The Koran and the Bible

America's leading religious scholar and public intellectual introduces lay readers to the Qur'an with a measured, powerful reading of the ancient text Garry Wills has spent a lifetime thinking and writing about Christianity. In *What the Qur'an Meant*, Wills invites readers to join him as he embarks on a timely and necessary reconsideration of the Qur'an, leading us through perplexing passages with insight and erudition. What does the Qur'an actually

say about veiling women? Does it justify religious war? There was a time when ordinary Americans did not have to know much about Islam. That is no longer the case. We blundered into the longest war in our history without knowing basic facts about the Islamic civilization with which we were dealing. We are constantly fed false information about Islam--claims that it is essentially a religion of violence, that its sacred book is a handbook for terrorists. There is no way to assess these claims unless we have at least some knowledge of the Qur'an. In this book Wills, as a non-Muslim with an open mind, reads the Qur'an with sympathy but with rigor, trying to discover why other non-Muslims--such as Pope Francis--find it an inspiring book, worthy to guide people down through the centuries. There are many traditions that add to and distort and blunt the actual words of the text. What Wills does resembles the work of art restorers who clean away accumulated layers of dust to find the original meaning. He compares the Qur'an with other sacred books, the Old Testament and the New Testament, to show many parallels between them. There are also parallel difficulties of interpretation, which call for patient exploration--and which offer some thrills of discovery. What the Qur'an Meant is the opening of a conversation on one of the world's most practiced religions.

The Bible, the Qur'an and Science

In the current political and social climate, there is increasing demand for a deeper understanding of Muslims, the Qur'an and Islam, as well as a keen demand among Muslim scholars to explore ways of engaging with Christians theologically, culturally, and socially. This book explores the ways in which an awareness of Islam and the Qur'an can change the way in which the Bible is read. The contributors come from both Muslim and Christian backgrounds, bring various levels of commitment to the Qur'an and the Bible as Scripture, and often have significantly different

perspectives. The first section of the book contains chapters that compare the report of an event in the Bible with a report of the same event in the Qur'an. The second section addresses Muslim readings of the Bible and biblical tradition and looks at how Muslims might regard the Bible - Can they recognise it as Scripture? If so, what does that mean, and how does it relate to the Qur'an as Scripture? Similarly, how might Christian readers regard the Qur'an? The final section explores different analogies for understanding the Bible in relation to the Qur'an. The book concludes with a reflection upon the particular challenges that await Muslim scholars who seek to respond to Jewish and Christian understandings of the Jewish and Christian scriptures. A pioneering venture into intertextual reading, this book has important implications for relationships between Christians and Muslims. It will be of significant value to scholars of both Biblical and Qur'anic Studies, as well as any Muslim seeking to deepen their understanding of the Bible, and any Christian looking to transform the way in which they read the Bible.

(Tevrat, Zebur & Injil) Does God want to protect all of His Holy Books from change and corruption? (Purpose /Niyet) Are the "God" of the Bible and the "Allah" of the Qur'an one and the same entity? Reading the Bible in Islamic Context

The Bible and the Qur'an provides an overview of all the figures and groups who are mentioned in both the Bible and the Qur'an. Principal focus centres on the similarities and differences between the presentations of these characters in the two texts, with special emphasis placed on how they appear in the Islamic text. References are also included to how many of the individuals/groups discussed are treated in other Islamic sources. Each figure or group includes: (1) a list of relevant Qur'an passages; (2) a description of how the individual/group is presented in the Islamic Texts; (3) questions and issues to consider; (4) suggestions for further readings. An introductory section provides a basic orientation to the Qur'an and other Islamic sources.

richly nuanced, and revelatory account of the fastest growing religion in the world. Here Esposito explores the major questions and issues that face Islam in the 21st century and that will deeply affect global politics: Is Islam compatible with modern notions of democracy, rule of law, gender equality, and human rights? How representative and widespread is Islamic fundamentalism and the threat of global terrorism? Can Muslim minority communities be loyal citizens in America and Europe? In the midst of these questions Esposito places an important emphasis on the issue of Islamophobia, the threat it poses, and its vast impact on politics and society in the US and Europe. He also turns the mirror on the US and Europe and paints a revealing portrait of how we appear to Muslims. Recent decades have brought extraordinary changes in the Muslim world, and in addressing these issues, Esposito paints a complex picture of Islam in all its diversity--a picture of urgent importance as we face the challenges of the coming century.

