More than 70 of the most academically competitive four-year colleges in the United States are described in detail, each entry written by a recent graduate of that school. The book's personalized entries offer insights that readers aren't likely to find in other college directories, such as first-hand descriptions of campus environment, social life and activities, and nearby off-campus activities and points of interest. Each college profile also includes the standard "need-to-know" facts and figures, such as admission requirements, academic programs, tuitions and fees, application procedures, sources of financial aid, library and research facilities, student body composition, and admission contacts. Not every aspiring student can get into America's most competitive colleges, and this book also suggests application strategies, study strategies, essay-writing strategies, and financing strategies designed to help students gain admission. Also featured is a Most Competitive Comparison Chart that presents at-a-glance statistics for each school.

IELTS Preparation and Practice

Only the best prepared are chosen to start the highly competitive multimillion-dollar training programs that transform aspiring candidates into U.S. military

aviators. This fully updated edition of Barron's Military Flight Aptitude Tests provides would-be aviators in all five U.S. armed services with the competitive edge they will need to score their best and maximize their chances of being selected! This book is an effective, full-spectrum resource for officer candidates, ROTC cadets from all services, and current military members. Six full-length practice tests (two per service) with answers and explanations for every question get readers ready for the Air Force Officer Qualifying Test (AFOQT), the Selection Instrument for Flight Training (SIFT), and the Navy/Marine Corps/Coast Guard Aviation Selection Test Battery (ASTB-E). Test overviews and detailed review sections give potential pilots the boost they need to rise to the top of the selection list, and most of the review subjects apply to all three tests. Successful aviation applicants strongly recommend working through every valuable review section, and the other services' tests are great for extra practice to reinforce your learning. Written by a veteran, joint qualified military officer and instructor, this book's review sections cover language skills, reading comprehension, math knowledge, arithmetic reasoning, mechanical comprehension, aviation and nautical technical information, science, and specific mental skills such as block counting, finding hidden figures, and spatial apperception. The author also coaches readers on effective study techniques, provides expanded information resources, and gives pilot candidates a thorough preview of how each test is structured and conducted.
