These snappy maternal cautions include: If you feel guilty about throwing away leftovers, put them in the back of your refrigerator for five days and then throw them out. If you run out of food at your dinner party, the world will end. When traveling, call the hotel from the airport to say there aren't enough towels in your room and, by the way, you'd like a room with a better view. It is easy to forget how deeply embedded in social hierarchy was the literature and learning that has come down to us from the early modern European world. From fiction to philosophy, from poetry to history, works of all kinds emerged from and through the social hierarchy that was a fundamental fact of everyday life. Paying attention to it changes how we might understand and interpret the works themselves, whether canonical and familiar or largely forgotten. But a second, related fact is much overlooked too: works also often emanated from families, not just from individuals. Families were driving forces in the production--that is, in the composing, editing, translating, or publishing--of countless works. Relatives collaborated with each other, edited each other, or continued the unfinished works of deceased family members; some imitated or were inspired by the works of long-dead relatives. The reason why this second fact (about families) is connected to the first (about social hierarchy) is that families were in the period a basic social medium through which social status was claimed, maintained, threatened, or lost. So producing literary works was one of the many ways in which families claimed their place in the social world. The process was however often fraught, difficult, or disappointing. If families created works as a form of socio-cultural legacy that might continue to benefit their future members, not all members benefited equally; women sometimes produced or claimed the legacy for themselves, but they were often

sidelined from it. Relatives sometimes disagreed bitterly about family history, identity (not least religious), and so about the picture of themselves and their family that they wished to project more widely in society through their written works, whether printed or manuscript. So although family was a fundamental social medium out of which so many works emerged, that process could be conflictual as well as harmonious. The intertwined role of family and social hierarchy within literary production is explored in this book through the case of France, from the late fifteenth to the mid-seventeenth century. Some families are studied here in detail, such as that of the most widely read French poet of the age, Clément Marot. But the extent of this phenomenon is quantified too: some two hundred families are identified as each containing more than one literary producer, and in the case of one family an extraordinary twenty-seven.

Farewell, Godspeed

Annual Report of the Board of Regents of the Smithsonian Institution

Farewell, Godspeed is a remarkable collection of eulogies for some of the most notable figures of our time, delivered by the people who knew them best. In the words used to eulogize the great and

celebrated men and women of the world—sometimes reverential, sometimes funny, always poignant—we come as close as perhaps we ever will to seeing the warm humanity beneath their public personas. Cyrus M. Copeland has gathered some of the greatest of these writings about artists, scientists, authors, public servants, entertainers, and others who have captured our attention by making the world a better, or at least a livelier, place. Here is Andy Warhol ' s close friend describing Warhol ' s hidden spirituality. Albert Einstein ' s assistant recounting his humanism. Edward Kennedy remembering with a brother ' s tenderness the life of Jacqueline Kennedy Onassis. Larry McMurtry ' s lively and loving tribute to Irving " Swifty " Lazar. And Robert Bernstein, longtime publisher and friend of Dr. Seuss, memorializing him with special, never-before-published verse. Also included are the eulogies of the Challenger astronauts by President Ronald Reagan; Charles Schulz by Cathy Guisewite (creator of the comic strip Cathy); Bette Davis by James Woods; Bob Fosse by Neil Simon; Lucille Ball by Diane Sawyer; Martin Luther King Jr. by Benjamin E. Mays; David O. Selznick by Truman Capote; Karl Marx by Friedrich Engels; and Gianni Versace by Madonna. In these moving and personal tributes we see at last the vulnerabilities and nuances of character that are often hidden from the spotlight, and the true personalities behind the names we remember. From the Hardcover edition.

