Journalist Walls grew up with parents whose ideals and stubborn nonconformity were their curse and their salvation. Rex and Rose Mary and their four children lived like nomads, moving among Southwest desert towns, camping in the mountains. Rex was a charismatic, brilliant man who, when sober, captured his children's imagination, teaching them how

to embrace life fearlessly. Rose Mary painted and wrote and couldn't stand the responsibility of providing for her family. When the money ran out, the Walls retreated to the dismal West Virginia mining town Rex had tried to escape. As the dysfunction escalated, the children had to fend for themselves, supporting one another as they found the resources and will to leave home. Yet Walls describes her parents with deep affection in this tale of unconditional love in a family that, despite its profound flaws, gave her the fiery determination to carve out a successful life. -- From publisher description.

A Stolen Life

A captivating personal inquiry into the art of architecture, the craft of building, and the meaning of modern work “A room of one’s own: Is there anybody who hasn’t at one time or another wished for such a place, hasn’t turned those soft words over until they’d assumed a habitable shape?” When Michael Pollan decided to plant a garden, the result was the acclaimed bestseller *Second Nature*. In *A Place of My Own*, he turns his sharp insight to the craft of building, as he recounts the process of designing and constructing a small one-room structure on his rural Connecticut property—a place in which he hoped to read, write, and daydream, built with his own two unhandy hands. Invoking the titans of architecture, literature, and philosophy, from Vitruvius to Thoreau, from the Chinese masters of feng shui to the revolutionary Frank Lloyd Wright, Pollan brilliantly chronicles a realm of blueprints, joints, and trusses as he peers into the ephemeral nature of

“houseness” itself. From the spark of an idea to the search for a perfect site to the raising of a ridgepole, Pollan revels in the infinitely detailed, complex process of creating a finished structure. At once superbly written, informative, and enormously entertaining, *A Place of My Own* is for anyone who has ever wondered how the walls around us take shape—and how we might shape them ourselves. Praise for *A Place of My Own* “A glorious piece of prose . . . Pollan leads readers on his adventure with humor and grace.”—Chicago Tribune “[Pollan] alternates between describing the building process and introducing informative asides on various aspects of construction. These explanations are deftly and economically supplied. Pollan’s beginner status serves him well, for he asks the kind of obvious questions about building that most readers will want answered.” —The New York Review of Books “By shrewdly combining just the right mix of personal reflection, architectural background, and nuts-and-bolts detail, Michael Pollan enables us to see, feel, and understand what goes into the building of a house. The result is a captivating and informative adventure.”—John Berendt, author of *Midnight in the Garden of Good and Evil* “An utterly terrific book . . . an inspired meditation on the complex relationship between space, the human body and the human spirit.”—Francine du Plessix Gray “A tour de force.”—Phillip Lopate

The Downstairs Girl

Eight innovative, timely stories illuminate the hopes and fears of Chinese immigrants and their descendants.

The Wes Anderson Collection: The Grand Budapest Hotel

A raw and powerful memoir of Jaycee Lee Dugard's own story of being kidnapped as an 11-year-old and held captive for over 18 years On 10 June 1991, eleven-year-old Jaycee

Dugard was abducted from a school bus stop within sight of her home in Tahoe, California. It was the last her family and friends saw of her for over eighteen years. On 26 August 2009, Dugard, her daughters, and Phillip Craig Garrido appeared in the office of her kidnapper's parole officer in California. Their unusual behaviour sparked an investigation that led to the positive identification of Jaycee Lee Dugard, living in a tent behind Garrido's home. During her time in captivity, at the age of fourteen and seventeen, she gave birth to two daughters, both fathered by Garrido. Dugard's memoir is written by the 30-year-old herself and covers the period from the time of her abduction in 1991 up until the present. In her stark, utterly honest and unflinching narrative, Jaycee opens up about what she experienced, including how she feels now, a year after being found. Garrido and his wife Nancy have since pleaded guilty to their crimes.

