The Wave

After years of difficulty trying to have children, a young couple finally announces their pregnancy, only to have the most joyous day of their lives replaced with one of unexpected heartbreak. After years of difficulty trying to have children, a young couple finally announces their pregnancy, only to have the most joyous day of their lives replaced with one of unexpected heartbreak. Their relationship is put to the test as they forge ahead, working together to rebuild themselves amidst the churning tumult of devastating loss, and ultimately facing the soul-crushing reality that they may never conceive a child of their own. Based on author Ingrid Chabbert's own experience, coupled with soft, sometimes dreamlike illustrations by Carole Maurel, *Waves* is a deeply moving

story that poignantly captures a woman's exploration of her pain in order to rediscover hope.

The Wave in the Mind

Wave watchers around the world know that no two waves are the same. Yet each and every wave that rises, peaks, and crashes onto the beach is generated by a much larger force originating thousands of miles away. Surf journalist team Evan Slater and Peter Taras capture the essence of waves and the swells that produce them in this breathtaking collection of wave photography. Slater characterizes four distinct swells from different corners of the globe and traces their journeys throughout the year from storm to seashore. His reflective, informative essays amplify these powerful images of hundreds of waves frozen in time, beautiful, simple, universal, yet wholly unique—and the best thing to watch on the planet.

unusual, and widely heralded novels in recent years.

The Sound of Waves

Surfing only looks like a sport. To initiates, it is something else entirely: a beautiful addiction, a demanding course of study, a morally dangerous pastime, a way of life. Raised in California and Hawaii, Finnegan started surfing as a child. He has chased waves all over the world, wandering for years through the South Pacific, Australia, Asia, Africa. A bookish boy, and then an excessively adventurous young man, he went on to become a writer and war reporter. *Barbarian Days* takes us deep into unfamiliar worlds, some of them right under our noses -- off the coasts of New York and San Francisco. It immerses the reader in the edgy camaraderie of close male friendships annealed in challenging waves.

Beneath the Waves

For twenty years, Miki "Da Cat" Dora was the king of Malibu surfers—a dashing, enigmatic rebel who dominated the waves, ruled his peers' imaginations, and who still inspires the fantasies of wannabes to this day. And yet, Dora railed against surfing's sudden post-Gidget popularity and the overcrowding of his once empty waves, even after this avid sportsman, iconoclast, and scammer of wide repute ran afoul of the law and led the FBI on a remarkable seven-year chase around the globe in 1974. The *New York Times* named him "the most renegade spirit the sport has yet to produce" and *Vanity Fair* called him "a dark prince of the beach." To fully capture Dora's never-before-told story, David Rensin spent four years interviewing hundreds of Dora's friends, enemies, family members, lovers, and fellow surfers to uncover the

The Finest Line

A sexy gothic romance based on Edgar Allan Poe's "Annabel Lee" Liam MacGregor is cursed. Haunted by the wails of fantastical Bean Sidhes and labeled a demon by the villagers of Dòchas, Liam has accepted that things will never get better for him—until a wealthy heiress named Annabel Leighton arrives on the island and Liam's fate is changed forever. With Anna, Liam finally finds the happiness he has always been denied, but the violent, mythical Otherworlders, who inhabit the island and the sea around it, have other plans. They make a wager on the couple's love, testing its strength through a series of cruel obstacles. But the tragedies draw Liam and Anna even closer. Frustrated, the creatures put the couple through one last trial—and this time it's not only their love that's in danger of being destroyed. Based on Edgar Allan Poe's chilling poem Annabel Lee, with references to many of his other poems including The Raven, Mary Lindsey creates a frighteningly beautiful gothic novel that glorifies the

Rising from the depths of the North Pacific lies a fabled island, now submerged just 15 feet below the surface of the ocean. Rumors and warnings about Cortes Bank abound, but among big wave surfers, this legendary rock is famous for one simple (and massive) reason: this is the home of the biggest rideable wave on the face of the earth. In this dramatic work of narrative non-fiction, journalist Chris Dixon unlocks the secrets of Cortes Bank and pulls readers into the harrowing world of big wave surfing and high seas adventure above the most enigmatic and dangerous rock in the sea. The true story of this Everest of the sea will thrill anyone with an abiding curiosity of and respect for mother ocean.

