Unbeknownst to Tam, she is the prize in a centuries-old fight between Summer Court and Winter Court. "What a delight to discover how much I loved being back in the Wicked Lovely world, discovering details about beloved characters that made me want to race back for a series reread. This is Irial's story set in 1890s New Orleans, brimming with faerie court drama and steamy romance. Can we. and should we, outrun fate? And if so, are we prepared for the consequences? I could not put it down." --Angela Mann, Kepler's Books, Menlo Park CA "Set 100 years before the events in Wicked Lovely, Cold Iron Heart finds Irial, the king of the Dark Court, in New Orleans and entranced by a mortal. Melissa Marr masterfully rises to challenge of writing a prequel by both expanding on the mythology of the original series while telling a story that exists wholly on its own. Fans of the series will inhale this delicious glimpse into Irial's past."--John McDougall of Murder by the Book, Houston TX

The First Conspiracy

It was a horrific car crash. On the way home from swim practice, eighteen-year old Brian Boyle's future changed in an instant when a dump truck plowed into his Camaro. He was airlifted to a shock-trauma hospital. He had lost sixty percent of his blood, his heart had moved across his chest, and his organs and pelvis were pulverized. He was placed in a medically-induced coma. When Brian finally emerged from the coma two months later, he had no memory of the accident. He could see and hear, but not move or talk. Unable to communicate to his doctors, nurses, or frantic parents, he heard words like "vegetable" and "nursing home." If he lived, doctors predicted he might not be able to walk again, and certainly not swim. Then, miraculously, Brian clawed his way back to the living. First blinking his eyelids, then squeezing a hand, then smiling, he gradually emerged from his locked-in state. The former swimmer and bodybuilder had lost one hundred pounds. Iron Heart is the first-person account of his ordeal and his miraculous comeback. With enormous fortitude he learned to walk, then run, and eventually, to swim. With his dream of competing in the Ironman Triathlon spurring him on, Brian defied all odds, and three-and-a-half years after his accident, crossed the finish line in Kona, Hawaii. Brian's inspiring journey from coma to Kona is brought to life in this memoir.

The Big Book of Endurance Training and Racing

What if V-E Day didn't end World War II in Europe? What if, instead, the Allies had to face a potent, even fanatical, postwar Nazi resistance? Such a movement, based in the fabled Alpine Redoubt, was in fact a real threat, ultimately neutralized by Germany's flagging resources and squabbling officials. But had SS Obergruppenführer Reinhard Heydrich, the notorious Man with the Iron Heart, not been assassinated in 1942, fate might have taken a different turn. We might likely have seen a German guerrilla war launched against the conquerors, presaging by more than half a century the protracted conflict with an unrelenting enemy that now engulfs the United States and its allies in Iraq. How might today's clash of troops versus terrorists have played out in 1945? In this imagined world, Nazi forces resort to unconventional warfare, using the quick and dirty tactics of terrorism—booby traps, time bombs, mortar and rocket strikes in the night, assassinations, even kamikaze-style suicide attacks—to overturn what seemed to be a decisive Allied victory. In November 1945, a truck bomb blows up the Nuremberg Palace of Justice, where high-ranking Nazi officials are about to stand trial for war crimes. None of the accused are there when the bomb goes off, but their judges, all of them present and accounted for, are annihilated. Worse acts of terrorism follow all over Europe. Suddenly the Allies—especially the United States—must battle an invisible enemy and sacrifice countless lives in a long, seemingly pointless, unwinnable conflict. On the home front, patriotism corrodes, political fortunes are made and lost in the face of an antiwar backlash, and a once-proud country wonders how the righteous fight for freedom overseas has collapsed into a hopeless quagmire. At once a novel of thrilling military suspense, intriguing alternate history, and profound insight into contemporary affairs, *The Man with the Iron Heart* is a tour de force by a storyteller of exceptional imaginative power. From the Hardcover edition.

