular" lives and how they decided to change everything and move to Mexico. In simple, engaging words straight from the heart, the contributors to *Why We Left* share their plans and preparations, hardships and challenges, joys and satisfactions as their journeys to new lives in Mexico unfold.

Rich's groundbreaking account of that failure - and how tantalizingly close we came to signing binding treaties that would have saved us all before the fossil fuels industry and politicians committed to anti-scientific denialism - is already a journalistic blockbuster, a full issue of the New York Times Magazine that has earned favorable comparisons to Rachel Carson's *Silent Spring* and John Hersey's *Hiroshima*. Rich has become an instant, in-demand expert and speaker. A major movie deal is already in place. It is the story, perhaps, that can shift the conversation. In the book *Losing Earth*, Rich is able to provide more of the context for what did - and didn't - happen in the 1980s and, more important, is able to carry the story fully into the present day and wrestle with what those past failures mean for us in 2019. It is not just an agonizing revelation of historical missed opportunities, but a clear-eyed and eloquent assessment of how we got to now, and what we can and must do before it's truly too late.

How To Win Friends and Influence People

A special fiftieth anniversary edition of Kurt Vonnegut's masterpiece, "a desperate, painfully honest attempt to confront the monstrous crimes of the twentieth century" (Time), featuring a new introduction by Kevin Powers, author of the National Book Award finalist *The Yellow Birds* Selected by the Modern Library as one of the 100 best novels of all time *Slaughterhouse-Five*, an American classic, is one of the world's great antiwar books. Centering on the infamous World War II firebombing of Dresden, the novel is the result of what Kurt Vonnegut described as a twenty-three-year struggle to write a book about what he had witnessed as an American prisoner of war. It combines historical fiction, science fiction, autobiography, and satire in an account of the life of Billy Pilgrim, a barber's son turned draftee turned optometrist turned alien abductee. As Vonnegut had, Billy experiences the destruction of Dresden as a POW. Unlike Vonnegut, he experiences time travel, or coming "unstuck in time." An instant bestseller, *Slaughterhouse-Five* made Kurt Vonnegut a cult hero in American literature, a reputation that only strengthened over time, despite his being banned and censored by some libraries and schools for content and language. But it was precisely those elements of Vonnegut's writing—the political edginess, the genre-

bending inventiveness, the frank violence, the transgressive wit—that have inspired generations of readers not just to look differently at the world around them but to find the confidence to say something about it. Authors as wide-ranging as Norman Mailer, John Irving, Michael Crichton, Tim O’Brien, Margaret Atwood, Elizabeth Strout, David Sedaris, Jennifer Egan, and J. K. Rowling have all found inspiration in Vonnegut’s words. Jonathan Safran Foer has described Vonnegut as “the kind of writer who made people—young people especially—want to write.” George Saunders has declared Vonnegut to be “the great, urgent, passionate American writer of our century, who offers us . . . a model of the kind of compassionate thinking that might yet save us from ourselves.” Fifty years after its initial publication at the height of the Vietnam War, Vonnegut's portrayal of political disillusionment, PTSD, and postwar anxiety feels as relevant, darkly humorous, and profoundly affecting as ever, an enduring beacon through our own era’s uncertainties. “Poignant and hilarious, threaded with compassion and, behind everything, the cataract of a thundering moral statement.”—The Boston Globe
