The Vivien Eliot Papers is a groundbreaking new biography of Vivien Eliot, comprising two sections: her Life and her Papers. Based on a rich repository of primary evidence, much only recently uncovered, it corrects the accidental inaccuracies and deliberate distortions that have circulated around one of Bloomsbury's most gossiped-about, enigmatic couples, while unveiling fascinating new discoveries that give a more balanced understanding of both partners. For the first time, too, immaculate texts of Vivien's own writing are presented, carefully distinguished from Eliot's input, which demonstrate a fresh and wry talent all of her own.

Coping with Physical Illness

"An electrifying novel about marriage and deceit from bestselling author Delia Ephron that follows two couples on vacation in Siracusa, a town on the coast of Sicily, where the secrets they have hidden from each other are exposed and relationships are unraveled. New Yorkers Michael, a famous writer, and Lizzie, a journalist, travel to Italy with their friends from Maine--Finn, his wife Taylor, and their daughter Snow." "From the beginning," says Taylor, "it was a conspiracy for Lizzie and Finn to be together." Told Rashomon-style in alternating points of view, the characters expose and stumble upon lies and infidelities past and present. Snow, ten years old and precociously drawn into a far more adult drama, becomes the catalyst for catastrophe as the novel explores collusion and betrayal in marriage. With her inimitable psychological astuteness, and uncanny understanding of the human heart, Ephron delivers a powerful meditation on marriage, friendship, and the meaning of travel. Set on the sun-drenched coast of the Ionian Sea, Siracusa unfolds with the pacing of a psychological thriller and delivers an unexpected final act that none can see coming"--

(Book Jacket Status: Jacketed)When it was published in 1955, "Lolita" immediately became a cause célèbre because of the freedom and sophistication with which it handled the unusual erotic predilections of its protagonist. But Vladimir Nabokov's wise, ironic, elegant masterpiece owes its stature as one of the twentieth century's novels of record not to the controversy its material aroused but to its author's use of that material to tell a love story almost shocking in its beauty and tenderness. Awe and exhilaration-along with heartbreak and mordant wit-abound in this account of the aging Humbert Humbert's obsessive, devouring, and doomed passion for the nymphet Dolores Haze. Lolita is also the story of a hypercivilized European colliding with the cheerful barbarism of postwar America, but most of all, it is a meditation on love-love as outrage and hallucination, madness and transformation. Young feminists today are becoming activists on behalf of many causes beyond the classic—and indispensable--feminist ones of reproductive rights and equal pay for equal work. In *The Fire This Time*, Dawn Martin, one of four founders of The Third Wave Foundation--a multiracial, multi-issue, and multicultural activist organization--and Vivien Labaton, its first executive director, offer an exciting cross section of feminist voices that express new directions in activism, identity, and thought. Ayana Bird dissects the role of black women in hip-hop; Joshua Breitbart and Ana Noguiera demonstrate how Indimedia can break the hold of the corporate media over the news; and Jennifer Bleyer reviews the exhilarating power unleashed by the GirlZine movement. Anna Kirkland 's analysis of transsexual and transgendered people and the law is deeply thoughtful, and Shireen Lee's piece on women, technology, and feminism envisions empowering prospects for women.. Ranging from media and culture to politics and globalization, *The Fire This Time* is a call to new frontiers of activism, and helps reinvent feminism for a new generation. charismatic, and strikingly handsome, he quickly caught the eye of many of the town ' s stars and starlets. He began sleeping with some himself, and connecting others with his coterie of young, attractive, and sexually free-spirited friends. His own lovers included Edith Piaf, Spencer Tracy, Vivien Leigh, Cary Grant, and the abdicated King of England Edward VIII, and he arranged tricks or otherwise crossed paths with Tennessee Williams, Charles Laughton, Vincent Price, Katharine Hepburn, Rita Hayworth, Errol Flynn, Gloria Swanson, Noël Coward, Mae West, James Dean, Rock Hudson and J. Edgar Hoover, to name but a few. Full Service is not only a fascinating chronicle of Hollywood ' s sexual underground, but also exposes the hypocrisy of the major studios, who used actors to propagate a myth of a conformist, sexually innocent America knowing full well that their stars ' personal lives differed dramatically from this family-friendly mold. As revelation-filled as Hollywood Babylon, Full Service provides a lost chapter in the history of the sexual revolution and is a testament to a man who provided sex, support, and affection to countless people.

