seen on the Hillsong Channel, is that the apostle Paul who's writings are in the Bible knows the same truth that I expose in this book. A truth that God has Graced me with knowing from my over 15 years of study of the Bible. A truth that rarely has ever been written about until me, well except for Paul. You are about to discover a truth that God placed in the Bible almost 2000 years ago. A truth that is meant to be discovered in our time because the truth's full wisdom can only be fully understood by us going back only a couple hundred years ago. Where at this time God has only Graced us to have the letters we do have from Paul and the letter where Paul writes about the story in this book is missing. But Paul did write about the truth contained in this book but no one has ever understood what exactly Paul was writing in the Bible about until now!. And soon you will too when you finish reading this book! Now imagine yourself alive over 2000 years ago at the first Christmas when a star appeared in the sky marking the birth of a great king. Go along with me as we travel with the wise men who follow this star which leads us to Jerusalem where we continue this search for this great boy King we all know today as Jesus Christ. Walk with me through the Bible and the actual historical records so as to learn the truth to this over 2000 year old Christmas mystery, where I say mystery because king Herod, the one whom we have always been told was the one who attempted to murder Jesus Christ when He was just a child may not in fact be the culprit to the plot. In the end when the true mastermind is finally revealed see how knowing this emerald of truth can bring forth in your own life blessings and a closer relationship with God today in our modern time, tomorrow and perhaps forever.

devote one's life to intense study to reap the rich rewards of the Kabbalah. With just a basic understanding of a few key concepts, our lives can be enriched immensely. We can then begin to fulfill our deepest dreams and reach our most important goals, becoming the people we long to become. By learning to understand the Sefirot--the ten spiritual properties that flow from the cosmic source into our heart--we can connect to the universe and profoundly transform our experience of daily life. For example, Hessed, or "loving-kindness," represents the desire to be generous, while Gevurah is the desire to focus intently or withhold. These properties must be balanced in order for harmony and well-being to occur. Rabbi Laibl Wolf shows how to maintain that balance and enjoy a healthy and productive life by using simple meditation and creative visualization techniques to grasp the spiritual nature of our life. Practical Kabbalah draws upon ancient wisdom but offers a modern interpretation and easy-to-understand techniques for delving deeper into our selves and our world and for reaping the bounteous gifts that were always meant for us. From the Trade Paperback edition.

This book is designed to: Provide students with the tools to model, analyze and solve a wide range of engineering applications involving conduction heat transfer. Introduce students to three topics not commonly covered in conduction heat transfer textbooks: perturbation methods, heat transfer in living tissue, and microscale conduction. Take advantage of the mathematical simplicity of 0-dimensional conduction to present and explore a variety of physical situations that are of practical interest. Present textbook material in an efficient and concise manner to be covered in its entirety in a one semester graduate course. Drill students in a systematic problem solving methodology with emphasis on thought process, logic, reasoning and verification. To accomplish these objectives requires judgment and balance in the selection of topics and the level of details. Mathematical techniques are presented in simplified fashion to be used as tools in obtaining solutions. Examples are carefully selected to illustrate the application of principles and the construction of solutions. Solutions follow an orderly approach which is used in all examples. To provide consistency in solutions logic, I have prepared solutions to all problems included in the first ten chapters myself. Instructors are urged to make them available electronically rather than posting them or presenting them in class in an abridged form.