Margaret Preston

A NEW YORK TIMES, WALL STREET JOURNAL, AND USA TODAY BESTSELLER An intimate, powerful, and galvanizing memoir by Pulitzer Prize winner, human rights advocate, and former US Ambassador to the UN Samantha Power. Named one of the best books of the year: The New York Times • National Public Radio • Time • The Economist • The Washington Post • Vanity Fair • Christian Science Monitor • Publishers Weekly • Audible “Her highly personal and reflective memoir . . . is a must-read for anyone who cares about our role in a changing world.”—President Barack Obama Includes an updated afterword Tracing her distinctly American journey from immigrant to war correspondent to presidential Cabinet official, Samantha Power’s acclaimed memoir is a unique blend of suspenseful storytelling, vivid

character portraits, and shrewd political insight. After her critiques of US foreign policy caught the eye of Senator Barack Obama, he invited her to work with him on Capitol Hill and then on his presidential campaign. When Obama won the presidency, Power went from being an activist outsider to serving as his human rights adviser and, in 2013, becoming the youngest-ever US Ambassador to the United Nations. Power transports us from her childhood in Dublin to the streets of war-torn Bosnia to the White House Situation Room and the world of high-stakes diplomacy, offering a compelling and deeply honest look at navigating the halls of power while trying to put one's ideals into practice. Along the way, she lays bare the searing battles and defining moments of her life, shows how she juggled the demands of a 24/7 national security job with raising two young children, and makes the case for how we each can advance the cause of human dignity. This is an unforgettable account of the power of idealism—and of one person's fierce determination to make a difference. "This is a wonderful book. [...] The interweaving of Power's personal story, family story, diplomatic history and moral arguments is executed seamlessly and with unblinking honesty."—THOMAS L. FRIEDMAN, *The New York Times* Book Review "Truly engrossing...A pleasure to read."—RACHEL MADDOW "A beautiful memoir about the times we're living in and the questions we must ask ourselves...I honestly couldn't put it down." —CHERYL STRAYED, author of *Wild* "Power's compelling memoir provides critically important insights we should all understand as we face some of the most vexing issues of our time." —BRYAN STEVENSON, author of *Just Mercy*

Junk Beautiful

A detailed and illustrated guide inspires those wishing to add a shed to their home, or redecorate an existing one, to create a new, charming, and useful space as a personal getaway, home office, or children's play area.

Sons and Lovers

Celebrated for her vibrant and distinctive pictures of indigenous flowers, artist Margaret Preston was an equally colourful and outspoken personality. Less well known is her legacy as a generous and insightful teacher and keen cook, and her deep sense of civic duty. She was passionate about the need for a modern national culture that reflected everyday life. For Preston, the building blocks of such a culture were not to be found in the Australian pastoral landscape tradition, but in the home and garden. Maintaining that art should be within everyone's reach, she published widely on the methods and techniques of a host of creative pursuits—from pottery, printmaking and basket weaving, to the gentle art of flower arranging. She devoted much of her career to the genre of still life, depicting humble domestic objects and flowers from her garden, and often painting in the kitchen while keeping 'one eye on the stew'. Drawing on recipes from handwritten books found in the National Gallery of Australia and richly illustrated with Preston's paintings, prints and photographs this book sheds new light on the fascinating private life of a much-loved Australian artist.

The record-holding two-time National Basketball Association champion reflects on his work ethic, his on-the-court friendships and rivalries, the great teams he's played for, and