In the 20th century, the United States was the world leader in education--the first country to achieve universal secondary education and the first to expand higher education beyond the elite class. Now other countries are catching up and leaping ahead--in high school graduation rates, in the quality and equity of their K-12 education systems, and in the proportion of students graduating from college. It is not that American education has gotten worse so much that education in other parts of the world has gotten so much better, so fast. Designed to promote conversation about how to educate students for a rapidly changing and increasingly borderless and innovation-based world, this comprehensive and illuminating book from international education expert Vivien Stewart is not about casting blame; it is about understanding what the best school systems in the world are doing right for the purpose of

identifying what U.S. schools--at the national, state, and local level--might do differently and better. Here, you'll consider * How the U.S. education system fares against emerging international standards of excellence. * The policies, practices, and priorities of the world's best-performing systems, along with specific ideas for adapting these approaches for U.S. schools. * The common factors characteristic of high-performing and rapidly improving systems. * New models of 21st century teaching and leadership and ways to modernize curriculum, instruction, and assessment. * How technology and international exchange can help the United States close performance gaps and reach new levels of excellence and equity. Learning goes both ways, Stewart writes. Other countries have learned a great deal from the United States, and now it is time for American educators to open their eyes to other nations' globally-minded and future-focused practices, leverage existing assets, and create a truly world-class education system for this generation of students and generations to come.

Vivien Theodore Thomas was an African-American surgical technician who developed the procedures used to treat blue baby syndrome in the 1940s. He was an assistant to surgeon Alfred Blalock in Blalock's experimental animal laboratory at Vanderbilt University in Nashville, Tennessee and later at the Johns Hopkins University in Baltimore, Maryland. Without any education past high school, Thomas rose above poverty and racism to become a cardiac surgery pioneer and a teacher of operative techniques to many of the country's most prominent surgeons. Vivien Thomas was the first African American without a doctorate to perform open heart surgery on a white patient in the United States.

In 1944 a groundbreaking operation repaired the congenital heart defect known as blue baby syndrome. The operation's success brought the surgeon Alfred Blalock international fame and paved the way for open-heart surgery. But the technique had been painstakingly developed by Vivien Thomas, Blalock's African American lab assistant, who stood behind Blalock in the operating room to give him step-by-step instructions. The stories of this medical and social breakthrough and the lives of Thomas, Blalock, and their colleague Dr. Helen Taussig are intertwined in this compelling nonfiction narrative.

This book discusses how human beings cope with serious physical illness and injury. A conceptual model for understanding the process of coping with the crisis of illness is provided, and basic adaptive tasks and types of coping skills are identified. The major portion of the book is organized around various types of physical illness. These physical illnesses, which almost all people face either in themselves or their family members, raise common relevant coping issues. The last few sections cover "the crisis of treatment," emphasizing the importance of unusual hospital environments and radical new medical treatments, of stresses on professional staff, and of issues

related to death and the fear of dying. The material highlights the fact that people can successfully cope with life crises such as major illness and injury, rather than the fact that severe symptoms and/or breakdowns sometimes occur. The importance of support from professional care-givers, such as physicians, nurses, and social workers, and from family, friends, and other sources of help in the community, is emphasized. Many of the selections include case examples which serve to illustrate the material. Coping with Physical Illness has been broadly conceived to meet the needs of a diverse audience. There is substantial information about how human beings cope with illness and physical disability, but this material has never been collected in one place.

The definitive true story of Wild Bill, the first lawman of the Wild West, by the #1 New York Times bestselling author of Dodge City. In July 1865, "Wild Bill" Hickok shot and killed Davis Tutt in Springfield, MO—the first quick-draw duel on the frontier. Thus began the reputation that made him a marked man to every gunslinger in the Wild West. James Butler Hickock was known across the frontier as a soldier, Union spy, scout, lawman, gunfighter, gambler, showman, and actor. He crossed paths with General Custer and Buffalo Bill Cody, as well as Ben Thompson and other young toughs gunning for the sheriff with the quickest draw west of the Mississippi. Wild Bill also fell in love—multiple times—before marrying the true love of his life, Agnes Lake, the impresario of a traveling circus. He would be buried however, next to fabled frontierswoman Calamity Jane. Even before his death, Wild Bill became a legend, with fiction sometimes supplanting fact in the stories that surfaced. Once, in a bar in Nebraska, he was confronted by four men, three of whom he killed in the ensuing gunfight. A famous Harper's Magazine article credited Hickok with slaying 10 men that day; by the 1870s, his career-long kill count was up to 100. The legend

Doctors from Hell

Learn how to live a healthy life and leave a legacy of wellness by looking both to the past and to the future. *You Are What Your Grandparents Ate* takes conventional wisdom about the origins of chronic disease and turns it upside down. Rooted in the work of the late epidemiologist Dr. David Barker, it highlights the exciting research showing that heredity involves much more than the genes your parents passed on to you. Thanks to the relatively new science of epigenetics, we now know that the experiences of previous generations may show up in your health and well-being. Many of the risks for chronic diseases -- including obesity, type 2 diabetes, high blood pressure, heart disease and dementia -- can be traced back to your first 1,000 days of existence, from the moment you were conceived. The roots of these vulnerabilities may extend back even further, to experiences your parents and grandparents had -- and perhaps even beyond. Similarly, what happens to you will affect your children and grandchildren. That's why it's so important to make good dietary choices, get a suitable amount of exercise and be cautious about exposure to toxins. Positive lifestyle changes have been shown to spark epigenetic adjustments

