Tracing her success from its beginnings in San Antonio, Texas, Ally details the passion for music that took hold of her at a young age, and how with the help of her family she pushed herself to achieve her dreams, no matter how impossible they seemed. While her rise to fame was rapid, it wasn’t always smooth, and Ally candidly discusses the challenges she faced along the way, sharing how she navigated tough moments by staying true to herself and her beliefs. Opening up about her journey since Fifth Harmony disbanded, Ally recalls her tireless efforts to make music on her terms, charting back to back singles in the top 40 and amassing over 200 million collective worldwide streams. She also delves into her time on *Dancing with the Stars*, demonstrating how she conquered her fears and insecurities on her way to a top three finish and further established herself as a role model for young people the world over. Infused with the positive approach to life and spiritual openness that have fueled Ally’s journey, *Finding Your Harmony* uses her stories to help others follow their inner voices—even when the outside world makes it hard. Wise, grounded, and filled with sixteen pages of never-before-seen photos, *Finding Your Harmony* is a fascinating glimpse into the life and heart of one of popular music’s rising stars.

Finding Your Harmony

13 Chilling Tales is a book of original short stories. Most all of these tales were based on concepts that might possibly be expanded to novels. Since the paranormal has many layers of interest, this book samples a variety. We have a vampire, ghosts, a werewolf, the walking dead, a

gypsy, a Ouija board, time travel, Bigfoot, and even Death himself. The endings will sneak up on you and are meant to shock or surprise. Many of the characters involved might resemble people you know. It is the author's intent to take you on a brief journey to visit things that we may never understand. In some cases these places may seem familiar and the settings realistic which, makes it all the more frightening. Many of these stories begin in the world of collectables, where naive individuals purchase items from people they don't really know. They could be people who may have hidden motivations lying below the surface. Then again, it might be the item itself. Who was the former owner? Were they good, or evil, and still clinging to this item from the beyond? All too often a person buys an antique or collectable, and gets much more than they expected but when their realization takes place..it is far too late! As a bonus there is a 14th story. The author dispels a true urban legend and ghost story. Incredibly it is an urban legend that was created unintentionally by author himself. An urban legend which he learned about 30 years later! You will read 13 Chilling tales and experience a spectrum of entertainment. Afterward, you may never view a flea market, antique fair, garage sale or second store the same ever again."

Imagine mathematics, imagine with the help of mathematics, imagine new worlds, new geometries, new forms. Imagine building mathematical models that make it possible to manage our world better, imagine solving great problems, imagine new problems never before thought of, imagine combining music, art, poetry, literature, architecture, theatre and cinema with mathematics. Imagine the unpredictable and sometimes counterintuitive applications of mathematics in all areas of human endeavour. This seventh volume starts with a homage to the Italian artist Mimmo Paladino who created exclusively for the Venice Conference 2019 ten original and unique works of art paper dedicated to the themes of the meeting. A large section is dedicated to the most recent Fields Medals including a Homage to Maryam Mirzakhani including a presentation of the exhibition on soap bubbles in art and science that took place in 2019. A section is dedicated to cinema and theatre including the performances by Claire Bardainne & Adrien Mondot. A part of the conference focused on the community of mathematicians, their role in literature and even in politics with the extraordinary example of Antanas Mockus Major of Bogotá. Mathematics in the constructions of bridges, in particular in Italy in the Sixties was presented by Tullia Iori. A very particular contribution on Origami by a mathematician, Marco Abate and an artist, Alessandro Beber. And many other topics. As usual the topics are treated in a way that is rigorous but captivating, detailed and full of evocations. This is an all-embracing look at the world of mathematics and culture. This work is addressed to all those who have an interest in Mathematics.

"So ask yourself the question: "What does the life I long to live look like?" Imagine it! Draw it, write it, collage it and just plain dream it. Believe you can have it and then go about creating it as you take daily steps towards becoming an enhanced version of yourself! All successful people are big dreamers. They imagine what their future could be, ideal in every respect, and then they work every day toward their distant vision, that goal or purpose"--

Winner of the Northern California Independent Booksellers Award for Poetry (2009) Winner of the American Book Award (2009) In 1965, when the poet Jack Spicer died at the age of forty, he left behind a trunkful of papers and manuscripts and a few copies of the seven small books he had seen to press. A West Coast poet, his influence spanned the national literary scene of the 1950s and '60s, though in many

ways Spicer's innovative writing ran counter to that of his contemporaries in the New York School and the West Coast Beat movement. Now, more than forty years later, Spicer's voice is more compelling, insistent, and timely than ever. During his short but prolific life, Spicer troubled the concepts of translation, voice, and the act of poetic composition itself. *My Vocabulary Did This to Me* is a landmark publication of this essential poet's life work, and includes poems that have become increasingly hard to find and many published here for the first time.

Nathan and Tammy Whisnant were once there themselves-overweight, exhausted, and unable to enjoy their grandchildren.
