## Young Blood Omnibus Volume One

### The Gentleman's Magazine

A vampire who calls himself Maldureve comes out of the shadowy borderlands of existence in response to the unvoiced desires of philosophy student Anne Charet. By choosing to see him she gives him substance; after feeding him, she too begins to hunger for blood. Maldureve becomes Anne's lover and mentor but he cannot

protect her against his own enemies, mysterious creatures of light who call themselves owls because they believe that theirs is the highest wisdom of all. Anne's boyfriend, psychologist Gil Molari, worries about her health and state of mind, although he knows nothing about his supernatural rival. His anxiety is magnified when he becomes convinced that one of the mind-altering viruses with which he works has escaped from the laboratory. Gil refuses to believe in Maldureve but his refusal to believe cannot save him from becoming the victim of a fierce hunger that he cannot satisfy, which drives him in the end to an unendurable extreme. Anne believes that her experiences are entirely real; Gil believes that his are the products of an infectious madness. Whichever of them is right, they are both in deadly danger, and so is everyone around them. Once they have started on their strange journey, there is no way back. But what can possibly lie ahead of them, when death itself no longer seems to be an end?

Why do we believe that aging is the cause of most of our problems as we get older? Age and aging actually have much less to do with it than you think. *Live Young, Think Young, Be Young* challenges our assumptions and beliefs about aging, and provides a fresh, new understanding of how and why we grow old. It will make you think differently about little things in your daily life that accelerate the three "mega" causes of getting old. In the end, this book is about courage and resilience—the courage to change what can be changed and the resilience to accept what can't be changed. Together, they provide a powerful plan for staying young in body, mind, and spirit.

## Youngblood 2.0

In *Live Our Young Blood*, you'll read essays, journal entries, and poems about being a twentysomething right out of college. Ella Gibbons is a twentysomething who shares personal experiences and tips about many topics young and new adults have exposure to. She writes about taking advantage of your youth, tackling the postgrad life, studying abroad, how to deal with loneliness, figuring out what you want to do with your wild life, seasonal jobs, adulting, and so much more. By the end, you will realize, all postgraduates or twentysomethings are all trying to figure it out and hopefully, you found some encouragement to live in the moment and that you are not alone.