The beloved creator of Blues Clues and Daniel Tiger ' s Neighborhood and protégé of Fred Rogers explores the importance of kindness and how it can change your life in this essential guide and tie-in to the PBS special, “ The Power of Radical Kindness. ” Angela C. Santomero, the creator, executive producer, and head writer of many of today ' s most popular educational children ' s shows believes in the radical power of kindness, on her shows, and in her life. Inspired by her mentor Fred Rogers, beloved host of the classic, award-winning PBS show Mister Rogers ' Neighborhood, Angela has dedicated her life to teaching others that when you treat yourself and others with warmth, empathy, and respect, life changing benefits follows. From the true meaning of self-care and the gift of vulnerability, to the importance of active listening or the magic of asking for help, Radical Kindness goes beyond The Golden Rule and entreaties to “ be nice, ” contending that kindness is the key to recognizing others, and ourselves, as worthy of love and understanding. Much like gratitude, Angela contends we need a kindness practice. A practice in which we learn to see with our hearts and act from a place of compassion. As the Dalai Lama

In a hilarious send-up of sex, scandal, and the Golden Age of Hollywood, legendary cartoonist Edward Sorel brings us a story (literally) ripped from the headlines of a bygone era. In 1965, a young, up-and-coming illustrator by the name of Edward Sorel was living in a \$97-a-month railroad flat on Manhattan 's Upper East Side. Resolved to fix up the place, Sorel began pulling up the linoleum on his kitchen floor, tearing away layer after layer until he discovered a hidden treasure: issues of the New York Daily News and Daily Mirror from 1936, each ablaze with a scandalous child custody trial taking place in Hollywood and starring the actress Mary Astor. Sorel forgot about his kitchen and lost himself in the story that had pushed Hitler and Franco off the front pages. At the time of the trial, Mary Astor was still only a supporting player in movies, but enough of a star to make headlines when it came out that George S.

Kaufman, then the most successful playwright on Broadway and a married man to boot, had been her lover. The scandal revolved around Mary ' s diary, which her ex-husband, Dr. Franklyn Thorpe, had found when they were still together. Its incriminating contents had forced Mary to give up custody of their daughter in order to obtain a divorce. By 1936 she had decided to challenge the arrangement, even though Thorpe planned to use the diary to prove she was an unfit mother. Mary, he claimed, had not only kept a tally of all her extramarital affairs but graded them—and he ' d already alerted the press. Enraptured by this sensational case and the actress at the heart of it, Sorel began a life-long obsession that now reaches its apex. Featuring over sixty original illustrations, Mary Astor's Purple Diary narrates and illustrates the travails of the Oscar-winning actress alongside Sorel ' s own personal story of discovering an unlikely muse. Throughout, we get his wry take on all the juicy details of this particular slice of Hollywood Babylon, including Mary's life as a child star—her career in silent films began at age fourteen—presided over by her tyrannical father, Otto, who "managed" her full-time and treated his daughter like an ATM machine. Sorel also animates her teenage love affair with probably the biggest star of the silent era, the much older John Barrymore, who seduced her on the set of a movie and convinced her parents to allow her to be alone with him for private "acting lessons." Sorel imbues Mary Astor's life with the kind of wit and eye for character that his art is famous for, but here he also emerges as a writer, creating a compassionate character study of Astor, a woman who ultimately achieved a life of independence after spending so much of it bullied by others. Featuring ribald and

rapturous art throughout, Mary Astor's Purple Diary is a passion project that becomes the masterpiece of one of America ' s greatest illustrators.

Dim Sum of All Fears

Visitors to the Blalock Building at the Johns Hopkins University Medical Center are greeted by portraits of two great men. One, of renowned heart surgeon Alfred Blalock, speaks for itself. The other, of highschool graduate Vivien Thomas, is testimony to the incredible genius and determination of the first black man to hold a professional position at one of America's premier medical institutions. Thomas's dreams of attending medical school were dashed when the Depression hit. After spending some time as a carpenter's apprentice, Thomas took what he expected to be a temporary job as a technician in Blalock's lab. The two men soon became partners and together invented the field of cardiac surgery. Partners of the Heart is Thomas's extraordinary autobiography. Trained in laboratory techniques by Alfred Blalock and Joseph W. Beard, Thomas remained Blalock's principal technician and laboratory chief for the rest of Blalock's distinguished career. Thomas very rapidly learned to perform surgery, to do chemical determinations, and to carry out physiologic studies. He became a phenomenal technician and was able to carry out complicated experimental cardiac operations totally unassisted and to devise new ones. In addition to telling Thomas's life story, Partners of the Heart traces the beginnings of modern cardiac surgery, crucial investigations into the nature of shock, and Blalock's
