Here is the fascinating story of Bertolia Studio, where Sound Sculpture was invented and new ideas of what art is were developed. This book documents all the types of original sculptures, graphics, and commissions made by Harry Bertolia and his son, Val Bertolia, from the 1950s to the present. Harry Bertolia helped Charles Eames to develop a chair design, and went on to create the famous Bertolia chairs for Knoll. Over 500 photographs show the Bertolias evolution of ideas that explore the relationships of space, color, and sound. Art collectors have been passionate in their praise and enjoyment of Bertolias work for over fifty years.
