An English Grammar

An English Grammar

New Oxford English Grammar is Oxford's brand new and definitive guide to grammar usage. This book has been written by a leading expert in the field, covers both British and American English, and makes use of the unrivalled language monitoring of Oxford's English Dictionaries programme. Arranged in three clear parts for ease of use, its comprehensive coverage ranges from the very basic to the most complex aspects of grammar, all of which are explained clearly and engagingly. This descriptive source of reference is invaluable for those with an interest in the English language, undergraduate students of all disciplines, and for anyone who would like a clear guide to English grammar and how to use it.

English Grammar

A Course Book in English Grammar

The aim of this book is to provide teachers with a fresh approach to thinking about English grammar, Each chapter focuses on a problematic area, for example "Articles", "Conditionals", and "Direct and indirect speech". First the basic grammatical form is described, and then the meaning distinctions conveyed by particular forms. The final section of each chapter shows how meaning can be shaped by context and communicative purpose. The book

includes exercises, teaching ideas, and a glossary.

Functional English Grammar

The Oxford Handbook of English Grammar

Essential English Grammar is a basic book for learners of the English Language. It contains the eight parts of speech described in simple manner and the functions of the parts of speech exemplified. Verbs in the chapter are identified and often underlined to let the reader know the identity of verbs. The various tenses of the verbs are clarified and in the exercises their identity is emphasized. Various examples are quoted to explain the different part of speech. Other grammar items like types of sentences are clearly explained so that the learner will be well equipped for English Tests and examinations. All items in the book are presented in a simple direct approach and the learner will find it a remarkable guide to learning the English Language effectively.

Advanced English Grammar

English Grammar: * helps users to understand grammatical concepts * encourages the reader to practise applying newly discovered concepts to everyday texts * teaches students to analyze almost every word in any English text * provides teachers and students with a firm grounding in a system which they can both understand and apply.

Handling English Grammar 4

An English Grammar Comprehending the Principles and Rules of the Language, Illustrated by Appropriate Exercises, and a Key to the Exercises. By Lindley Murray. In Two Volumes. Volume 1. (-2.)

English Grammar

American English Grammar introduces students to American English in detail, from parts of speech, phrases, and clauses to punctuation and explaining (and debunking) numerous "rules of correctness," integrating its discussion of Standard American grammar with thorough coverage of the past sixty years' worth of work on African American English and other ethnic and regional non-Standard varieties. The book's examples and exercises include 500 real-world sentences and longer texts, drawn from newspapers, film, song lyrics, and online media as well as from Mark Twain, Stephen King, academic texts,

translations of the Bible, poetry, drama, children ' s literature, and transcribed conversation and TV and radio shows. Based on twenty years of classroom testing and revision, American English Grammar will serve as a classroom text or reference that teaches students how to think and talk not only about the mechanics of sentences but also about the deep and detailed soul and nuance of the most widely used language in human history.

Fundamentals of English Grammar

The study of language in written texts and transcripts of speech is greatly helped by a student's ability to identify and describe those prominent features of the grammar which make one variety of English different from another. A Course Book in English Grammar looks at many of the problems encountered by students and encourages them to find their own answers and to assess hypotheses about grammatical description. There are activities at each step, using authentic written and spoken data. Using 'real' texts avoids the faking of evidence to be found in some traditional grammar books, and interesting problems of analysis that arise in such texts are a source of useful discussion. The book has been thoroughly revised and expanded for this second edition, which contains additional chapters and material. A new opening chapter discusses the concept of 'grammatically correct English' and the differences between descriptive, prescriptive and proscriptive approaches to the writing of grammar books. The book is a systematic description of Standard English, and examples of contemporary spoken dialectal grammar are introduced and analysed to illustrate the differences between standard and nonstandard usage. A Course Book in English Grammar will prove invaluable to all students of English Language.

English Grammar

This Series Has Been Prepared To Provide The Essentials Of English Grammar With A Minimum Of Technical Terms To Middle School Students. Each Book Has Numerous Carefully-Planned Exercises, Amusing Anecdotes And Short Stories, Which Are Based On The Indian Milieu.

