### Adventure North

- Chronicles the first all-African American summit attempt on Denali, the highest point in North America
- Part adventure story, part history, and part argument for the importance of inspiring future generations to value nature

The nation ' s wild places—from national and state parks to national forests, preserves, and wilderness areas—belong to all Americans. But not all of us use these resources equally. Minority populations are much less likely to seek recreation, adventure, and solace in our wilderness spaces. It ' s a difference that African American author James Mills addresses in his new book, *The Adventure Gap: Changing the Face of the Outdoors*. Bridging the so-called “ adventure gap ” requires role models who can inspire the uninitiated to experience and enjoy wild places. Once new visitors are there, a love affair often follows. This is important because as our country grows increasingly multicultural, our natural legacy will need the devotion of people of all races and ethnicities to steward its care. In 2013, the first all-African American team of climbers, sponsored by the National Outdoor Leadership School (NOLS), challenged themselves on North America ' s highest point, the dangerous and forbidding Denali, in Alaska. Mills uses Expedition Denali and its team members ' adventures as a jumping-off point to explore how minority populations view their place in wild environments and to share the stories of those who have already achieved significant accomplishments in outdoor adventures—from Mathew Henson, a Black explorer who stood with Peary at the North Pole, to Kai Lightner, a teenage sport climber currently winning national competitions. The goal of the expedition, and now the book, is to inspire minority communities to look outdoors for experiences that will enrich their lives, and to encourage them toward greater environmental stewardship.

Gain the visions you missed by hitchhiking along with my recollections of a ten year foray into the Last Frontier. Drive the Alaska Highway, taking side trips to Dawson City and Valdez. Stalk moose and catch salmon with Athabascan Indians who still follow a subsistence way of life. Observe an Inupiaq whale hunt on the Arctic Ocean. Visit the rural neighborhood where dog sledding heroes, such as Lance Mackey and Ken Anderson, live and practice their sport. Fly by bush plane into remote camps and live with exploration teams. See how frontier boom towns, like Fairbanks and Nome, as well as Native villages, are evolving. These and many more exciting adventures await. You can ' t see Alaska in a few days. But you can experience it through my eyes and Far North Adventure.

this provocative story deals with complex moral choices. Jesuit Joe, the protagonist, is of French-Canadian and Mohawk origin and is engaged in an obsessive religious search for the absolute, as he moves through the snowy wastelands of the region. He wears the red jacket of the Canadian Mounties that he found in a hut--which gives rise to a series of misunderstandings when he is mistaken for a member of the Canadian Mounted Police. All the while, he is tracked by his nemesis, Sergeant Fox, whose mission is to capture Jesuit Joe and bring him to justice. This is the first English language edition of Pratt's 1980 classic, and includes an incomplete second story of Jesuit Joe, plus Pratt's storyboards drawn for the movie version.

"In 1974, Terry Milos moved to rural northern Canada, to pursue her dream of homesteading. Following the seventies trend of the back-to-landers, she and her partner left the city life for what they imagined would be a simpler existence. Sometimes humorous and often insightful, North of Familiar is the story of a woman who learned to hunt, fish, and live off the land in what most would consider an utterly hostile and unbelievably cold environment. After a few months of cobbling together a living, Terry reluctantly leaves the north to further her education but with a dream of returning as a teacher. A year later Terry accepts a job in the small town of Atlin where she grows to expect the unexpected. Terry's adventures in the north push her beyond the familiar as she tries to apply her street savvy skills to negotiate a desolate mountain trail, or mush her dogs to school when the deep cold renders her car useless. North of Familiar is about coming to grips with life in the bush far away from the luxuries of the city. In Carcross, Carmacks, Dawson City and Old Crow, Terry navigates the cultural differences between her urban upbringing and the communities of Canada's Indigenous north. In spite of the harsh country, Terry survives and thrives, while raising a family and becoming a part of a strong and unique community. This story is not only entertaining and inspiring, it is also a story of joy, friendship, and change."--

### Nomads of the North A Story of Romance and Adventure under the Open Stars

Originally published in 1956, this book is a memoir by Danish explorer Peter Freuchen, a close friend and travel companion of Arctic legend Knud Rasmussen, and ended up living in Greenland for fifteen years, 800 miles from the North Pole—adopting the native ways of life, marrying an Inuit woman, and having two children along the way. Arctic Adventure is filled with tales of seal and polar bear hunts, enduring starvation, encountering people who had resorted to cannibalism, and the stirring experience of seeing the sun again after three months of winter darkness. Rich in human saga, Freuchen ' s warmth, wit, and literary talent make this recollection of real-life adventure stories a stand-out. " Except for Richard E. Byrd, and despite his

foreign beginnings, Freuchen was perhaps better known to more people in the United States than any other explorer of our time. ” —Evelyn Stefansson, *The New York Times* “ [A] formidable and fascinating man ” —Harriet Baker, *Another Richly Illustrated* throughout with maps and black-and-white photographs.
