Beautiful Symmetry

Although Cheryl Lowes Latina Christiana program has been widely hailed for its easy to use format and student friendly layout, some parents asked us for something they could use with their young elementary children. So, we gathered together our years of experience with young Latin scholars and created Prima Latina, an introductory Latin course for students in kindergarten through fourth grades. Prima Latina was developed for young children who are still becoming familiar with English grammar and wish to learn Latin at a slower pace. The program provides 25 lessons, each including a grammar skill, 5 vocabulary words with corresponding English derivatives, a practical Latin phrase, and one line of a prayer that is learned in totality over five lessons. The exercises that accompany each lesson are thorough and provide constant review of materials learned throughout the course. After each five lessons, a review chapter summarizes the material covered and provides a keyed test to insure mastery. With grammar lessons appropriate for primary grades and an easy to read two color format, Prima Latina is the perfect choice for those who would like to start Latin early and lay the foundation of a rigorous language arts program. Prima Latina was written to transition directly into Latina Christiana allowing students to complete an entire Latin sequence

Read Book Online Maths Number Addition Coloring Book Color By Numbers Addition Color By Number With Colored Pencils For Kids And Toddlers Geometrical Animal Pattern Color Book Vn Edition 1

without missing important concepts or vocabulary. Prima Latina is accompanied by an audio CD which includes pronunciation direction for each lesson and four beautiful hymns from Lingua Angelica. Because Latina Christiana I Flash Cards include every word in Prima Latina, they are an ideal study aid and a great investment for students who intend to continue on with Latina Christiana. Prima uses a clear and systematic format to introduce Latin to young students. It teaches important English and Latin grammar concepts as well as vocabulary, sayings, prayers, hymns, and constellation. Some of the material covered in Prima is:

I Can Be a Maths Magician

The Greatest Dot-to-Dot Adventure, (the 18th book in the Greatest Dot-to-Dot series) by David Kalvitis, carries on his tradition of skillfully utilizing dots to create the most amazingly complex and artistic dot-to-dot puzzles. The Greatest Dot-to-Dot Adventure - Book 2 is the second in the series of revolutionary Dot-to-Dot puzzle books created by David Kalvitis. Book 2 weaves all of the varied challenges and puzzle styles of its predecessors with a multi-layered mystery that includes new styles, hidden clues, an intriguing story line and impressive three and four page landscape spreads. The adventure continues following an imaginative young boy searching for the missing pieces of a mysterious gift. Together, visitors will navigate challenging puzzles and unearth secret clues to discover new species of dots and spectacular views. One can even challenge themselves by scaling the 'Everest of Connect-the-Dots', a breathtaking four page puzzle comprised of a staggering 2,100 dots.