A Higher English Grammar

Routledge English Language Introductions cover core areas of language study and are one-stop resources for students. Assuming no prior knowledge, books in the series offer an accessible overview of the subject, with activities, study questions, sample analyses, commentaries and key readings - all in the same volume. The innovative and flexible 'two-dimensional' structure is built around four sections - introduction, development, exploration and extension - which offer self-contained stages for study. Each topic can also be read across these sections, enabling the reader to build gradually on the knowledge gained. English Grammar: presents the basic concepts and key terms of English grammar in a clear and systematic way encourages readers to evaluate critically the knowledge they already have, particularly in areas that are problematic for them as learners, and to build up and trust their own intuitions about the language uses a range of international authentic texts to illustrate concepts and theories, from sources such as newspapers, novels and academic texts discussing English grammar is accompanied by a companion website featuring audio files of authentic spoken English, and further activities. Written by an experienced teacher and researcher, this accessible textbook is an essential resource for all students of English language and linguistics.

English Grammar

The approach to language and grammar that motivates this book is unabashedly functional; grammar is not just a system of empty rules, it is a means to an end, an instrument for constructing concise coherent communication. In grammar as in music, good expression rides on good form. Figuratively and literally, grammar like musical form must make sense. But for the instrument to serve its purpose, it must first exist; the rules must be real, they can be explicitly described and taught. This book is intended for both students and teachers, at college level, for both native and nonnative speakers. With the guidance of a teacher this book will serve as a thorough introduction to the grammar of English. Volume I begins with words and their meanings, then on to propositions and simple state or event clauses – participant roles, verb types, transitivity, subjects and objects. It then covers the grammatical sub systems commonly found in simple clauses: Verbal inflections, auxiliaries and the grammar of tense-aspect modality and negation; articles determiners, pronouns and the grammar of referential coherence; the variety of noun phrases and noun modifiers.

Explaining English Grammar

English Grammar

A catechism of the principles of English grammar. By a friend to youth

ESSENTIAL ENGLISH GRAMMAR

With more than 50 years of teaching experience between them, Ilse Depraetere and Chad Langford present a grammar pitched precisely at advanced learners of English who need to understand how the English language really works without getting lost in the complex specifics. Now fully updated and revised throughout, the second edition of this book pulls from linguistic theory all the relevant notions that will enable the language student to fully grasp English grammar. After introducing form and function, the authors cover verbs, nouns, aspect and tense, modality and discourse. Readers are led through the underlying principles of language use, with the book presupposing only a basic grasp of linguistic terminology and focusing on the critical issues. Full of challenging exercises and supported by a companion website featuring an extensive answer key, a glossary and further exercises for study, this is the reference grammar of choice for both native and non-native English speakers.

An English Grammar for Schools: Parts of speech by J. Hall and E.A.Sonnenschein

Cambridge Learner's Dictionary with CD-ROM

A Student's Introduction to English Grammar

Presenting the linguistic basis for courses and projects on translation, contrastive linguistics, stylistics, reading and discourse studies, this book illustrates grammatical usage through authentic texts from a range of sources, both spoken and written. This new edition has been thoroughly rewritten and redesigned to include many new texts and examples of language in use. Key features include: chapters divided into modules of class-length materials; a wide variety of authentic texts and transcriptions to illustrate points of grammar and to contextualise structure; clear chapter and module summaries enabling efficient class preparation and student revision; exercises and topics for individual study; answer key for analytical exercises; comprehensive index; select biography; suggestions for further reading; and a companion website. This up-to-date descriptive grammar is a complete course for first degree and postgraduate students of English, and is particularly suited for those whose native language is not English.

