Chambers's Journal

A riveting, revelatory, and moving account of the author's struggles with anxiety, and of the history of efforts by scientists, philosophers, and writers to understand the condition. As recently as thirty-five years ago, anxiety did not exist as a diagnostic category. Today, it is the most common form of officially classified mental illness. Scott Stossel gracefully guides us across the terrain of an affliction that is pervasive yet too often misunderstood. Drawing on his own long-standing battle with anxiety, Stossel presents an astonishing history, at once intimate and authoritative, of the efforts to understand the condition from medical, cultural, philosophical, and experiential perspectives. He ranges from the earliest medical reports of Galen and Hippocrates, through later observations by Robert Burton and Søren Kierkegaard, to the investigations by great nineteenth-century scientists, such as Charles Darwin, William James, and Sigmund Freud, as they began to explore its sources and causes, to the latest research by neuroscientists and geneticists. Stossel reports on famous individuals who struggled with anxiety, as well as on the afflicted generations of his own family. His portrait of anxiety reveals not only the emotion's myriad manifestations and the anguish anxiety produces but also the countless psychotherapies, medications, and other (often outlandish) treatments that have been developed to counteract it. Stossel vividly depicts anxiety's human toll—its crippling impact, its devastating power to paralyze—while at the same time exploring how those who suffer from it find ways to manage and control it. *My Age of Anxiety* is learned and empathetic, humorous and inspirational, offering the reader great insight into the biological, cultural, and environmental factors that contribute to the affliction.

The Impact of the President's Fiscal Year 1988 Higher Education Proposals on the State of Tennessee

The Life of Petrarch. Collected from Mémoires Pour la Vie de Petrarch [by J. F. P. A. de Sade]. By Mrs Dobson. Third Edition, Etc

Gil Gamesh, the only pitcher who ever literally tried to kill the umpire. The ex-con first baseman, John Baal, "The Babe Ruth of the Big House," who never hit a home run sober. If you've never heard of them—or of the Ruppert Mundys, the only homeless big-league ball team in American history—it's because of the Communist plot, and the capitalist scandal, that expunged the entire Patriot League from baseball memory. In this ribald, richly imagined, and wickedly satiric novel, Roth turns baseball's status as national pastime and myth into an occasion for unfettered picaresque farce, replete with heroism and perfidy, ebullient wordplay and a cast of characters that includes the House Un-American Activities Committee.

Truth

Emily Saunders, an eighty-five-year-old widow of means, lives in an affluent suburb of Brisbane and has everything she needs, but she is lonely. Her family does not have the time to check on her because of their busy lives. She phones her friend Audrey Thomas, also a widow, and asks her to accompany her on a cruise, and she is delighted. They had been through high school together and are still the best of friends. During the cruise, there is a talent quest; and as Audrey, also eighty-five, always wanted to be a singer, she entered and won the first and second contests, then was requested by the audience to do concerts, which were well-attended on the ship. On the cruise, they stopped at a small island that was very little, and the two ladies went to visit the school, which had very little tools, books, and things needed to run any school. Audrey and Emily decided to start a charity for the school. It was doing really well, and some big company names generously gave their products just for a mention in their advertisement. The women did well and soon outfitted the school from the donations received. After their second cruise, requested by the company for Audrey to do more concerts on board, they delivered all the goods, and the children did a concert on the ship for thanks and built up a good rapport with the passengers who all wanted to help this poor island school and joined the charity. They arrived back in Brisbane to the television

news showing that a huge cyclone had washed away the homes of the children of the Vitu School and all the terrible devastation. Many families living in the school and hospital on the hill are the only buildings standing fully intact. The cruise ships couldn't go in for the debris everywhere, so there was no income from the islander's wares. It was full steam ahead with the charity. Audrey's two sons came and voluntarily managed the funds coming in through the charity. Audrey does a huge concert in Brisbane with other supporting acts in a stadium for seventy-five thousand people and kept the charity money building. There were fifty-six tradesmen of all persuasions who went voluntarily and did an amazing job, all being filmed to show the people where their hard-earned donations had been used for. From this, Audrey, who has dreamed of having her own concert all her life, made DVDs and CDs that sold out and won awards. They both got humanitarian awards and, after a full-on three years, decided to slow down and take it easy. This is a wonderful story of love, friendship, family, and human kindness and proves that age is just a number.