SURF: 100 Greatest Waves

In the wake of WWII, a grieving fisherman submits a poem to a local newspaper: a rallying cry for hope, purpose . . . and rocks. Send me a rock for the person you lost, and I will build something life-giving. When the poem spreads farther than he ever intended, Robert Bliss's humble words change the tide of a nation. Boxes of rocks inundate the tiny, coastal Maine town, and he sets his calloused hands to work, but the building halts when tragedy strikes. Decades later, Annie Bliss is summoned back to Ansel-by-the-Sea when she learns her Great-Uncle Robert, the man who became her refuge during the hardest summer of her youth, is now the one in need of help. What she didn't anticipate was finding a wall of heavy boxes hiding in his home. Long-ago memories of stone ruins on a nearby island trigger her curiosity, igniting a fire in her anthropologist soul to uncover answers. She joins forces with the handsome and mysterious harbor postman, and all her hopes of mending the decades-old chasm in her family seem to point back to the ruins. But with Robert failing fast,

own story with those of some of the great heroes of surf in a rare work of nonfiction that is as moving as it is fascinating.

Hound of the Sea

A vibrant celebration of surfers in and out of the water from an award-winning photographer Professional photographer Thom Gilbert spent four years among surfer royalty at the top of their game—in Spain, New York, California, and Hawaii—with his camera trained not only on tiny figures disappearing in the waves, but also on the surfers' faces and bodies back on land. He returned from the beaches with intimate portraits of the world's best—from the newest talent to the oldest and most revered—and also with dramatic action shots and revealing images of the culture around this sport and lifestyle. The book features not only 300 photographs, but some Q&As with, and hand-written contributions from, prominent figures in the scene. Ultimately, *Waves* is an ode to surfing and to the men and women who live it every day.

Incredible Waves

The author presents a collection of nonfiction writings, including essays on such topics as Tolstoy, Tolkien, women's shoes, Mark Twain, family life, and beauty, as well as autobiographical writings and reflections on the arts of reading and writing.

The Wave

In this thrilling and candid memoir, world record-holding and controversial Big Wave surfer Garrett McNamara chronicles his emotional quest to ride the most formidable waves on

earth. Garrett McNamara—affectionately known as GMac—set the world record for the sport, surfing a seventy-eight-foot wave in Nazaré, Portugal in 2011, a record he smashed two years later at the same break. Propelled by the challenge and promise of bigger, more difficult waves, this adrenaline-fueled loner and polarizing figure travels the globe to ride the most dangerous swells the oceans have to offer, from calving glaciers to hurricane swells. But what motivates McNamara to go to such extremes—to risk everything for one thrilling ride? Is riding giant waves the ultimate exercise in control or surrender? Personal and emotional, readers will know GMac as never before, seeing for the first time the personal alongside the professional in an exciting, intimate look at what drives this inventive, iconoclastic man. Surfing awesome giants isn't just thrill seeking, he explains—it's about vanquishing fears and defeating obstacles past and present. Surfers and non-surfers alike will embrace McNamara's story—as they have William Finnegan's *Barbarian Days*—an its intimate look at the enigmatic pursuit of riding waves, big and small. *Hound of the Sea* is a record of perseverance, passion, and healing. Thoughtful, suspenseful, and spiritually profound, McNamara reveals the beautiful soul of surfing through the eyes of one of its most daring and devoted disciples.

Waves

From Susan Casey, bestselling author of *The Devil's Teeth*, an astonishing book about colossal, ship-swallowing rogue waves and the surfers who seek them out. For centuries, mariners have spun tales of gargantuan waves, 100-feet high or taller. Until recently scientists dismissed these stories—waves that high would seem to violate the laws of physics. But in the past few decades, as a startling number of ships vanished and new evidence has emerged, oceanographers realized something scary was brewing in the planet's waters. They found their proof in February 2000, when a British research vessel was trapped in a vortex of impossibly mammoth waves in the North Sea—including several that approached 100 feet. As scientists scramble to understand this phenomenon, others view the giant waves as the ultimate challenge. These are extreme surfers who fly around the world trying to ride the ocean's most destructive monsters. The pioneer of extreme surfing is the legendary Laird Hamilton, who, with a group of friends in Hawaii, figured out how to board suicidally large waves of 70 and 80 feet. Casey follows this unique tribe of people as they seek to conquer the holy grail of their sport, a 100-foot wave. In this mesmerizing account, the exploits of Hamilton and his fellow surfers are juxtaposed against scientists' urgent efforts to understand the destructive powers of waves—from the tsunami that wiped out 250,000 people in the Pacific in 2004 to the 1,740-foot-wave that recently leveled part of the Alaskan coast. Like Jon Krakauer's *Into Thin Air*, *The Wave* brilliantly portrays human beings confronting nature at its most ferocious.