write your own eulogy and includes a template with directions for anyone at any stage in their life to create a life filled with joy. Is it possible to design a path to Joy and heal your Life? How do we get the life we want? Sometimes we need a wake-up call to understand that "Our life does not just 'happen, ' but whether we know it or not, it is carefully designed by us as quoted from Dr Covey's bestseller. . This is what happened for Mimi Mimi's appendix had ruptured, septicemia was spreading through her abdominal wall. Surgeons decided against operating, citing a 3 in 5 chance of an adverse outcome. Hideous pain relentlessly pulsed through her body whilst her daughter continuously refused for morphine to be administered. My Story of Survival explains what happened when her eldest daughter received a premonition a couple of weeks before Mimi's medical emergency admission to hospital. It is now nearly ten years later and Mimi is thriving. One essential component of her recovery was her change of mindset which came about when her Guardian Angel kicked her bum and wrote her eulogy. 'Is this how you would like to be remembered?' This powerful meditation became the thought she went to bed with and the thought she woke up with. 'Hell no!' She did not want to be remembered for her untidy drawers, her failures, her decline in social status, poor health, broken relationship, loss of home and fortune. Manifest your dreams How does she want to be remembered? Her aspirations and dreams are written up in her eulogy to-be. It doesn't matter if you believe in angels or not. 'Something or someone' in the universe listens in when we write down our deepest desires and wishes as if they have already happened. And there is a response and 'things' happen. Good things mainly. How did she recover? After Mimi's Eulogy to-be was written, she's become a bestselling author and her books have listed #1 bestseller in more than 40 categories on Amazon. Now Mimi is sharing her formula so that others can also recover from life's inevitable knocks and bumps in the road and thrive and live their best possible life. The first stage of writing a eulogy is often referred to as information gathering. Experts recommend sitting down and brainstorming about the person you are commemorating before you begin the actual eulogy writing. By getting thoughts down in a free flowing manner, you may come up with details, stories, or attributes about the person that you may not if you try to follow a strict outline setting from the outset. Think about what the person looked like, hobbies, career, family life, and any stories you might want to share. The more details you can add the better. Don ' t worry about flow or organization at this point. All you are trying to do is get some ideas down on paper. Next, call some family or friends of the deceased and ask them if they have any stories or memories they would like to share, find out if the deceased had any favorite songs, poetry, or literature that would be good to include. Next you will want to start organizing your eulogy. Some people like to prepare an outline. You will want to include biographical information, perhaps a bit about where the person grew up, their family life, places they lived, also mention their children and spouse if applicable. You could also include career information in this section as well. Buy a copy to keep reading!

Eulogy Writing

Eulogies have a long and important history in remembering and commemorating the dead. As Thomas Lynch notes in his Foreword, eulogies are meant "to speak for the ages, to bring homage and appreciation, the final appraisal, the last word and first draft of all future biography." In *Great American Catholic Eulogies*, Carol DeChant has compiled fifty of the most memorable and instructive eulogies of and by Catholics in America. The eulogies span the American experience, from those who were born before the Declaration of Independence was written to a modern sports legend, from pioneers in social justice, healthcare, and the arts to founders of distinctly American religious order, and from all the varied ethnic cultures who contribute to the great cultural milieu that is the United States.

Living Your Chosen Eulogy is beyond self help, a book on world help. It redefines kindness, illustrating how each of us is an indispensable, critical link in the chain of values that betters the world.

John Gardner's career was permanently changed by his publication of *On Moral Fiction* (1978), a controversial and derided assessment of the state of literature as Gardner saw it. By arguing for a return to greater seriousness and moral commitments in literature, Gardner found himself attacked on all sides

by critics and writers who found his conservatism suspicious or simply irrelevant. In this short tribute to Gardner's late intellectual concerns, Phil Jourdan looks at some of the difficulties in *On Moral Fiction*, and asks whether Gardner was rigorous enough in his deployment of various philosophical concepts through his book. Convinced that, despite any problems of argumentative method or intellectual honesty, *On Moral Fiction*'s basic message should not be dismissed outright, Jourdan tries to determine what is superfluous to the book, so that we may focus on its core: a call for writers not to forget their moral influence on readers. Now that Gardner's career is half-forgotten, it is worth remembering this impassioned and public debate on the role of literature has been around far longer than we care to pretend: throughout the centuries, as literature attempts to define itself over and over, the question of morality is always lurking in the background. In *John Gardner: A Tiny Eulogy*, Phil Jourdan tries to separate the man from the argument, and insists that the latter should not be dismissed because of the imperfection of the former.
