A New York Times Notable Book "A must-read book for every American teacher and taxpayer." -Amanda Ripley, author of The Smartest Kids in the World Launched with a hugely popular New York Times Magazine cover story, Building a Better Teacher sparked a national conversation about teacher quality and established Elizabeth Green as a leading voice in education. Green's fascinating and accessible narrative dispels the common myth of the "natural-born teacher" and introduces maverick educators exploring the science behind their art. Her dramatic account reveals that great teaching is not magic, but a skill—a skill that can be taught. Now with a new afterword that offers a guide on how to identify—and support—great teachers, this provocative and hopeful book "should be part of every new teacher's education" (Washington Post).

Good brand is just good business. Brand is the intentional leader's North Star. It helps us engage customers and employees, unleash our competitive advantage, and fuel enduring growth. And yet, despite this power, brand is grossly underused. Few leaders leverage brand fully, believing (wrongly) that brand is squishy and elusive. But when a tool this vital is dismissed, the business suffers mightily. The good news is that all leaders can ignite brand to create value. Lindsay Pedersen deconstructs what brand is and why it is indispensable for leaders. Then she shares her step-by-step process to tame the infinite possibilities and pinpoint a brand positioning that is true and robust-ironclad-to unlock the most value. In this book, learn how to-Leverage brand as a strategic platform for growing with purpose-Lead more effectively with brand as your North Star-Use brand to excite customers and employees-Identify your Uncommon Denominator and Benefit Ladder-Follow the principles of storytelling to generate business growthBrand is sorely underutilized. Harness the power of communities, both inside and outside of your organization, to drive value and revenue, activate your employees' and customers' talents, and create a highly engaged, loyal customer base. What if you discovered a blueprint that could grow your brand's reputation and loyalty, dramatically reduce customer service issues, produce content and technology, and cement a powerful, lasting relationship between you and your customers? Communities have been a popular topic since the rise of the Internet and social media, but few companies have consistently harnessed their power, driven tangible value, and effectively measured their return on investment (ROI) like: Salesforce.com has seen tremendous results with their community network of over 2 million members advocating for, supporting, and integrating Salesforce.com products Star Citizen used Kickstarter to raise over \$150 million to build their new video game and a community of over 2 million players. Red Hat collaborated with their

community to build industry-leading technology, which led to a \$34 billion acquisition by IBM Companies such as PayPal, Facebook, Bosch, Microsoft, CapitalOne, and Google, have also built communities inside their organizations, which have fostered innovation, broken down silos, and helped their organizations to operate more efficiently and collaboratively. People Powered helps C-suite leaders, founders, marketers, customer advocates, and community leaders gain a competitive advantage by answering the following questions: What is the key value proposition of building a community? What kind of community do we need and how do we build and integrate it into our organization? How do we incentivize and encourage people to get involved, build reliable growth, and keep community members engaged? How do we develop authentic, productive relationships with community members both online and in person? How do we get departmental buy-in, hire effectively, and create consistent, reliable community engagement skills in our organization? What are the strategic and tactical pitfalls and roadblocks we need to avoid? How do we make sure that our community continues to grow with us—and more importantly, how do we make sure that we continue to grow with them? People Powered pulls together over 20 years of pragmatic experience into a clear, simple methodology and blueprint to not just answer these questions, but deliver results. It also includes contributions from industry leaders including Joseph Gordon-Levitt (Emmy-award winning actor), Peter H. Diamandis (Founder of XPRIZE, Singularity University), Jim Zemlin (Executive Director, The Linux Foundation), Mike Shinoda (Co-Founder, Linkin Park), Jim Whitehurst (CEO, Red Hat), and more. Don't get left behind—become an industry trailblazer and ensure your company's longevity by tapping into the most dynamic force both outside and inside your organization: the people.

experience to double their revenue by making simple but powerful changes in their mindset and client-service model. In *Practice on Purpose*, three senior executives in the largest independently owned financial services firm in the world reveal proven strategies for conquering performance plateaus. The authors describe practical steps advisors can take to build a Practice on Purpose—a practice built around the advisor's personal purpose and in an intentional way, on purpose. Advisors will learn how to create an exceptional client experience, charge appropriately for financial advice, and design a practice that ultimately can be sold for a profit. The authors make a compelling case for building ongoing financial advice relationships with clients. This model benefits clients and advisors alike because it aligns them in a fiduciary relationship. Many countries worldwide are imposing the fiduciary standard through legislation and regulation of the advisor-client relationship. In some cases, advisors are not permitted to be paid product commissions, and their entire compensation is from financial advice. This book is intended to prepare advisors for that possibility wherever they practice and wherever the fiduciary standard is required or preferred. An encore chapter for those who coach and lead advisors offers tips for guiding advisors toward the Holy Grail in the insurance and financial services industry: the \$1 million Practice on Purpose.

START-UP NATION addresses the trillion dollar question: How is it that Israel-- a country of 7.1 million, only 60 years old, surrounded by enemies, in a constant state of war since its founding, with no natural resources-- produces more start-up companies than large, peaceful, and stable nations like Japan, China, India, Korea, Canada and the UK? With the savvy of foreign policy insiders, Senor and Singer examine the lessons of the country's adversity-driven culture, which flattens hierarchy and elevates informality-- all backed up by government policies focused on innovation. In a world where economies as diverse as Ireland, Singapore and Dubai have tried to re-create the "Israel effect", there are entrepreneurial lessons well worth noting. As America reboots its own economy and can-do spirit, there's never been a better time to look at this remarkable and resilient nation for some impressive, surprising clues.