SWIM BARK RUN

From the acclaimed military history author, this action-packed World War II history describes the Allies' brutal naval engagements and daring harbor raids to destroy the backbone of Hitler's surface fleet. The sea had become a mass grave by 1941 as Hitler's four capital warships -- Scharnhorst, Gneisenau, Tirpitz, and Bismarck, the largest warship on the ocean -- roamed the wind-swept waves, threatening the Allied war effort and sending thousands of men to the icy depths of the North Atlantic. Bristling with guns and steeled in heavy armor, these reapers of the sea could outrun and outgun any battleship in the Allied arsenal. The deadly menace kept Winston Churchill awake at night; he deemed them "targets of supreme consequence." The campaign against Hitler's surface fleet would continue into the dying days of World War II and involve everything from massive warships engaged in bloody, fire-drenched battle to daring commando raids in German occupied harbors. This is the fast-paced story of the Allied bomber crews, brave sailors, and bold commandoes who "sunk the Bismarck" and won a hard-fought victory over Hitler's iron sea. Using official war diaries, combat reports, eyewitness accounts and personal letters, Simon Read brings the action and adventure to vivid life. The result is an enthralling and gripping story of the Allied heroes who fought on a watery battlefield.

Steel Boat, Iron Hearts

Newbery Medal winner Kelly Barnhill spins a wondrously different kind of fairy-tale: In most fairy tales, princesses are beautiful, dragons are terrifying, and stories are harmless. But this isn't most fairy tales Princess Violet is plain, reckless, and quite possibly too clever for her own good. Particularly when it comes to telling stories. One day she and her best friend, Demetrius, stumble upon a hidden room and find a peculiar book. A forbidden book. It tells a story of an evil being, called the Nybbas, imprisoned in their world. The story cannot be true--not really. But then the whispers start. Violet and Demetrius, along with an ancient, scarred dragon--the last dragon in existence, in fact--may hold the key to the Nybbas's triumph or its demise. It all depends on how they tell the story. After all, stories make their own rules. Iron Hearted Violet is a story about the power of stories, our belief in them, and how one enchanted tale changed the course of an entire kingdom. Ironheart Vol. 1

Taking place during the most critical period of our nation's birth, The First Conspiracy tells a remarkable and previously untold piece of American history that not only reveals George Washington's character, but also illuminates the origins of America's counterintelligence

movement that led to the modern day CIA. In 1776, an elite group of soldiers were handpicked to serve as George Washington's bodyguards. Washington trusted them; relied on them. But unbeknownst to Washington, some of them were part of a treasonous plan. In the months leading up to the Revolutionary War, these traitorous soldiers, along with the Governor of New York, William Tryon, and Mayor David Mathews, launched a deadly plot against the most important member of the military: George Washington himself. This is the story of the secret plot and how it was revealed. It is a story of leaders, liars, counterfeiters, and jailhouse confessors. It also shows just how hard the battle was for George Washington and how close America was to losing the Revolutionary War. In this historical page-turner, New York Times bestselling author Brad Meltzer teams up with American history writer and documentary television producer, Josh Mensch to unravel the shocking true story behind what has previously been a footnote in the pages of history. Drawing on extensive research, Meltzer and Mensch capture in riveting detail how George Washington not only defeated the most powerful military force in the world, but also uncovered the secret plot against him in the tumultuous days leading up to July 4, 1776. Praise for *The First Conspiracy*: "This is American history at its finest, a gripping story of spies, killers, counterfeiters, traitors?and a mysterious prostitute who may or may not have even existed. Iron, Fire and Ice

HHhH: "Himmlers Hirn heisst Heydrich", or "Himmler's brain is called Heydrich". The most dangerous man in Hitler's cabinet, Reinhard Heydrich was known as the "Butcher of Prague." He was feared by all and loathed by most. With his cold Aryan features and implacable cruelty, Heydrich seemed indestructible—until two men, a Slovak and a Czech recruited by the British secret service, killed him in broad daylight on a bustling street in Prague, and thus changed the course of History. Who were these men, arguably two of the most discreet heroes of the twentieth century? In Laurent Binet's captivating debut novel, we follow Jozef Gabčík and Jan Kubiš from their dramatic escape of Nazi-occupied Czechoslovakia to England; from their recruitment to their harrowing parachute drop into a war zone, from their stealth attack on Heydrich's car to their own brutal death in the basement of a Prague church. A seemingly effortlessly blend of historical truth, personal memory, and Laurent Binet's remarkable imagination, HHhH—an international bestseller and winner of the prestigious Prix Goncourt du Premier Roman—is a work at once thrilling and intellectually engrossing, a fast-paced novel of the Second World War that is also a profound meditation on the nature of writing and the debt we owe to history. HHhH is one of The New York Times' Notable Books of 2012.

