Seeing Red

THE NEW YORK TIMES BESTSELLER “A mesmerizing new historical novel” (O, The Oprah Magazine) from Lisa See, the bestselling author of *The Tea Girl of Hummingbird Lane*, about female friendship and devastating family secrets on a small Korean island. Mi-ja and Young-sook, two girls living on the Korean island of Jeju, are best friends who come from very different backgrounds. When they are old enough, they begin working in the sea with their village’s all-female diving collective, led by Young-sook’s mother. As the girls take up their positions as baby divers, they know they are beginning a life of excitement and responsibility—but also danger. Despite their love for each other, Mi-ja and Young-sook find it impossible to ignore their differences. *The Island of Sea Women* takes place over many decades, beginning during a period of Japanese colonialism in the 1930s and 1940s, followed by World War II, the Korean War, through the era of cell phones and wet suits for the women divers. Throughout this time, the residents of Jeju find themselves caught between warring empires. Mi-ja is the daughter of a Japanese collaborator. Young-sook was born into a long line of haenyeo and will inherit her mother’s position leading the divers in their village. Little do the two friends know that forces outside their control will push their friendship to the breaking point. “This vivid...thoughtful and empathetic” novel (The New York Times Book Review) illuminates a world turned upside down, one where the women are in charge and the men take care of the children. “A wonderful ode to a truly singular group of

A world-renowned women’s health expert reveals a bold, practical, and data-driven handbook for menstrual periods that provides an easy-to-navigate roadmap for improving your reproductive health—and your everyday quality of life. We’ve been lied to about periods. PMS, cramping, bloating, migraines, irritability, and anxiety may be extremely common, but contrary to popular belief, they aren’t normal. And they certainly aren’t “just part of being a woman,” despite the fact that this is what

we've been told time and time again—by friends, family, and even doctors. After dedicating her entire clinical career to deconstructing the menstrual cycle, women's health expert Kirsten Karchmer knows better. During her more than twenty years of research and treating thousands of patients, Karchmer found that most period problems women experience—even the most painful ones—are totally correctable and more surprisingly reflective of overall health and fertility. In this forthright, spirited, and all-encompassing guide, Karchmer draws on her decades' worth of experience as a women's health expert to break down the myths so many women have been led to believe about their periods. For the more than 82 million women in the world who suffer from menstrual conditions, *Seeing Red* explains the importance of a healthy menstrual cycle (and how to achieve it) and why it is important to the women's movement. Menstrual cycles are not a curse, but an instrument providing women with one of the most valuable, regularly occurring, and free diagnostic tools they have, giving them access to unprecedented health and power.

Does Every Woman Have an Eating Disorder?

Do You Have an Unhealthy Relationship with Food or Your Body? Does every woman have an eating disorder? It's a bold question but one that must be asked. Why is it that today's women--successful students, career women, wives, and mothers--are struggling more than ever with food and weight? Even those who don't suffer from a clinical eating disorder seem to have some sort of issue around food and weight. We live in a culture of culinary abundance but are taught to do whatever it takes to shrink our flesh. From an early age, women are bombarded with messages regarding what size and shape they should be, a campaign that takes a toll on their relationship with food, their self-esteem, and their health. It's hard to go a day without seeing an advertisement for a new diet product, overhearing a conversation about weight between colleagues or a plan of attack between friends as they brace themselves for dining out, or reading a headline about our nation's obesity crisis. thought-provoking story of a wife who does the "unthinkable." Strolling in on Vernon and his mistress one night, Brandi Spencer insists that the new woman in his life come home and earn her keep the honest way -- on her feet helping the wife clean the house, keep the children and pay the bills, instead of laying on her back servicing the husband. Tanya Kaufman has had one shock too many -- one minute she's a fiancée, the next she finds out she's been the mistress all along. When Tanya shows up during the surprise anniversary party to take Brandi up on her offer, the women seize the opportunity to teach Vernon that infidelity will no longer come at the expense of the women's time, money, and happiness. Vernon fights back by launching a high-profile court battle that doesn't have a thing to do with splitting the money, keeping the house, or visitation rights. Had any married couple ever fought for custody of the mistress?

Two books in one in a flip dos-à-dos format: The story of Aleksandar Hemon's parents' immigration from Sarajevo to Canada and a book of short memories of the author's family, friends, and childhood in Sarajevo In My Parents, Aleksandar Hemon tells the story of his parents' immigration to Canada—of the lives that were upended by the war in Bosnia and siege of Sarajevo and the new lives his parents were forced to build. As ever with his work, he portrays both the perfect, intimate details (his mother's lonely upbringing, his father's fanatical beekeeping) and a sweeping, heartbreaking history of his native country. It is a story full of many Hemons, of course—his parents, sister, uncles, cousins—and also of German occupying forces, Yugoslav partisans, royalist Serb collaborators, singing

Ukrainians, and a few befuddled Canadians. My Parents is Hemon at his very best, grounded in stories lovingly polished by retelling, but making them exhilarating and fresh in writing, summoning unexpected laughs in the midst of the heartbreaking narratives. This Does Not Belong to You, meanwhile, is the exhilarating, freewheeling, unabashedly personal companion to My Parents—a perfect dose of Hemon at his most dazzling and untempered in a series of beautifully distilled memories and observations and explosive, hilarious, poignant miniatures. Presented dos-à-dos with My Parents, it complements and completes a major work from a major writer. In the words of Colum McCann, “Aleksandar Hemon is, quite frankly, the greatest writer of our generation.” Hemon has never been better than here in these pages. And the moment has never been more ready for his voice, nor has the world ever been more in need of it.
