Guide to the Colorado River in the Grand Canyon

The Pacific Alone

In the summer of 1987 Ed Gillet achieved what no person has accomplished before or since, a solo crossing from California to Hawaii by kayak. Gillet, at the age of 36 an accomplished sailor and paddler, navigated by sextant and always knew his position within a few miles. Still, Gillet underestimated the abuse his body would take from the relentless, pounding, swells of the Pacific, and early into his voyage he was covered with salt water sores and found that he could find no comfortable position for sitting or sleeping. Along the way he endured a broken rudder, among other calamities, but at last reached Maui on his 63rd day at sea, four days after his food had run out. Dave Shively brings Gillet's remarkable story to life in this gripping narrative, based on exclusive access to Gillet's logs as well as interviews with the legendary paddler himself.

Guide to the Green River in Desolation and Gray Canyons

A fully revised and updated edition of Gary Nichols' widely used guide to river running in Utah, with information about alterations in waterways and changes in access points.

The Ultimate Guide to Whitewater Rafting and River Camping

The Green River, the most significant tributary of the Colorado River, runs 730 miles from the glaciers of Wyoming to the desert canyons of Utah. Over its course it meanders through ranches, cities, national parks, endangered fish habitats, and some of the most significant natural gas fields in the country, as it provides water for 33 million people. Stopped up by dams, slaked off by irrigation, and dried up by cities, the Green is crucial, overused, and at risk, now more than ever. Fights over the river's water, and what's going to happen to it in the future, are longstanding, intractable, and only getting worse as the West gets hotter and drier and more people depend on the river with each passing year. As a former raft guide and an environmental reporter, Heather Hansman knew these fights were happening, but she felt driven to see them from a different perspective--from the river itself. So she set out on a journey, in a one-person inflatable pack raft, to paddle the river from source to confluence and see what the experience might teach her. Mixing lyrical accounts of quiet paddling through breathtaking beauty with nights spent camping solo and lively discussions with farmers, city officials, and other people met along the way, Downriver is the story of that journey, a foray into the present--and future--of water in the

West.

The Colorado River in Grand Canyon

An award-winning Outside magazine writer documents the 1983 Colorado River flood that threatened the region with a catastrophic dam failure and prompted oarsman Kenton Grua's near-suicidal effort to navigate the turbulent waters of the Emerald Mile on a small wooden dory to achieve a world speed record.

Canoe and Kayak Routes of Northwest Oregon and Southwest Washington

On May 24, 1869, John Wesley Powell and nine crewmen in four wooden rowboats set off down the Green River to map the final blank spot on the American map. Three months later, six ragged men in only two boats emerged from the Grand Canyon. And what happened along the rugged 1,000 river miles in between quickly became the stuff of legend. Today, the JWP route offers some of the most adventurous paddling in the United States. Across six southwestern states, paddlers will find a surprising variety of trips. Enjoy flatwater floats through Canyonlands and the Uinta Basin; whitewater kayaking or rafting in Dinosaur National Monument and Cataract Canyon; afternoon paddleboarding on Flaming Gorge Reservoir and Lake Powell; multiday expeditions through Desolation Canyon and the Grand Canyon; and much more, including remarkable hikes and excursions to ancestral ruins, historic sites, museums, and waterfalls. Paddling the John Wesley Powell Route is a narrated guide that combines a multi-chapter retelling of the dramatic 1869 expedition with stunning landscape photography, modern discoveries along the route, overview maps, and information about permits, shuttles, access points, rental equipment, guided trips, and further readings. Come celebrate the dramatic 1869 expedition by exploring the route and learning the story.

2018 Colorado Book Awards finalist in Creative Nonfiction, and National Bestseller and Honorable Mention Award Winner in the Outdoor Literature category of the 2017 National Outdoor Book Awards (NOBA) — “A beautiful book about family and finding a way to achieve more than you ever thought possible.” —Brad Meltzer, NYT bestselling author Erik Weihenmayer is the first and only blind person to summit Mount Everest, the highest point on Earth. Descending carefully, he and his team picked their way across deep crevasses and through the deadly Khumbu Icefall; when the mountain was finally behind him, Erik knew he was going to live. His expedition leader slapped him on the back and said something that would affect the course of Erik’s life: “Don’t make Everest the greatest thing you ever do.” No Barriers is Erik’s response to that challenge. It is the moving story of his journey since descending Mount Everest: from leading expeditions around the world with blind Tibetan teenagers to helping injured soldiers climb their way home from war, from adopting a son from Nepal to facing the most terrifying reach of his life: to solo kayak the thunderous whitewater of the Grand Canyon. Along the course of Erik’s journey, he meets other trailblazers—adventurers, scientists, artists, and activists—who, despite trauma, hardship, and loss, have broken through barriers of their own. These pioneers show Erik surprising ways forward that surpass logic and defy traditional thinking. Like the

rapids of the Grand Canyon, created by inexorable forces far beneath the surface, No Barriers is a dive into the heart and mind at the core of the turbulent human experience. It is an exploration of the light that burns in all of us, the obstacles that threaten to extinguish that light, and the treacherous ascent towards growth and rebirth.
