The furniture and interiors of Milanese designer Vincenzo De Cotiis reflect the legacy of Italian minimalism behind his elegant appropriation of salvaged materials. "De Cotiis feels free, even compelled, to explore the ambient tension between crumbling antiquity and futuristic minimalism." --T Magazine The first book on the work of Milanese architect and artist Vincenzo De Cotiis is a celebration of refined aesthetics. Incorporating salvaged materials into his tables, chairs, lighting fixtures, cabinets, and screens, De Cotiis's world appears ageless and graceful. The Milanese designer developed a reputation for stripping domestic spaces and hotel projects back to their Art Nouveau, Napoleonic, or even ancient frames, letting the natural wear of a building's interior breathe history through inhabited space. As a designer, he is preoccupied with the weathering effect of time. His objects marry patinated and uneven finishes in compositions that incorporate traditional Italian craftsmanship and materials including Murano glass. Both his renowned interior architecture and his furniture works reflect the influence of the artist's forefathers, Gio Ponti and Carlo Scarpa.

Inspiring interiors that have a personal, handcrafted feel. This lavishly photographed interiors book shows how to leave behind design "rules" to create truly beautiful, original interiors. For more than twenty years, Kit Kemp has been at the forefront of the international design community, with her signature style that mixes contemporary elements with antiques and junk-shop finds, luxurious fabrics with printed wallpapers, and hand-finished detailing with collections of simple objects that create impact. She avoids taking design too seriously, playing with scale, color and pattern to create very personal, handcrafted spaces. Alongside the

### **Axel Vervoordt**

Blending history and fantasy, science and art, the story of how dinosaurs were discovered and reimagined comes to life through splendid illustrations in this handsome slipcased volume. Stegosaurus, Triceratops, Brontosaurus, Tyrannosaurus—these exotic prehistoric creatures continue to fascinate more than 200 million years after they last roamed the earth. Dinosaur skeletons have been reconstituted, reconstructed, and interpreted by scientists and artists since the first fossils were uncovered near Cañon City, Colorado, in 1877, sparking the Bone Wars. In 1907, the Carnegie Museum of Natural History mounted "Dippy" the Diplodocus, which sparked dinomania, igniting the imagination of popular culture and Hollywood. From the Morrison Formation to Montana's Hell Creek, and from Mongolia's Gobi Desert to Argentina's Patagonia, new discoveries and excavations have uncovered a lost kingdom that has inspired myriad homages. This volume enriches our understanding of dinosaurs through rich visual iconography—from paintings, drawings, and sketches to new photography, film stills, reconstructed skeletons, and archival documents—along with detailed descriptions and anecdotes from great nineteenth-century explorers, artists, and writers such as Benjamin W. Hawkins, Charles R. Knight, Zdeněk Burian, and Jules Verne, and from filmmakers including Walt Disney and Steven Spielberg. This book is published in partnership with the Muséum National d'Histoire Naturelle in Paris to coincide with a traveling exhibition of the exceptional T. Rex and the international release of Jurassic

World.

## **Alain Elkann Interviews**

Braithwaite takes the reader deep into her singular vision. Divided into five sections, the book begins with her manifesto on simplicity and the aspects of design used to achieve it, including architecture, scale, color, texture, pattern, and composition. She then presents three categories of style--country, classic, and contemporary--and explains and illustrates each with iconic rooms from her portfolio. Finally, she presents several houses as case studies, displaying the power of these principles in action and emphasizing the importance of craftsmanship in design.