Whose Waves These Are

A surfer's wet and wild journey through Britain and Ireland Tom Anderson has always loved surfing—anywhere except the UK. But a chance encounter leads him to a series of adventures on home surf. As he visits the popular haunts and secret gems of British surfing he meets the Christians who pray for waves (and get them), loses a competition to a non-existent surfer, is nearly drowned in the River Severn, and has a watery encounter with a pedigree sheep. All this rekindles his love affair with the freezing fun that is surfing the North Atlantic.

Waves

In this meditative memoir—a compelling fusion of Barbarian Days and the journals of Thomas Merton—the author of Saltwater Buddha reflects on his "failing toward enlightenment," his continued search to find meaning and a greater understanding of grace in the world's oceans as well as everyday life. Born to a family of seekers, Jaimal Yogis left home at sixteen to surf in Hawaii and join a monastery—an adventure he chronicled in Saltwater Buddha. Now, in his early twenties, his heart is broken and he's lost his way. Hitting the road again, he lands in a monastery in Dharamsala, where he meets Sonam, a displaced Tibetan.

To help his friend, Jaimal makes a cockamamie attempt to reunite him with his family in Tibet by way of America. Though he does not succeed, witnessing Sonam's spirit in the face of failure offers Jaimal a deeper understanding of faith. When the two friends part, he cannot fathom the unlikely circumstances that will reunite them. All Our Waves Are Water follows Jaimal's trek from the Himalayas to Indonesia; to a Franciscan Friary in New York City to the dusty streets of Jerusalem; and finally to San Francisco's Ocean Beach. Along his journey, Jaimal prays and surfs; mourning a lost love and seeking something that keeps eluding him. The poet Rumi wrote, "We are not a drop in the ocean. We are the ocean in a drop." All Our Waves Are Water is Jaimal's "attempt to understand the ocean in a drop, to find that one moon shining in the water everywhere"—to find the mystery that unites us.

Patterns of the Universe

"'Science Mike' draws on his personal experience to tell the unlikely story of how science led him back to faith. "Cold-water surfing, the most remote surf spots, spectacular photography, illustrations, and custom boards: Surf Odyssey documents the modern cult of surfing as its own subculture and way of life. There's much more to surfing than palm trees and beach boy clichés. People surf not only in Hawaii, but also in Norway, South Korea, and India. Surf Odyssey is a book about the world of surfing today and those that live in it. This community is made up of the surfers themselves as well as surf photographers and board builders who are also spreading its distinctive spirit into other creative fields. Comparable to the new outdoor movement, today's surfing is about an attitude toward life, a lust for adventure, and a love of nature that one can only find far away from established spots. Surf Odyssey presents this scene's places, people, stories, and brands. Its stunning photography is sure to

Barbarian Days

From the New York Times–bestselling author of *Science in the Soul*. “If any recent writing about science is poetic, it is this” (The Wall Street Journal). Did Sir Isaac Newton “unweave the rainbow” by reducing it to its prismatic colors, as John Keats contended? Did he, in other words, diminish beauty? Far from it, says acclaimed scientist Richard Dawkins; Newton’s unweaving is the key too much of modern astronomy and to the breathtaking poetry of modern cosmology. Mysteries don’t lose their poetry because they are solved: the solution often is more beautiful than the puzzle, uncovering deeper mysteries. With the wit, insight, and spellbinding prose that have made him a bestselling author, Dawkins takes up the most important and compelling topics in modern science, from astronomy and genetics to language and virtual reality, combining them in a landmark statement of the human appetite for wonder. This is the book Dawkins was meant to write: A brilliant assessment of what science is (and isn’t), a tribute to science not because it is useful but because it is uplifting. “A love letter to science, an attempt to counter the perception that science is cold and devoid of aesthetic sensibility . . . Rich with metaphor, passionate arguments, wry humor, colorful examples, and unexpected connections, Dawkins’ prose can be mesmerizing.” —San Francisco Chronicle “Brilliance and wit.” —The New Yorker
