How do you build successful professional connections with colleagues from Mexico? While most books focus simply on how to avoid common communication mistakes, this book leads its readers to an understanding of how to succeed and thrive within the three cultures, Mexico, the US, and Canada. Kelm, Hernandez-Pozas and Victor present a set of practical guidelines for communicating professionally with Mexicans, both in Mexico and abroad, providing many photographs as examples. The Seven Keys to Communicating in Mexico follows the model of presenting key cultural concepts used in the earlier books by Kelm and Victor on Brazil and (with Haru Yamada) on Japan. Olivia Hernandez-Pozas, Orlando Kelm, and David Victor, well-respected research professors and seasoned cross-cultural trainers for businesspeople, guide readers through Mexican culture using Victor's LESCANT Model (an acronym representing seven key cross-cultural communication areas: Language, Environment, Social Organization, Contexting, Authority, Nonverbal Behavior, and Time). Each chapter addresses one of these topics and demonstrates how to evaluate the differences among Mexican, US, and Canadian cultures. In the final chapter the authors bring all of these cultural interactions together with a sample case study about business interactions between Mexicans and North Americans. The case study includes additional observations from North American and Mexican business professionals who offer related suggestions and recommendations.

Strategies for transforming a toxic church culture Why is it that the best strategic plans and good leadership often are not able to move churches in the desired direction? Sam Chand contends that toxic culture is to blame. Quite often, leaders don't sense the toxicity, but it poisons their relationships and derails their vision. This work describes five easily identifiable categories of church culture (inspiring-accepting-stagnant-discouraging-toxic), with diagnostic descriptions in the book and a separate online assessment tool. The reader will be able to identify strengths and needs of their church's culture, and then apply practical strategies (communication, control and authority, selection and placement of personnel, etc.) to make their church's culture more positive. Discusses how to diagnose the state of a church's culture Reveals what it takes to put in place effective strategies for creating a more positive church culture Author served on the board of EQUIP (Dr. John Maxwell's Ministry), equipping five million leaders world-wide. This important book offers a clear guide for understanding and recreating a healthy church culture.

### You Were Born for This

Starting Monday is based on the simple premise that when our behaviors don't align with our expressed intentions, we've got a conflict going on, often outside of our awareness. The book helps readers dig deeply into their psyches to figure out what mistaken beliefs and needless fears are holding them back from achieving their health and fitness goals. The polarized feelings for disregulated eaters to identify and resolve fall within these 7 key areas: 1) create lasting change, 2) making conscious choices, 3) feel deserving, 4) how to comfort themselves, 5) know what's enough, 6) manage intimacy, and 7) developing a healthy identity. Starting Monday first helps readers unearth their mixed feelings in these seven areas, then teaches them how to change their beliefs and behaviors to resolve them. Using humor, plain talk, examples from her clinical experience, reflection exercises, case studies, and homework, Koenig lets troubled eaters know that their yo-yo patterns of eating and self care are due to conflicts. She shies away from easy answers and, instead, provides hope and concrete actions to developing a permanent, positive relationship with food.

An extraordinary, powerful connection exists between feeling and feeding that, if damaged, may lead to one relying on food for emotional support, rather than seeking authentic happiness. This unique workbook takes on the seven emotions that plague problem eaters — guilt, shame, helplessness, anxiety, disappointment, confusion, and loneliness — and shows readers how to embrace and learn from their feelings. Written with honesty and humor, the book explains how to identify and label a specific emotion, the function of that emotion, and why the emotion drives food and eating problems. Each chapter has two sets of exercises: experiential exercises that relate to emotions and eating, and questionnaires that provoke thinking about and understanding feelings and their purpose. Supplemental pages help readers identify emotions and chart emotional development. The final part of the workbook focuses on strategies for disconnecting feeling from food, discovering emotional triggers, and using one's feelings to get what one wants out of life.

### Sir Thursday: Keys to the Kingdom 4

*Helping Patients Outsmart Overeating*, written by an eating disorder therapist and a physician, offers a new paradigm for doctors and health care providers who treat patients with eating and weight concerns. It describes how both parties are frustrated by weight-loss plans and programs that fail in the long term, and presents a science-based explanation for why diets fail and how they, in fact, may adversely impact patients' mental and physical health. The authors illustrate how providers can truly help patients by using empathy, compassion, and motivational interviewing. They explain how helping patients strengthen skills related to self-awareness, emotional management, stress reduction, appetite attunement, perseverance and effective self-care can improve self-efficacy and support sustained motivation in improving health and wellness promoting behaviors. The issue of weight stigma is addressed, along with how professionals' view of their own eating and weight affects the patient-provider relationship. This book introduces clinicians to tools from eating and success psychology, Intuitive Eating, Lifestyle Medicine, and Health and Wellness Coaching, within a weight-inclusive paradigm. It also details a collaborative model for working with ancillary disciplines to give patients and providers the comprehensive support needed for lasting success.
