5 Steps to a 5 AP Psychology Flashcards

This new E-Z title covers material as it is taught on a college-101 level. A brief history and overview of modern psychology is followed by chapters on perception, conditioning and learning, states of consciousness, human sexuality, personality testing, and abnormal behavior and its treatments. Barron's continues its ongoing project of improving, updating, and giving contemporary new designs to its popular Easy Way books, now re-named Barron's E-Z Series. The new cover designs reflect the books' brand-new page layouts, which feature extensive two-color treatment, a fresh, modern typeface, and many more graphics. In addition to charts, graphs, and diagrams, the graphic features include instructive line illustrations, and where appropriate, amusing cartoons. Barron's E-Z books are self-teaching manuals designed to improve students' grades in many academic and practical subjects. In most cases, the skill

level ranges between senior high school and college-101 standards. In addition to their self-teaching value, these books are also widely used as textbooks or textbook supplements in classroom settings. E-Z books review their subjects in detail and feature short quizzes and longer tests to help students gauge their learning progress. All exercises and tests come with answers. Subject heads and key phrases are set in a second color as an easy reference aid.
