not ahead at uncertainty (or, heaven forbid, around at the chaos currently surrounding them), but to the past to their simpler childhoods. The generation who championed the coloring book-as-relaxation trend grew up in a world in which they spent hours obsessing over, trading, and decorating with stickers. And it is with brightly colored stickers that they will finally find peace of mind. For a little while, at least. Filled with 100 full-color removable stickers that can be used to decorate journals, notebooks, or your lapel to proudly and publicly proclaim life's little victories, *I Adulted!* is the ideal nostalgic and practical book for anyone who feels a sense of accomplishment by making it through a day without calling their mother for help.

every day of the year. It is inspired by the National Day Calendar, a compilation of appreciation days for everything from pizza to popsicles. Beginning in January and ending in December, each page is dedicated to trying something new, enjoying the little things, and feeling a sense of accomplishment by marking the passage of time in a journal. For example, March 5 is "Learn What Your Name Means Day," so do a little research into your moniker and then write an acrostic poem based on its letters. Some days involve performing good deeds, others require eating a donut, and a few recommend a little soul searching. Illustrated by Hello!Lucky, a trendsetting design studio, the entire Celebrate Today collection includes a dot-gridded journal, a paperback notebook, and a book of stickers designed for decorating a planner.

Brutally honest, often hilarious, hard-won lessons in learning to love and care for yourself from a young vice president at Comedy Central who was called "ahead of her time" by Jordan Peele "Compelling, persuasive, and useful no matter where you are in your life."--Chelsea Handler, #1 New York Times bestselling author of Life Will Be the Death of Me "A bracingly honest, funny read . . . like Wild meets You Are a Badass."--Adam Grant, #1 New York Times bestselling author of Give and Take, Originals, and Option B By the time she was in her late twenties, Tara Schuster was a rising TV executive who had worked for The Daily Show with Jon Stewart and helped launch Key & Peele to viral superstardom. By all appearances, she had mastered being a grown-up. But beneath that veneer of success, she was a chronically anxious, self-medicating mess. No one knew that her road to adulthood had been paved with depression, anxiety, and shame, owing in large part to her minimally parented upbringing. She realized she'd hit rock bottom when she drunk-dialed her therapist pleading for help. Buy Yourself the F\*cking Lilies is the story of Tara's path to re-parenting herself and becoming a "ninja of self-love." Through simple, daily rituals, Tara transformed her mind, body, and relationships, and shows how to \* fake gratitude until you actually feel gratitude \* excavate your emotional