"Gabriel Said Reynolds tells the story of Islam in this brief illustrated survey, beginning with Muhammad's early life and rise to power, then tracing the origins and development of the Quran juxtaposed with biblical literature, and concluding with an overview of modern and fundamentalist narratives of the origin of Islam. Reynolds offers a fascinating look at the structure and meaning of the Qur'an, revealing the ways in which biblical language is used to advance the Qur'an's religious meaning. Reynolds' analysis identifies the motives that shaped each narrative Islamic, Jewish, and Christian. The book's conclusion yields a rich understanding of diverse interpretations of Islam's emergence, suggesting that its emergence is itself ever-developing" -- Publisher description.

Too often we are tempted into thinking how wrong other people's religions and scriptures are, rather than focusing on what's right about our own. We act like some of our politicians during election campaigns rather than following the teachings of our own holy books. Breaking the trend, author Dr. Ejaz Naqvi provides an objective, topic-by-topic review of the two most read books in the world—the Holy Bible and the Holy Quran. The Quran: With or Against the Bible? addresses the key themes of the Quran and answers commonly asked questions in search of finding common ground: • Who wrote the Quran? • Who is the “God” of the Quran?

The Quran: With or Against the Bible?

Two world religions – two books which span the globe: the Bible and the Koran. Both have been and still are disseminated in the millions every year. And the contents of these two books continue to write world history. Still, in their origin, style, and message the two books could hardly be more different. This study of the two books does not have its center in the dogmatic differences of the two religions. Rather, it has to do with different understandings respecting Holy Scripture as ‘God’s Word.’ It is from different understandings of how God reveals himself that most other differences between the two religions originate. With that said, this book also makes an important contribution to understanding the problem of fundamentalism in both religions.

Claiming Abraham

From the first centuries of Islam to well into the Middle Ages, Jews and Christians produced hundreds of manuscripts containing portions of the Bible in Arabic. Until recently, however, these translations remained largely neglected by Biblical scholars and historians. In telling the story of the Bible in Arabic, this book casts light on a crucial transition in the cultural and religious life of Jews and Christians in Arabic-speaking lands. In pre-Islamic times, Jewish and Christian scriptures circulated orally in the Arabic-speaking milieu. After the rise of Islam--and the Qur'an's appearance as a scripture in its own right--Jews and Christians translated the Hebrew Bible and the Greek New Testament into Arabic for their own use and as a response to the Qur'an's retelling of Biblical narratives. From the ninth century onward, a steady stream of Jewish and Christian translations of the Hebrew Bible and New Testament crossed communal borders to influence the Islamic world. The Bible in Arabic offers a new frame of reference for the pivotal place of Arabic Bible translations in the religious and cultural interactions between Jews, Christians, and Muslims.

In doing so, Miles illuminates what is unique about Allah, His teachings, and His resolutely merciful temperament, and he thereby reveals that which is false, distorted, or simply absent from the popular conception of the heart of Islam. So, too, does Miles uncover the spiritual and scriptural continuity of the Islamic tradition with those of Judaism and Christianity, and the deep affinities among the three by setting passages from the Hebrew Bible, the New Testament, and the Qur'an side by side. In the spirit of his two previous books, *God and Christ*, and with his characteristic sensitivity, perspicacity and prodigious command of the subject, Miles calls for us all to read another's scriptures with the same understanding and accommodating eye that we turn upon our own.

200 Questions about the Bible and the Qur'an

Doctoral Thesis / Dissertation from the year 2003 in the subject Theology - Comparative Religion Studies, grade: cum laude, Concordia University Montreal (Concordia Theologica Institute; Neffs, Penns., USA), language: English, abstract: This paper sets out to examine the presence of Jesus Christ as presented in the Holy Quran. This is presented from the perspective of a twentieth century African Christian after an objective reading of the Holy Quran and some Hadith literature. Jesus comes through as a prophet and messenger of Allah, with whom Allah has established unique relationship and about whom the last word is not yet spoken. The Quran comes through as a great defender of what it reveals as the true nature and identity of Jesus, against different and conflicting misrepresentations of Jesus by rival Christian groups. The Quran presents a Jesus in whom Allah is greatly interested. Allah identifies and prepares Mary the mother of Jesus and entrusts her to the care of Zachariah. Allah gives a gift of a son to Zachariah in their old

