### New York Historical Society Quarterly

With a Foreword by Nathaniel Philbrick, author of the bestseller *In the Heart of the Sea* If you need an appendectomy, he can do it with a stone scalpel he carved himself. If you have a condition nobody can diagnose—creeping eruption—perhaps—he can identify what it is, and treat it. A baby with toe-tourniquet syndrome, a human leg that’s washed ashore, a horse with Lyme disease, a narcoleptic falling face-first in the street, a hermit living underground—hardly anything is off-limits for Dr. Timothy J. Lepore. This is the spirited, true story of a colorful, contrarian doctor on the world-famous island of Nantucket. Thirty miles out to sea, in a strikingly offbeat place known for wealthy summer people but also home to independent-minded, idiosyncratic year-rounders, Lepore holds the life of the island, often quite literally, in his hands. He’s surgeon, medical examiner, football team doctor, tick expert, unofficial psychologist, accidental homicide detective, occasional veterinarian. When crisis strikes, he’s deeply involved. He’s treated Jimmy Buffett, Chris Matthews, and various Kennedy relatives, but he makes house calls for anyone and lets people pay him nothing—or anything: oatmeal raisin cookies, a weather-beaten .44 Magnum, a picture of a Nepalese shaman. Lepore can be controversial and contradictory, espousing conservative views while performing abortions and giving patients marijuana cookies. He has unusual hobbies: he’s a gun fanatic, roadkill collector, and concocter of pastimes like knitting dog-hair sweaters. Ultimately, *Island Practice* is about a doctor utterly essential to a community at a time when medicine is increasingly money-driven

and impersonal. Can he remain a maverick even as a healthcare chain subsumes his hospital? Every community has—or, some would say, needs—a Doctor Lepore, and his island's drive to retain individuality in a cookie-cutter world is echoed across the country.

History of the City of New York, 1609-1909

Public Documents of Massachusetts: Being the Annual Reports of Various Public Officers and Institutions

escape from home and family which traces a young man's rite of passage through a series of terrible brushes with death during a fateful sea voyage. But it also goes much deeper, as Pym encounters various interpretative dilemmas, at last leaving the reader with a broken-off ending that defies solution. Apart from its violence and mystery, the tale calls attention to the act of writing and to the problem of representing truth. Layer upon layer of elaborate hoaxes include its author's own role of posing as ghost-writer of the narrative; Pym - his only novel - has become the key text for our understanding of Poe. This edition offers eight short tales which are linked to Pym by their treatment of persistent themes - fantastic voyages, gigantic whirlpools, and premature burials - or by their ironic commentary on Poe's mystification of his readers. ABOUT THE SERIES: For over 100 years Oxford World's Classics has made available the widest range of literature from around the globe. Each affordable volume reflects Oxford's commitment to scholarship, providing the most accurate text plus a wealth of other valuable features, including expert introductions by leading authorities, helpful notes to clarify the text, up-to-date bibliographies for further study, and much more.

Twenty-ninth Annual List of Merchant Vessels of the United States, with the Official Numbers and Signal Letters Awarded Them by the Commissioner of Navigation, in Accordance with the Provisions of Section 4177 of the Revised Statutes
