Founders of the phenomenally successful publishing company Lonely Planet, Tony and Maureen Wheeler have produced travel guides to just about every corner of the globe. Lonely Planet Publications was born in 1973 when the Wheelers self-published a quirky travel guide, *Across Asia on the Cheap*. This was quickly followed by what soon became the backpackers' bible, *South-East Asia on a Shoestring*. Going boldly where no other travel publisher had ventured, they catered to a new generation of independent, budget-conscious travelers long before the advent of mass tourism. *Unlikely Destinations:*

The Lonely Planet Story is a unique mix of autobiography, business history and travel book. It traces Tony and Maureen Wheeler's personal story as well as the often bumpy evolution of their travel guide business into the world's largest independent travel publishing company. Not surprisingly, after thirty years in the business the Wheelers have an unrivalled set of anecdotes which they share in *Unlikely Destinations: The Lonely Planet Story*. They have been hassled by customs, cheated by accountants, let down by writers, banned in Malawi, berated for their Burma guide and had books pirated in Vietnam. Tony has been gored by a cow in Benares, declared dead around the world in an assortment of gruesome and greatly exaggerated accounts and their company has been accused of the "Lonely Planetization" of the world. Through it all, from the heady days of discovery in the '70s to the rocky patch after the September 11th terrorist attacks, the Wheelers' passion for the planet and traveling certainly hasn't diminished, and comes shining through in this enthralling travelogue. But above all, their memoir reveals the spirit of adventure that has made them, according to the New York Daily News, "the specialists in guiding weird folks to weird places."

Lonely Planet Mediterranean Europe

The irresistible novel that was adapted into a major motion picture starring Leonardo DiCaprio. The Khao San Road, Bangkok -- first stop for the hordes of rootless young Westerners traveling in Southeast Asia. On Richard's first night there, in a low-budget guest house, a fellow traveler slashes his wrists, bequeathing to Richard a meticulously drawn map to "the Beach." The Beach, as Richard has come to learn, is the subject of a legend among young travelers in Asia: a lagoon hidden from the sea, with white sand and coral gardens, freshwater falls surrounded by jungle, plants untouched for a thousand years. There, it is rumored, a carefully selected international few have settled in a communal Eden. Haunted by the figure of Mr. Duck -- the name by which the Thai police have identified the dead man -- and his own obsession with Vietnam movies, Richard sets off with a young French couple to an island hidden

away in an archipelago forbidden to tourists. They discover the Beach, and it is as beautiful and idyllic as it is reputed to be. Yet over time it becomes clear that Beach culture, as Richard calls it, has troubling, even deadly, undercurrents. Spellbinding and hallucinogenic, *The Beach* by Alex Garland -- both a national bestseller and his debut -- is a highly accomplished and suspenseful novel that fixates on a generation in their twenties, who, burdened with the legacy of the preceding generation and saturated by popular culture, long for an unruined landscape, but find it difficult to experience the world firsthand.

Based upon a social science approach to understanding the significance of tourism in contemporary society, Andrew Holden's fascinating book highlights tourism as a multidisciplinary area of study with rich and varied theoretical underpinnings. Here, Holden introduces social science disciplines and applies relevant theories to the understanding of tourism. He investigates how the economic and political structures of society influence the manifestation of tourism at a global level, and subsequently considers a variety of topical issues including citizenship and social exclusion, tourism as a form of trade, consumerism, the consequences of tourism, and feminism and ethics. Each chapter includes: a brief introductory summary of the discipline a critique of its main theories and concepts which have relevance to tourism a discussion of how the theories and concepts have been applied to tourism using cases and

Journalist Walls grew up with parents whose ideals and stubborn nonconformity were their curse and their salvation. Rex and Rose Mary and their four children lived like nomads, moving among Southwest desert towns, camping in the mountains. Rex was a charismatic, brilliant man who, when sober, captured his children's imagination, teaching them how to embrace life fearlessly. Rose Mary painted and wrote and couldn't stand the responsibility of providing for her family. When the money ran out, the Walls retreated to the dismal West Virginia mining town Rex had tried to escape. As the dysfunction escalated, the children had to fend for themselves, supporting one another as they found the resources and will to leave home. Yet Walls describes her parents with deep affection in this tale of unconditional love in a family that, despite its profound flaws, gave her the fiery determination to carve out a successful life. -- From publisher description.