what it takes to have a long and successful career in this thoughtful, in-depth memoir. Playing in the NBA for eighteen years, Ray Allen won championships with the Boston Celtics and the Miami Heat and entered the record books as the original king of the three-point shot. Known as one of the hardest-working and highest-achieving players in NBA history, this most dedicated competitor was legendary for his sharp shooting. From the Outside, complete with a foreword by Spike Lee, is his story in his words: a no-holds-barred look at his life and career, filled with behind-the-scenes stories and surprising revelations about the game he has always cherished. Allen talks openly about his fellow players, coaches, owners, and friends, including LeBron James, Kobe Bryant, and Kevin Garnett. He reveals how, as a kid growing up in a military family, he learned about responsibility and respect—the key to making those perfect free throws and critical three-point shots. From the Outside is the portrait of a gifted athlete and a serious man with a strongly defined philosophy about the game and the right way it should be played—a philosophy that, at times, set him apart from colleagues and coaches, while inspiring so many others, and lead to the most pivotal shot of his career: the unforgettable 3-pointer in the final seconds of Game 6 of the 2013 NBA finals against the San Antonio Spurs. Throughout, Allen makes clear that success in basketball is as much about what happens off the court as on, that devotion and commitment are the true essence of the game—and of life itself.

Sometimes I Lie

Ghost story master Mary Downing Hahn unrolls the suspenseful, spine-chilling yarn of a girl imprisoned for more than a century, the terrifying events that put her there, and a

friendship that crosses the boundary between past and present. A family moves into an old, abandoned house. Jules's parents love the house, but Jules is frightened and feels a sense of foreboding. When she sees a pale face in an upstairs window, though, she can't stop wondering about the eerie presence on the top floor—in a room with a locked door. Could it be someone who lived in the house a century earlier? Her fear replaced by fascination, Jules is determined to make contact with the mysterious figure and help unlock the door. Past and present intersect as she and her ghostly friend discover—and change—the fate of the family who lived in the house all those many years ago.

Junk Beautiful: She Sheds

"Incidents in the Life of a Slave Girl" was one of the first books to address the struggle for freedom by female slaves; explore their struggles with sexual harassment and abuse; and their effort to protect their roles as women and mothers. After being overshadowed by the Civil War, the novel was rediscovered in the late 20th century and since then hasn't been out of print ever. It is one of the seminal books written on the theme of slavery from a woman's point of view and appreciated worldwide academically as well. Excerpt: "Reader be assured this narrative is no fiction. I am aware that some of my adventures may seem incredible; but they are, nevertheless, strictly true. I have not exaggerated the wrongs inflicted by Slavery; on the contrary, my descriptions fall far short of the facts. I have concealed the names of places, and given persons fictitious names. I had no motive for secrecy on my own account, but I deemed it kind and considerate towards others to pursue this course." Harriet Jacobs (1813–1897) was an African-American writer who was

formerly a fugitive slave. To save her family and her own identity from being found out, she used the pseudonym of Linda Brent and wrote secretly during the night.

From the Outside

What, exactly, do you know about your body? Do you know how your immune system works? Or what your pancreas

does? Or the myriad -- and often simple -- ways you can improve the way your body functions? This full-color, visually rich guide answers these questions and more. Matthew MacDonald, noted author of *Your Brain: The Missing Manual*, takes you on a fascinating tour of your body from the outside in, beginning with your skin and progressing to your vital organs. You'll look at the quirks, curiosities, and shortcomings we've all learned to live with, and pick up just enough biology to understand how your body works. You'll learn: That you shed skin more frequently than snakes do Why the number of fat cells you have rarely changes, no matter how much you diet or exercise -- they simply get bigger or smaller How you can measure and control fat That your hair is made from the same stuff as horses' hooves That you use only a small amount of the oxygen you inhale Why blood pressure is a more important health measure than heart rate -- with four ways to lower dangerously high blood pressure Why our bodies crave foods that make us fat How to use heart rate to shape an optimal workout session -- one that's neither too easy nor too strenuous Why a tongue with just half a dozen taste buds can identify thousands of flavors Why bacteria in your gut outnumber cells in your body -- and what function they serve Why we age, and why we can't turn back the clock What happens to your body in the minutes after you die Rather than dumbed-down self-help or dense medical text, *Your Body: The Missing Manual* is entertaining and packed with information you can use. It's a book that may well change your life. Reader comments for *Your Brain: The Missing Manual*, also by author Matthew MacDonald: "Popular books on the brain are often minefields of attractive but inaccurate information. This one manages to avoid most of the hype and easy faulty generalizations while providing easy to read and digest information about the brain. It has useful tricks without the breathless hype of many popular

