Dinghy Team Racing

Even the most well designed boats will suffer from wear and tear due to normal use on the water. Whilst accidents are less common, they too

can result in damage which needs to be repaired on the spot. Highly illustrated, with step by step instructions, this book equips the reader with the vital 'first aid' skills he needs to make temporary repairs until he can get back to harbour. The Boat Repair Bible helps anyone who owns a boat to develop essential repair skills in the areas where problems most commonly arise. The section on hull and deck repairs covers fibreglass, wood, steel and ferro-cement hulls, and shows the reader how to deal with everything from leaks to impact damage, and much, much more. This section also covers domestic repairs, such as repairing upholstery, and troubleshooting problems with the heads. Amongst the many other techniques described, the section on general mechanics includes instructions on how to fix problems with a split fuel/water tank and leaking hydraulics, whilst the section on electrical repairs explains how to trace loose connections, replace damaged wiring and fix navigation instruments. The myriad of issues that can arise with the engine are covered in great detail, from how to deal with water in the fuel system to replacing the propeller and its shaft. From basic skills in safety, surveying and the use of tools, to advanced instructions on how to replace an engine, The Boat Repair Bible is as comprehensive as it is invaluable. With repairs specific to powerboats, sailboats, dinghies and outboards, it is a book no boat owner can afford not to own.

Sailing Acts

For those who love sailing and you-are-there travel literature. Also for those who enjoy studying the life and times of the Apostle Paul. But definitely for those who love adventure, or at least reading about it! Seafaring isn't for the faint of heart. It wasn't for the Apostle Paul in the first century A.D.—shipwrecked, imprisoned, and often a stranger in foreign lands. And it turned out to be a heart-stopping task some two thousand years later, when a religion professor and his wife undertook a 14-month journey by sailboat! They stopped in eight countries, visiting every site where Paul stopped on his tumultuous missionary journeys. "Sailing Acts" traces this 21st-century voyage from Volos, Greece, to Rome, Italy, by car, by foot, by motorized scooter, but mostly on a 33-foot boat, logging more than 3600 nautical

miles over two sailing seasons. "Explorers are easy to admire or despise, but very difficult to understand without going on the trip," writes Stutzman. "To really appreciate the experiences, the drama, and development of Paul the explorer, you need to sail with him." So begins *Sailing Acts*, inviting readers to come on board. Stutzman draws thoughtful comparisons from his own travel mishaps and adventures to the ones Paul experienced on his journeys. This book is in the tradition of Bruce Feiler's *Walking the Bible*. Stutzman's knowledge of the socio-political setting in the first-century Roman empire provides an informative backdrop to understanding Paul and reading his epistles in a new light. The book includes dozens of photos, maps showing the couple's travel routes, a list of all the repairs and replacements Stutzman made to the aging boat which he bought sight-unseen, and an itinerary of places they visited.
