## La vie rêvée des filles

## Nouveau dictionnaire François, Allemand et Polonois

Globalization, the Internet and an era of mass travel have combined to produce a world with a language mix on a huge scale. Linguanomics explains this multilingualism in a material, economic and cultural sense. What is the effect of this multilingualism on society, organizations and individuals? What are the economic benefits and drawbacks? Should we invest in language skills? Should there be interventionist policies, and if so, at what level? Should there be a global lingua mundi? The debate surrounding multilingualism is often clouded by emotion and misconception. With an analysis devoid of rhetoric, Gabrielle Hogan-Brun takes an objective look at this charged area. The result is Linguanomics: a major step towards a clearer understanding of the market potential of multilingualism, its benefits, costs and points of contention. Asking significant questions of profound concern to the future of global collaboration, Linguanomics is an essential guide to students, teachers, policy makers and politicians and anyone who cares about the role of language in the modern world.

Autonomy has become a keyword of language policy in education systems around the world, as the importance of independent learning and new technologies has grown. Now in a fully revised and updated second edition, Teaching and Researching Autonomy provides an accessible and comprehensive critical account of the theory and practice of autonomy. Examining the history of the concept, it addresses important questions of how we can identify autonomy in language learning behaviours and how we can evaluate the wide variety of educational practices that have been designed to foster autonomy in learning. Topics new to this edition include: - Autonomy and new technologies - Teacher autonomy - The sociocultural implications of autonomy With over three hundred new references and five new case studies of research on autonomy providing practical advice on research methods and topics in the field, Teaching and Researching Autonomy will be an essential introduction for teachers and students to a subject at the cutting edge of language teaching and research.

## TOEIC Practice Exams

Depuis une petite vingtaine d'années, je sévis en dernière page de Libération. J'y écris des portraits personnels de personnages singuliers, connus ou inconnus. Mais, j'ai beau faire, j'ai beau dire, on me parle en priorité de mes portraits d'actrices. Les hommes hésitent entre envie goguenarde et ricanements égrillards. Les femmes scrutent à la loupe emballements et atermoiements. Il y a quelque temps, fatigué d'être résumé à cette activité pulsionnelle, pour ne pas dire libidineuse, las d'être réduit à ce que certaines bonnes camarades appelaient mes «

papiers hormonaux », j'ai décidé d'arrêter. Fini, terminé. Promis, juré, je ne signerais plus le portrait d'une seule fille de pellicule. J'ai tenu parole une bonne année. Personne n'a rien remarqué. Et chacun me parlait encore et toujours de ces portraits de comédiennes et de mannequins que je n'écrivais plus. Je m'y suis donc remis. Et voilà comment les caricatures ont la vie sauve, comment elles ont la vie dure. Et voilà pourquoi il faut bien accepter d'en livrer les pièces à conviction. Qui lira, verra

## Annuaire national des universités

Ever since its triumph at the Paris Universal Exposition, Art Nouveau has continued to inspire artists. The movement offered an artistic response to the industrial revolution and the creative vacuum left in its wake, exerting a huge impact on the decorative arts. Art Nouveau spans all forms of expression – including design, painting and architecture – and covers artists such as Gustav Klimt, Koloman Moser, Antoni Gaudí, Jan Toorop, and William Morris.
