50 Knots You Need to Know

Knots

In recent years, sailing has undergone some revolutionary changes: Satellites and autopilots are now used for navigation. Artificial-fiber and wire ropes have nearly replaced natural-fiber ropes. But when it comes to decorative knotting, natural fiber is still the favored choice. This book is tops when it comes to learning how to master tying the most common sailing knots. With color illustrations and step-by-step instructions, the author explains how to correctly tie and use more than fifty knots—including stopper knots, bends, loops, and hitches—and in which situations each one is most useful.

The Field Guide to Knots

Captain Heinrich Paasch was the first to recognize the complexity and variety in marine vocabulary and technical terminology and the inherent need for a cohesive classification of nautical terms. Equipped with over thirty-five years of seafaring experience, including as a sailor, captain, and as a Surveyor to Lloyd's Register, Paasch sets out, chapter by chapter, an exhaustive explanation of all the principal parts of a ship's structure and equipment. He describes the main types of steam and sailing vessels; wooden and iron hulls; propulsion machinery; anchors and related equipment; masts and spars; standing and running rigging, as well as sails, tackle, blocks and ropes. He concludes with knots, bends, hitches, and splices and finally provides a listing of standard measurements. Paasch's stated intention to describe a ship literally "From Keel to Truck" has been widely applauded as has his inclusion of the equivalent terms in French and German alongside the English. Each section is accompanied by dozens of high-quality line engravings to accompany the text and illustrate the terminology and concept described. First published in 1885, and an invaluable resource ever since, Captain Paasch's dictionary is both a full encyclopedia and an unequalled introduction for anyone interested in steam and sailing ships, life aboard a ship, engineering, or simply understanding the language.
