find themselves? Do you want to know more about this terrible disease? Are you looking for peace or are interested in Buddhism? Bipolar disorder vs Enlightenment and Truth Bible New Testament Matthew 5 :22 - « And anyone who says, "You fool!" will be in danger of the fire of hell. » Follow Arturo Jobsquare's journey from bipolar disorder to Buddha state. A fantastic voyage spanning Paris, Montreal, and London - a snub to his condition, and a show of determination to rise above the disease that threatened to control him. This book relates the incredible journey of a man suffering from bipolar type 1 disorder, and provides an in depth description of the disease. If you are looking for a book about bipolar disorder or spiritual awakening, look no further, you've found it. Order your copy NOW and begin your own awakening. Reviews (translated from Amazon France):

"An autobiographical novel of uncommon depth. The author expresses his painful journey of living with bipolar 1 disorder. It is a poignant testimony, fully developed and beautifully written" - Frédéric Madison (France)

"Pain and emotion. I read this book several times, something, which is unusual for me. It is necessary to catch your breath and to resurface. We feel the suffering of the person who is trying hard to take a step away from his own experience" - Armand Poursin (France)

"A deep voyage into bipolar disorder. The author gives us a highly personal and intimate narrative in this autobiographical jewel. He talks about bipolar disorder, not as a weakness but as a long road that he has to follow while he is searching for his identity. At times, he can be hypersensitive; at other times, he can be serene with a remarkable interior strength" - Anne Lise

"Bipolar disorder, a mystical path? An approach from within a psychosis or an alleged psychosis. And if bipolar was in fact the result of frictions between a spiritual journey and concerns of a materialistic society? Read the book to form an opinion"

Ariana Grande captured the hearts of a nation with her One Love Manchester concert. Less than a fortnight after a terrorist killed twenty-two people at her Manchester show, the petite princess stood tall at her tribute concert that united and healed a shaken nation. She was the emotional core of a powerful evening that reminded us all of music's redemptive power. But who is Ariana Grande? This candid book traces the US pop star's story from her childhood in Florida, through her teenage years on Broadway and Nickelodeon, and onto her gleaming pop career which has seen her described as 'the new Mariah Carey'. This unauthorized biography of the songbird tells her eventful and inspirational story in full for the first time, and shows how she became an award-winning, chart-topping pop idol, as well as an empowering inspiration for a generation of girls. It reveals that there is more to Ariana than the celebrity we all think we know, explaining how her smooth transition from a squeaky-clean teenage pop product to a sophisticated, bold artist was powered by a restless and resilient personality. A must read for all her fans, this is a full, unflinching portrait of a pop sensation and inspiring, uncompromising woman - the small, sassy girl with the ponytail who conquered the world.

Pop Sonnets

If you are drawn to the Moon and its powerful magic, symbol of all that is cyclical and natural, you may need this book! The Moon represents a very complex archetype and, in its mystery, surrounds everything that is living. All peoples have always recognized a great energy value to the moon, and they worshiped it as a feminine aspect of the Divine, have known the regular cycle of its phases and its influence on the tides, not to mention its power over the female menstrual period. The woman is closely linked to the lunar cycle through blood, from which all life blossoms, and which made her a divine symbol. The ancients revered the Mother Goddess in her threefold aspect, where everything is born, grows and dies, then returns to life, and a new cycle begins, just as the Moon shows different faces: the girl, the mother, the elderly. Wicca celebrates rites in honor of the Full Moon, the so-called Esbat, but every lunar phase has its importance because it significantly influences and guides the magical work. Every time the Moon reached its fullness, men and women gathered to honor it, even before these rituals were called Esbat. By the end of this book, you will have a vast knowledge of Wicca Moon Magic, and, I trust, a more grounded want to seek after this way. In the book you will find: - History of Moon magic - The power of the Moon - Wicca Moon Magic - The Lunar Cycle - Moon magic Spells - Altar and tools - Wiccan Esbats - Moon Bathing Rituals - And much more The Moon is simply a source of energy, as are the Sun, plants, colors, music, and crystals. Those who can easily harmonize with the Moon will find

it easier to work under its light, otherwise, it is always an excellent source of extra Energy to use during our spells. To harmonize with the lunar energies is a good thing to do because it balances the solar energies that we receive throughout the day. If you want to try for once what it means "to harmonize" with lunar power and start practicing the Wicca Moon Magic, then then grab your copy now!
