Bureau of Ships Journal

With the same rigorous observation (natural and social), invigorating stylishness, and encyclopedic learning that he brought to his National Book Award-winning *Bad Land*, Jonathan Raban conducts readers along the Inside Passage from Seattle to Juneau. The physical distance is 1,000 miles of difficult-and often treacherous-water, which Raban navigates solo in a 35-foot sailboat. But *Passage to Juneau* also traverses a gulf of centuries and cultures: the immeasurable divide between the Northwest's Indians and its first European explorers-- between its embattled fishermen and loggers and its pampered new class. Along the way, Raban offers captivating discourses on art, philosophy, and navigation and an unsparing narrative of personal loss.

The Boat of a Million Years

Cruising World

The #1 New York Times–bestselling story about American Olympic triumph in Nazi Germany and now the inspiration for the PBS documentary “The Boys of ‘36'.” For readers of *Unbroken*, out of the depths of the Depression comes an irresistible story about beating the odds and finding hope in the most desperate of times—the improbable, intimate account of how nine working-class boys from the American West showed the world at the 1936 Olympics in Berlin what true grit really meant. It was an unlikely quest from the start. With a team composed of the sons of loggers, shipyard workers, and farmers, the University of Washington’s eight-oar crew team was never expected to defeat the elite teams of the East Coast and Great Britain, yet they did, going on to shock the world by defeating the German team rowing for Adolf Hitler. The emotional heart of the tale lies with Joe Rantz, a teenager without family or prospects, who rows not only to regain his shattered self-regard but also to find a real place for himself in the world. Drawing on the boys’ own journals and vivid memories of a once-in-a-lifetime shared dream, Brown has created an unforgettable portrait of an era, a celebration of a remarkable achievement, and a chronicle of one extraordinary young man’s personal quest.

The Open Boat

"Solitude is terrifying and awe-inspiring in Alone." -The Wall Street Journal In April 2013, fifty-year-old Brett Archibald was on board a surf-charter boat, making a night-time crossing of the remote Mentawai Strait off Sumatra, Indonesia. In the middle of a storm, ill with severe food poisoning, he blacked out. When he came to, he found himself in the raging sea, sixty miles from shore. As Brett saw the lights of his boat disappearing into the darkness, it became clear that no one had seen him fall, and that no one would hear his shouts for help. He was alone in the ocean. It would be eight hours before his friends realized he was missing. At that point a frantic search began for a single man somewhere in thousands of square miles of heaving waves. The rough weather meant that no planes or helicopters could assist in the search. According to the experts, he should have died within ten to fourteen hours. Instead, Brett battled Portuguese man o' war and jellyfish, sharks, seagulls, and the stormy seas for more than 28 hours. Alone is the remarkable tale of his miraculous survival and rescue. It is also the story of what it takes to defy extraordinary odds and the incredible power of the human spirit.

Ultrasimple Boat Building

A New York Times Notable Book "Sea Wife is a gripping tale of survival at sea—but that's just the beginning. Amity Gaige also manages, before she's done, to probe the underpinnings of romantic love, marriage, literary ambition, political inclinations in the Trump age, parenthood, and finally, the nature of survival itself in our broken world. Gaige is thrillingly talented, and her novel enchants." —Jennifer Egan "Sea Wife brilliantly breathes life not only into the perils of living at sea, but also into the fraught and hidden dangers of domesticity, motherhood, and marriage. What a smart, swift, and thrilling novel." —Lauren Groff From the highly acclaimed author of Schroder, a smart, sophisticated page literary page-turner about a young family who escape suburbia for a yearlong sailing trip that upends all of their lives. Juliet is failing to juggle motherhood and her stalled-out dissertation on confessional poetry when her husband, Michael, informs her that he wants to leave his job and buy a sailboat. With their two kids—Sybil, age seven, and George, age two—Juliet and Michael set off for Panama, where their forty-four foot sailboat awaits them. The initial result is transformative; the marriage is given a gust of energy, Juliet emerges from her depression, and the children quickly embrace the joys of being feral children at sea. Despite the stresses of being novice sailors, the family learns to crew the boat together on the ever-changing sea. The vast horizons and isolated islands offer Juliet and Michael reprieve — until they are tested by the unforeseen. Sea Wife is told in gripping dual perspectives: Juliet's first person narration, after the journey, as she struggles to come to terms with the life-changing events that unfolded at sea, and Michael's captain's log, which provides a riveting, slow-motion account of these same inexorable events, a dialogue that reveals the fault lines created by personal history and political divisions. Sea Wife is a transporting novel about marriage, family and

love in a time of unprecedented turmoil. It is unforgettable in its power and astonishingly perceptive in its portrayal of optimism, disillusionment, and survival.

Shouldn't your boat's name look as distinctive as your boat? A well-chosen and well-designed name on a transom or topsides is the finishing touch and creates the ultimate first impression for any boat. Your boat's name is the single most highly visible clue to your nautical interests and sensibilities. Whether the name is whimsical (Y-Knot), classical (Terpsichore), irreverent (Aquaholic), mythical (Valkyrie), sly (For Sail), romantic (Wayfarer), or full of attitude (Bite Me), it won't communicate your message without an effective design. Choose the lettering and graphic style that best expresses your boating

The Rudder

The Boys in the Boat

For new boating enthusiasts--even if they've been at it awhile--there are scores of burning questions. If one boat has a round bottom and another's is veed, what difference does it make in the way they perform? What are the advantages of a cutter rig over a sloop? Why does one sailor swear by a full keel, while others won't have anything but a fin keel? Why does one powerboat have more flare in its topsides than another? And what is flare? Why do some hull shapes look "right"? How big an engine and propeller will it take to move that powerboat? What elements make a boat safe, or comfortable? Understanding Boat Design has been the place to look for quick, uncomplicated answers since 1971. Founder of the Yacht Design Institute, a highly respected designer for more than 30 years, and a frequent contributor to SAIL, Cruising World, and other magazines, Ted Brewer has again revised his classic primer. This new volume has been greatly expanded and contains information on many aspects of design that were not even thought of twenty years ago. Understanding Boat Design has eased tens of thousands of readers into the complex world of small-craft design. It is the ideal introduction for backyard boatbuilders, students of boat design, or someone looking to buy a first boat. "This tight little book should be required reading."--Soundings "A natural for those embarking on a first purchase, or the amateur builder."--Sailing "One of the cleanest and clearest expositions on the elements of yacht design ever