Oxford Modern English Grammar

Ideal for PET and FCE preparation Packed full of useful study extras, the Cambridge Learner's Dictionary helps you on your way to becoming a confident, natural English speaker. With clear definitions, written especially for intermediate level students, and thousands of examples that put the language into

context, this dictionary is an invaluable companion, whether you are learning English for work or pleasure, or preparing for an exam. The best bits of the dictionary * NEW! Improved and expanded study pages include the innovative 'Talk' section, focussing on conversation, and how people really speak in day-to-day situations. * NEW! Word Partner boxes show how words are used together, helping you develop natural sounding English. * NEW! Special 'new words' section focuses on the latest words to enter the English language, ensuring that the language you learn is always up to date. * NEW! Thesaurus boxes make your English sound more natural by providing alternatives to over-used words, helping you to widen your vocabulary. * Learner Error notes taken from the Cambridge Learner Corpus - based on real student errors from Cambridge ESOL papers - help you to avoid typical mistakes. The Cambridge Learner's Dictionary CD-ROM includes the whole dictionary in a handy searchable format and much more, too! You can listen to every word in British and American English - and even record yourself for comparison. The best bits of the CD-ROM * UNIQUE! SMART thesaurus helps build vocabulary and allows you to create topic-related word lists at the click of a button. * QUICKfind, a mini pop-up version of the dictionary, lets you look up words as you work with no effort. * Hundreds of interactive vocabulary practice exercises - to use on-screen, or print out for classroom use - help you to monitor your progress.

An Old English Grammar

This text explores ways in which English grammar enables speakers and writers to represent the world, to interact with one another, and to create coherent messages. This book provides second language teachers with a functional description of English grammar, in which grammar is viewed as a communicative resource. Each chapter includes a focus on areas of difficulty for second language learners, numerous authentic examples, tasks that allow the reader to apply the concepts introduced, and discussion questions. A final chapter covers issues in the learning and teaching of grammar, and reviews methodological options for the second or foreign language classroom. Assuming no previous study of linguistics or English grammar, this book is suitable for self-study or as a textbook in teacher education programs.

Perfect English Grammar

An English Grammar

This two-book series was written specifically for English language learners and covers all the basic grammar topics for beginners. Contains clear and concise explanations of the rules and illustrates them with numerous examples. The "Did You Know?" and "Grammar Help" notes add further to the understanding of basic grammar. These books will give English language learners a clear understanding of core grammar skills and help lay a strong foundation for good English. Each book includes 150-pages plus of grammar examples and instruction.

English Grammar

An Introduction to English Grammar provides a comprehensive overview of all aspects of English grammar. The first part of the book (' The Grammar ') provides a step-by-step introduction to the key topics in English grammar. The second part (' The Applications ') shows how a grasp of these topics can be helpful in resolving usage problems, in developing a clear writing style, and in mastering punctuation and spelling. A whole chapter, ' English in Use ' , is devoted to illustrating the grammatical features of a wide range of modern text types, including emails, Facebook pages, and ' tweets ' . It also looks at the special grammatical features of English in everyday conversation. Each chapter is followed by two sets of exercises. The first set can be used in self-study or in the classroom. The second set deals with more advanced topics, and can be used for classroom discussion or essay writing. This fourth edition has been fully revised and updated and includes: clearer descriptions and improved presentation new material on word structure and word formation new exercises, examples and extracts updated further reading Assuming no prior knowledge of English grammar, this book is ideal for beginning students on a one-semester course and provides everything a student needs on the theory and practice of English usage. A comprehensive Glossary of grammatical terms is included and a website provides invaluable additional exercises.

General English Grammar

This groundbreaking undergraduate textbook on modern Standard English grammar is the first to be based on the revolutionary advances of the authors' previous work, *The Cambridge Grammar of the English Language* (2002). The analyses defended there are outlined here more briefly, in an engagingly accessible and informal style. Errors of the older tradition of English grammar are noted and corrected, and the excesses of prescriptive usage manuals are firmly rebutted in specially highlighted notes that explain what older authorities have called 'incorrect' and show why those authorities are mistaken. This book is intended for students in colleges or universities who have little or no previous background in grammar, and presupposes no linguistics. It contains exercises, and will provide a basis for introductions to grammar and courses on the structure of English not only in linguistics departments but also in English language and literature departments and schools of education.

