## The Cornhill Magazine

Built on the shores of the Delaware Bay in 1925, Sequoia is a Trumpy-designed 104-foot wooden motor yacht that has hosted eight U.S. presidents and has become a Chesapeake Bay icon. Giles M. Kelly served as the yacht's skipper from 1983 to 1988, and was surprised to find no book chronicled her history. During his tenure as captain of the yacht, he took the boat around the country on a goodwill cruise and later oversaw her major restoration. His wife, Ann Stevens, a professional photographer, documented much of that trip and the restoration. Although only two years of the ship's logs could be found, Kelly undertook to uncover the truth of Sequoia's many "sea stories" by primary research and interviewing those who had served and visited aboard. He soon discovered a kind of Upstairs, Downstairs perspective on Sequoia. This element lends a unique appeal to this saga of an interesting vessel and her service through eight administrations.

### The Aeronautical Journal

How do the rich get rich? An updated edition of the “ remarkable ” New York Times bestseller, based on two decades of research (The Washington Post). Most of the truly wealthy in the United States don ’ t live in Beverly Hills or on Park Avenue. They live next door. America ’ s wealthy seldom get that way through an inheritance or an advanced degree. They bargain-shop for used cars, raise children who don ’ t realize how rich their families are, and reject a lifestyle of flashy exhibitionism and competitive spending. In fact, the glamorous people many of us think of as “ rich ” are actually a tiny minority of America ’ s truly wealthy citizens—and behave quite differently than the majority. At the time of its first publication, *The Millionaire Next Door* was a groundbreaking examination of America ’ s rich—exposing for the first time the seven common qualities that appear over and over among this exclusive demographic. This edition includes a new foreword by Dr. Thomas J. Stanley—updating the original content in the context of the financial crash and the twenty-first century. “ Their surprising results reveal fundamental qualities of this group that are diametrically opposed to today ’ s earn-and-consume culture. ” —Library Journal

### The Right People

*Empire Builder* is the previously untold story of John D. Spreckels, the pioneer who almost single-handedly built San Diego after
