The uneasy balance between these worlds is shattered when Starr witnesses the fatal shooting of her childhood best friend Khalil at the hands of a police officer. Khalil was unarmed. Soon afterward, his death is a national headline. Some are calling him a thug, maybe even a drug dealer and a gangbanger. Protesters are taking to the streets in Khalil's name. Some cops and the local drug lord try to intimidate Starr and her family. What everyone wants to know is: what really went down that night? And the only person alive who can answer that is Starr. But what Starr does—or does not—say could upend her community. It could also endanger her life. And don't miss On the Come Up, Angie Thomas's powerful follow-up to The Hate U Give.

Brain On Fire: My Month of Madness

'My first serious blackout marked the line between sanity and insanity. Though I would have moments of lucidity over the coming days and weeks, I would never again be the same person ' Susannah Cahalan was a happy, clever, healthy twenty-four-year old. Then one day she woke up in hospital, with no memory of what had happened or how she had got there. Within weeks, she would be transformed into someone unrecognizable, descending into a state of acute psychosis, undergoing rages and convulsions, hallucinating that her father had murdered his wife; that she could control time with her mind. Everything she had taken for granted about her life, and who she was, was wiped out. Brain on Fire is Susannah's story of her terrifying descent into madness and the desperate hunt for a diagnosis, as, after dozens of tests and scans, baffled doctors concluded she should be confined in a psychiatric ward. It is also the story of how one brilliant man, Syria-born Dr Najar, finally proved - using a simple pen and paper - that Susannah's psychotic behaviour was caused by a rare autoimmune disease attacking her brain. His diagnosis of this little-known condition, thought to have been the real cause of devil-possession through history, saved her life, and possibly the lives of many others. Cahalan takes readers inside this newly-discovered disease through the progress of her own harrowing journey, piecing it together using memories, journals, hospital videos and records. Written with passionate honesty and intelligence, Brain on Fire is a searingly personal yet universal book, which asks what happens when your identity is suddenly destroyed, and how you get it back. 'With eagle-eye precision and brutal honesty, Susannah Cahalan turns her journalistic gaze on herself as she bravely looks back on one of the most harrowing and unimaginable experiences one could ever face: the loss of mind, body and self. Brain on Fire is a mesmerizing story' -Mira Bartók, New York Times bestselling author of The Memory Palace Susannah Cahalan is a reporter on the New York Post, and the recipient

of the 2010 Silurian Award of Excellence in Journalism for Feature Writing. Her writing has also appeared in the New York Times, and is frequently picked up by the Daily Mail, Gawker, Gothamist, AOL and Yahoo among other news aggregator sites.

So she is shocked when her babysitter, Emira Tucker, is confronted while watching the Chamberlains' toddler one night, walking the aisles of their local high-end supermarket. The store's security guard, seeing a young black woman out late with a white child, accuses Emira of kidnapping two-year-old Briar. A small crowd gathers, a bystander films everything, and Emira is furious and humiliated. Alix resolves to make things right. But Emira herself is aimless, broke, and wary of Alix's desire to help. At twenty-five, she is about to lose her health insurance and has no idea what to do with her life. Why We Sleep

"The book of Lilith tells the real story of creation. Lilith is the first human to be given a soul by God following a thirteen billion year process of mechanical, soulless evolution. Her job is to give souls to all things and awaken them to the Watcher that watches the watcher, watching the world. The first person she grants a soul to is Adam, who is given a job of his own: to invent the definition of sin, create a moral sense in a world that utterly lacks one, and hence bring about the rule of law in a compassionate society. Unfortunately, Adam has a hard time accepting the fact that he was given his soul

second, instead of first, and by Lilith, not God. The conflict this engenders leads to the destruction of Eden, the creation of Eve, and a voyage of self-discovery that spans a world"--P. [4] of cover.