The Afterward

Hans Goebeler is known as the man who “pulled the plug” on U-505 in 1944 to keep his beloved U-boat out of Allied hands. *Steel Boat, Iron Hearts* is his no-holds-barred account of service aboard a combat U-boat. It is the only full-length memoir of its kind, and Goebeler was aboard for every one of U-505's war patrols. Using his own experiences, log books, and correspondence with other U-boat crewmen, Goebeler offers rich and very personal details about what life was like in the German Navy under Hitler. Because his first and last posting was to U-505, Goebeler's perspective of the crew, commanders, and war patrols paints a vivid and complete portrait unlike any other to come out of the Kriegsmarine. He witnessed it all: from deadly sabotage efforts that almost sunk the boat to the tragic suicide of the only U-boat commander who took his life during WWII; from the terror and exhilaration of hunting the enemy, to the seedy brothels of France. The vivid, honest, and smooth-flowing prose calls it like it was and pulls no punches. U-505 was captured by Captain Dan Gallery's Guadalcanal Task Group 22.3 on June 4, 1944. Trapped by this “Hunter-Killer” group, U-505 was depth-charged to the surface, strafed by machine gun fire, and boarded. It was the first ship captured at sea since the War of 1812! Today, hundreds of thousands of visitors tour U-505 each year at the Chicago Museum of Science and Industry. Included a special Introduction by Keith Gill, Curator of U-505, Museum of Science and Industry. About the Authors: Hans Jacob Goebeler served as control room mate aboard U-505. He died in 1999. John P. Vanzo is a former defense program analyst. He teaches political science and geography at Bainbridge College in Georgia.

The heroes who brought home the gem are renowned in story and song, but for two fellows on the quest, peace and prosperity don't come easily. Apprentice Knight Kalanthe Ironheart wasn't meant for heroism so early in life, and while she has no intention of giving up the notoriety she's earned, reputation doesn't pay her bills. Kalanthe may be forced to betray not her kingdom or her friends, but her own heart as she seeks a stable future for herself and those she loves. Olsa Rhetsdaughter was never meant for heroism at all. Beggar and thief, she lived hand to mouth on the streets until fortune--or fate--pulled her into Kalanthe's orbit. And now she's reluctant to leave it. Even more alarmingly, her fame has made her profession difficult, and a choice between poverty and the noose isn't much of a choice at all. Both girls think their paths are laid out, but the godsgem isn't quite done with them and that new golden age isn't a sure thing yet. In a tale both sweepingly epic and intensely personal, Kalanthe and Olsa fight to maintain their newfound independence and to find their way back to each other.

Iron Heart

An old man is dying. When the old man is dead they will come for him. And they will come for her, to make him hurt. John Hart has written three New York Times bestsellers and won an unprecedented two back-to-back Edgar Awards. His books have been called "masterful" (Jeffery Deaver) and "gripping" (People) with "Grisham-style intrigue and Turow-style brooding" (The New York Times). Now he delivers his fourth novel—a gut-wrenching, heart-stopping thriller no reader will soon forget. HE WOULD GO TO HELL At the Iron Mountain Home for Boys, there was nothing but time. Time to burn and time to kill, time for two young orphans to learn that life isn't won without a fight. Julian survives only because his older brother, Michael, is fearless and fiercely protective. When tensions boil over and a boy is brutally killed, there is only one sacrifice left for Michael to make: He flees the orphanage and takes the blame with him. TO KEEP HER SAFE For two decades, Michael has been an enforcer in New York's world of organized crime, a prince of the streets so widely feared he rarely has to kill anymore. But the life he's fought to build unravels when he meets Elena, a beautiful innocent who teaches him the meaning and power of love. He wants a fresh start with her, the chance to start a family like the one he and Julian never had. But someone else is holding the strings. And escape is not that easy. . . . GO TO HELL, AND COME BACK BURNING The mob boss who gave Michael his blessing to begin anew is dying, and his son is intent on making Michael pay for his betrayal. Determined to protect the ones he loves, Michael spirits Elena—who knows nothing of his past crimes, or the peril he's laid at her door—back to North Carolina, to the place he was born and the brother he lost so long ago. There, he will encounter a whole new level of danger, a thicket of deceit and violence that leads inexorably to the one place he's been running from his whole life: Iron House. Now with an excerpt of John Hart's next book The Hush, available in February 2018.