An Introduction to English Grammar

Basic English Grammar

English enjoys the status of the World Language. No other language has ever scaled this height. It is the language that encompasses everything in the world. It is used and cherished by millions whose mother tongue is not English. Spoken English, as a natural corollary to that, has become an important tool in our hands today. Without mastery over it, the gateway to success will remain a distant dream in today ' s globalised market. Command on any language depends primarily on command on its grammar. Grammar is a repository of rules, governing how words are put together into sentences. These rules govern most constructions in a given language. Grammar is the science of correct use of language. It is concerned only with correct speaking and writing. Fundamentals of Grammar need to be fully comprehended to to acquire skills of quality English. Aim of this book is a practical one: an aid to good English, to take you places on the wings of English. The book is designed to meet the requirements of students completing their schooling and entering colleges or

job market, or preparing for various competitions.

English Grammar and Composition for High Classes

"Essential Elements of English Grammar" with Answer Key An informative and easy to use grammar book for intermediate to advanced students of English. Essential Elements of English Grammar can be used as a self-study guide or as a classroom textbook. This book covers rules regarding the use of verbs in the English language from verb tenses to verb usage topics such as active and passive voice, auxiliary (helping) verbs, and conditional sentences. The exercises have been thoroughly evaluated to help the student learn and understand each grammar lesson.

Modern English Grammar Book 1 (revised)

This book is designed especially for the literary student of English, and provides a single compact grammar primarily concerned with Classical Old English, rather than the other Old English dialects. The book takes a descriptive approach and avoids assuming a knowledge of Germanic philology. The introduction provides a minimum background of knowledge and indicates the kinds of evidence on which the grammatical description is based.

Essential Elements of English Grammar

The Gramming Guide to English Grammar is a resource book on the grammar of Standard British English. It is intended for intermediate to advanced students of English as a second or foreign language who have already studied the basic grammar of English. It covers the most important areas of English grammar and concentrates on structures which may cause difficulty at an intermediate level or above. The book starts with a pretest that helps you identify the areas you need to work on. The pretest is followed by eleven chapters, broken down to a number of subchapters that each deal with a specific grammar point. The related explanations are accompanied by real-life sample sentences, timeline diagrams, tables, and quotes. If a similar point or the same point is discussed in a different part of the book, you will find cross-references to that point. Where appropriate, chapters begin with guiding questions and end with revision questions. Most of the chapters are followed by exercises, including multiple choice, sentence transformation, error correction, gap filling and matching exercises, as well as communicative tasks that can be done in language lessons. At the end of the book, there is an appendix which contains a list of the most common irregular verb forms and the most important spelling rules; a list of the quotes that appear in the book; and a glossary that defines grammatical terms frequently used in the explanations. The chapters in this book are not arranged in order of difficulty. This way, the book can be used for quick reference on specific points of interest, as well as for systematic study, either as a self-study grammar book or as additional material in an ESL/EFL course. No matter which way you use the book, it is recommended that you follow the cross-references, which will lead you to further information on a given item. The exercises, which come with suggested answers, are best done using pen and paper. These exercises will not only help you to practise grammar but also to tie grammatical forms to real-world meaning.

An English Grammar

An English Grammar

Looking for an easy-to-use guide to English grammar? This handy introduction covers all the basics of the subject, using a simple and straightforward style. Students will find the book's step-by-step approach easy to follow and be encouraged by its non-technical language. Requiring no prior knowledge of English grammar, the information is presented in small steps, with objective techniques to help readers apply concepts. With clear explanations and well chosen examples, the book gives students the tools to understand the mysteries of English grammar as well as the perfect foundation from which to move on to more advanced topics.

The Gramming Guide to English Grammar with Exercises

English Grammar

American English Grammar

This handbook provides an authoritative, critical survey of current research and knowledge in the grammar of the English language. Following an introduction from the editors, the volume's expert contributors explore a range of core topics in English grammar, beginning with issues in grammar writing and methodology. Chapters in part II then examine the various theoretical approaches to grammar, such as cognitive, constructional, and generative approaches, followed by the chapters in part III, which comprehensively cover the different subdomains of grammar, including compounds, phrase structure, clause types, tense and aspect, and information structure. Part IV offers coverage of the relationship between grammar and other fields - lexis, phonology, meaning, and discourse - while the concluding part of the book investigates grammatical change over time, regional variation, and genre and literary variation. The handbook's wide-ranging coverage will appeal to researchers and students of English language and linguistics from undergraduate level upwards.