English Mechanic and World of Science

"Miller and Upton is by far the most cited macroeconomics text in front line academic research journals over the last ten years. It has become a contemporary classic."--Roger C. Kormendi, University of Michigan "The most innovative approach to introducing macroeconomics that I have seen. . . . A 'classic' in the sense that every serious student of macroeconomics is likely to want it in his or her library."--John P. Gould, University of Chicago "The task the authors set out to perform is ambitious: to write a macroeconomics textbook structured around a neoclassical growth model. And in this task they have succeeded."--Clifford W. Smith, Jr., Journal of Finance "This is a superb book. As a vehicle for teaching economics I have to place it right behind Henderson and Quant (Microeconomics) and Dorfman,

Samuelson, and Solow (Linear Programming). Moreover, it is an exciting book both to read and to think about. . . . It is not just that these authors have something to say, but their way of saying it is generally superior."—F. E. Banks, *Kyklos*

In a Dark Place

A brilliant satire of mass culture and the numbing effects of technology, *White Noise* tells the story of Jack Gladney, a teacher of Hitler studies at a liberal arts college in Middle America. Jack and

his fourth wife, Babette, bound by their love, fear of death, and four ultramodern offspring, navigate the rocky passages of family life to the background babble of brand-name consumerism. Then a lethal black chemical cloud, unleashed by an industrial accident, floats over their lives, an "airborne toxic event" that is a more urgent and visible version of the white noise engulfing the Gladneys—the radio transmissions, sirens, microwaves, and TV murmurings that constitute the music of American magic and dread.

For generations, enterprising people in the southern Appalachians have turned the region's extensive network of caves into a strange, fascinating genre of tourist attraction. Visitors pay admission to take a tour deep underground, learning a little about history and geology while puzzling over lit-up rock formations said to resemble anything from Niagara Falls to the Capitol dome. Then off go the lights, enveloping the travelers in total darkness--until the guide flips them back on and welcomes folks back into the safety of the inevitable gift shop. Show caves, as Douglas Reichert Powell explains in *Endless Caverns*, are at once predictable and astonishing, ancient and modern, eerie and sentimental. Their story sparks memories of a fleeting cool moment deep underground during a hot summer vacation, capturing in microcosm the history and culture of a region where a deeply rooted sense of place collides with constant change. Reichert Powell takes readers along on his journey through the past and present of Appalachia's show caves, highlighting the characters who have owned and operated them, the ways the attractions have developed and changed over the years, and the odd intrigue that still leads people to buy their ticket and head underground. Tourist tastes may shift as interstates whisk travelers past the backroads and on to trendier destinations, but the show cave--like Appalachia itself--endures.

AN INSTANT NEW YORK TIMES BESTSELLER! A GOOD MORNING AMERICA BOOK CLUB PICK "[Moore's] careful balance of the hard-bitten with the heartfelt is what elevates *Long Bright River* from entertaining page-turner to a book that makes you want to call someone you love." - The New York Times Book Review "This is police procedural and a thriller par excellence, one in which the city of Philadelphia itself is a character (think Boston and *Mystic River*). But it's also a literary tale narrated by a strong woman with a richly drawn personal life - powerful and genre-defying." - People "A thoughtful, powerful novel by a writer who displays enormous compassion for her characters. *Long*

Bright River is an outstanding crime novel... I absolutely loved it." —Paula Hawkins, #1 New York Times–bestselling author of *The Girl on the Train* Two sisters travel the same streets, though their lives couldn't be more different. Then one of them goes missing. In a Philadelphia neighborhood rocked by the opioid crisis, two once-inseparable sisters find themselves at odds. One, Kacey, lives on the streets in the vise of addiction. The other, Mickey, walks those same blocks on her police beat. They don't speak anymore, but Mickey never stops worrying about her sibling. Then Kacey disappears, suddenly, at the same time that a mysterious string of murders begins in Mickey's district, and Mickey becomes dangerously obsessed with finding the culprit--and her sister--before it's too late. Alternating its present-day mystery with the story of the sisters' childhood and adolescence, *Long Bright River* is at once heart-pounding and heart-wrenching: a gripping suspense novel that is also a moving story of sisters, addiction, and the formidable ties that persist between place, family, and fate.