books."-- Elizabeth Zwicky, The Usenix Magazine "a unique guide that should be sought after by any who want to maximize what they can accomplish with their mental abilities and resources."-- James A. Cox, The Midwest Book Review - Wisconsin Bookwatch "If you can't figure out how to use your brain after reading this guide, you may want to return your brain for another."-- The Sacramento Book Review, Volume 1, Issue 2, Page 19 "It's rare to find a book on any technical subject that is as well written and readable as Your Brain: The Missing Manual. The book covers pretty much anything you may want to know about your brain, from what makes it up, through how it develops to how to mitigate the affects of aging. The book is easy reading, fact packed and highlighted notes and practical applications. So if you want to learn more about your brain, how it works, how to get the best out of it or just want to stave off the ravages of Alzheimers (see chapter ten for details of how learning helps maintain your brain) then I can't recommend this book highly enough."-- Neil Davis, Amazon.co.uk "MacDonald's writing style is perfect for this kind of guide. It remains educational without becoming overly technical or using unexplained jargon. And even though the book covers a broad scope of topics, MacDonald keeps it well organized and easy to follow. The book captures your attention with fun facts and interesting studies that any person could apply to their own understanding of human ability. It has great descriptions of the brain and its interconnected parts, as well as providing full color pictures and diagrams to offer a better explanation of what the author is talking about."-- Janica Unruh, Blogcritics Magazine

Sons and Lovers, a story of working-class England, is D. H. Lawrence's third novel. It went through various drafts, and was titled "Paul Morel" until the final draft, before being published and met with an indifferent reaction from contemporary critics. Modern critics now consider it to be D. H. Lawrence's masterpiece, with the Modern Library placing it ninth in its "100 Best English-Language Novels of the 20th Century." The novel follows the Morels, a family living in a coal town, and headed by a passionate but boorish miner. His wife, originally from a refined family, is dragged down by Morel's classlessness, and finds her life's joy in her children. As the children grow up and start leading lives of their own, they struggle against their mother's emotional drain on them. Sons and Lovers was written during a period in Lawrence's life when his own mother was gravely ill. Its exploration of the Oedipal instinct, frank depiction of working-class household unhappiness and violence, and accurate and colorful depiction of Nottinghamshire dialect, make it a fascinating window into the life of people not often chronicled in fiction of the day. This book is part of the Standard Ebooks project, which produces free public domain ebooks.

Featuring shedworkers and shedbuilders from around the world who are leading the alternative workplace revolution, Shedworking looks at why having a shed office is a greener way of working, improves the work-life balance, and accelerates one's productivity. Along the way it offers a whistle-stop tour of famous sheds from Pliny the Younger's summerhouse and the retreats of 19th-century composers Edvard Grieg and Gustav Mahler to award-winning 21st-century fantasy writer Neil Gaiman's gazebo. In short, Shedworking offers a manifesto for those wanting to change their working lives for the better and go to work in the garden.

The Glass Castle

Because sheds aren't just for men—this selection of sheds from North America, the UK, and Europe shows how women everywhere can claim and use their own personal space. Every woman deserves a shed of her own, somewhere to retreat to for some quiet time, to create or grow, to write or paint, or just to contemplate the view. Gill Heriz has interviewed over 80 different women, and Nicolette Hallett has photographed their sheds inside and out, to collect together this unique insight into why women have sheds, and what they do in them. There are sheds for puppet-makers, sculptors, and writers, as well as farmers, furniture-makers,

and woodcutters. There are sheds that can be lived in, sheds that are full to the rafters, and sheds that are simply sheds, with the usual collection of gardening tools, lawnmowers, and seed packets. Virginia Woolf once argued that, for women, writing fiction required “a room of one’s own.” These women have taken that premise a step further—into the backyard—to find their own very personal space.
