The New York Times Bestseller! "This is The Most Inspiring Children's Book We've Ever Seen."--Refinery29.com "The very first kids' book released by the iconic publishing house City Lights, Rad American Women A-Z navigates the alphabet from Angela Davis to Zora Neale Hurston with colorful illustrations and short, powerful narratives. The perfect gift for the junior riot grrl in your life."--Bust Magazine "The History of Feminism--in an Awesome Picture Book. The ABCs just got a major girl-power upgrade."--Chantal Strasburger, Teen Vogue Like all A-Z books, this one illustrates the alphabet--but instead of "A is for Apple", A is for Angela--as in Angela Davis, the iconic political activist. B is for Billie Jean King, who shattered the glass ceiling of sports; C is for Carol Burnett, who defied assumptions about women in comedy; D is for Dolores Huerta, who organized farmworkers; and E is for Ella Baker, who mentored Dr. Martin Luther King and helped shape the Civil Rights Movement. list of great women continues, spanning several centuries, multiple professions, and 26 diverse individuals. There are artists and abolitionists, scientists and suffragettes, rock stars and rabble-rousers, and agents of change of all kinds. The book includes an introduction that discusses what it means to be "rad" and "radical," an afterword with 26 suggestions for how you can be "rad," and a Resource Guide with ideas for further learning and reading. American history was made by countless rad—and often radical—women. By offering a fresh and diverse array of female role models, we can remind readers that there are many places to find inspiration, and that being smart and strong and brave is rad. Rad American Women will be appreciated by various age groups. It is Common Core aligned for students grades 3 - 8. Pre-school and young children will be captured by the bright visuals and easily modified texts, while the subject matter will stimulate and inspire high-schoolers and beyond. "This is not a book. This is a guest list for a party of my heroes. Thank you for inviting us." —Lemony Snicket, author of A Series of Unfortunate Events books "I feel honored to be included in this book. Women need to take radical steps to become feminists, and to be strong to fight for their rights and those of others facing oppression and discrimination. The world needs rad women to create a just society." —Dolores Huerta, Labor Leader, Civil Rights Activist "It's almost always with a chuckle

that I view a cartoon image of myself. But to see cartoon-me positioned (alphabetically) amongst so many of my women heroes and role models . . . well, I just broke down and cried. Happy tears. I surely hope that this one-of-a-kind collection of radical American women reaches the hands of all children who want to grow up and become amazing women." -Kate Bornstein, author of My New Gender Workbook "I was totally in rapture reading this book. Bold women, bold colors, and fierce black paper cutouts. I cheer these histories of women who fight not for war or country or corporation, but for EVERYONE! I can't wait for my son to read this." -Nikki McClure, Illustrator of All in a Day

three great children. As I write this, two are in college and one is just beginning high school. We have spent a fortune making sure our children have received the best education available. One day in 1996, one of my children came home disillusioned with school. He was bored and tired of studying. "Why should I put time into studying subjects I will never use in real life?" he protested. Without thinking, I responded, "Because if you don't get good grades, you won't get into college." "Regardless of whether I go to college," he replied, "I'm going to be rich."

"Women's rights are human rights." The words are relevant today, but they could just as easily have been used by Elizabeth Cady Stanton at Seneca Falls in 1848. Or Susan B. Anthony when she was arrested for voting in 1872. Or Alice Paul when she was imprisoned and tortured for peacefully protesting outside of the White House in 1917. The story of women's suffrage is epic. For over 70 years, heroic women risked their lives for the cause knowing they likely wouldn't live to cast a vote. At a time when sexism was inherent in daily life, these women (and a few men) created a movement and fought for it passionately until the vote on the 19th amendment was finally called in 1920. It passed by a
