Now in its fifth edition, Reading Pathways (with help from Dewey the Bookworm ) offers an easy-to-use, highly effective approach to teaching reading accuracy and fluency to students of all ages, using a unique pyramid format. Reading pyramids begins with one word, and slowly build into phrases and sentences of gradually increasing complexity. As the student moves from the pinnacle to the base of each pyramid, the phrase or sentence becomes a more interesting and expansive, and the student's confidence grows with each line completed. Progressively building up the amount of text per line increases eyespan, strengthens eye tracking, and develops reading fluency. The book also features more challenging multi-syllable word pyramid exercises and games to further develop fluency and vocabulary. Learning to read long words by syllables removes the fear and mystique of multi-syllable words and helps students build the strong vocabulary so critical for success in reading and writing. activities in this workbook are designed to help your children catch up, keep up, and get ahead. Best of all, they'll have lots of fun doing it! Some of the great features you'll find inside are:

## Who Was Harry Houdini?

Practice makes perfect in just 10 minutes a day! There is nothing more important than your child's education, but sometimes it's difficult to find the time to fit everything in. From DK's best-selling "Made Easy" home-learning workbooks, the 10 Minutes a Day series fits in around busy lives. Aimed at ages 3-5, 10 Minutes a Day: Phonics supports your child as they develop their first English skills in connecting sounds with their letters: identifying first-letter sounds in words, listening for middle- and end-letter sounds, writing the letters of the alphabet, making rhyming strings of words, and showing children how to connect letter sounds to make simple three-letter words. Each exercise is simply and clearly introduced and uses a variety of interesting methods to help learning, from matching exercises to learning how to pronounce and spell out new sounds and words, based on themes that a young child can easily relate to, such as food, animals, and household objects. For the eager student, there are extra "time filler" challenges on every page if they finish the questions within 10 minutes and want to continue practicing, or just want ideas for additional activities to do at home. Answers are provided, along with parents' notes that explain what your child learns from the exercise.