age; this son is John and called “Yahya” in the Quran. Allah then gives a Word from Himself to Mary. This word from Allah given to Mary becomes Jesus a son born of a virgin mother. Allah himself through the ministry of Angels and nature arranges for and takes care of Mary’s confinement and post-delivery care till Allah presents her back to her people with her infant son Jesus who as an infant miraculously spoke in defense of his mother. The Quran presents a Jesus who delivers a message to the children of Israel only. A Jesus who performs miracles and a Jesus who is rescued by Allah from the threat of being crucified by the Jews Allah takes Jesus unto Himself and before the day of judgement Jesus will come to do the will of Allah. After reading all the references of Jesus in the Quran, one develops an interest in this Prophet and Messenger of Allah and asks many questions about him. However, the Quran is silent. This silence of the Quran about so much historical information about Jesus becomes very loud and problematic. The quotations from the Holy Quran in this paper are from Ali, Abdullah Yusuf: The Holy Quran: Arabic Text, Translation and Commentary, University of New York Press, 1991. The purpose of this paper is:- 1. Trace Jesus in the Holy Quran 2. Compare and contrast the Jesus in the Quran and the Bible 3. Help Christian to understand Islam Religion and being able to answer the basic system of doctrine of a Muslim. 4. Have a picture of Jesus through the eyes of a Muslim and a Christian.

Bible, The Qur'an And Science

A groundbreaking comparative study that illuminates the connections between the Qur'an and the Bible While the Hebrew Bible and the New Testament are understood to be related texts, the sacred scripture of Islam, the third Abrahamic faith, has generally been considered separately. offer rigorous and revelatory commentary on how these holy books are intrinsically connected. Reynolds demonstrates how Jewish and Christian characters, imagery, and literary devices feature prominently in the Qur'an, including stories of angels bowing before Adam and of Jesus speaking as an infant. This important contribution to religious studies features a full translation of the Qur'an along with excerpts from the Jewish and Christian texts. It offers a clear analysis of the debates within the communities of religious scholars concerning the relationship of these scriptures, providing a new lens through which to view the powerful links that bond these three major religions.

The Origins of the Koran

This volume rejects the notion that Islam's sacred text is error free and cannot be critically evaluated. The study of the Koran must develop and mature. Scholars of Islam are of course familiar with the book's many errors and contradictions, but these inherent flaws have rarely been revealed to a wider public. The Origins of the Koran is an attempt to remedy this deficiency by bringing together classic critical essays which raise key issues surrounding Islam's holy book. Divided into four parts, this important anthology begins with Theodor Nöldeke's first truly scientific study of the Koran. Part Two focuses on the difficulty of establishing a reliable Koranic text, while Part Three examines the Jewish, Christian, and Zoroastrian

Part Four is a consideration of the controversial interpretations of contemporary scholar John Wansbrough, who questions the historical reliability of the earliest Islamic sources. Torrey, and more, will prove indispensable to scholars and all those interested in the textual underpinning of one of the fastest growing religions in the world. A concise and illuminating portrait of Allah from one of the world's leading Qur'anic scholars. The central figure of the Qur'an is not Muhammad but Allah. The Qur'an, Islam's sacred scripture, is marked above all by its call to worship Allah, and Allah alone. Yet who is the God of the Qur'an? What distinguishes the Qur'anic presentation of God from that of the Bible? In this illuminating study, Gabriel Said Reynolds depicts a god of both mercy and vengeance, one who transcends simple classification. He is personal and mysterious; no limits can be placed on his mercy. Remarkably, the Qur'an is open to God's salvation of both sinners and unbelievers. At the same time, Allah can lead humans astray, so all are called to a disposition of piety and fear. Allah, in other words, is a dynamic and personal God. This eye-opening book provides a unique portrait of the God of the Qur'an.

Jews, Christians, and Muslims all believe that their Scriptures preserve God's words to humanity, and that those words were spoken uniquely to them. In *The Voice, the Word, the Books*, F. E. Peters leads readers on an extraordinary journey through centuries of written tradition to uncover the human fingerprints on the Hebrew Bible, the New Testament, and the Quran, sacred texts that have enriched millions of lives. Bringing the latest Biblical and Quranic scholarship to a general audience, Peters explains how these three powerfully influential books passed from God's mouth, so to speak, to become the Scriptures that we possess today. He reveals new insights into their origins, contents, canonization, and the important roles they have played in the lives of their communities. He explores how they evolved through time from oral to written texts, who composed them and who wrote them, as well as the theological commonalities and points of disagreement among their adherents. Writing in the comparative style for which he is renowned, Peters charts the transmission of faith from the spoken word to the printed page, from the revelations on Sinai and Mount Hira to Mamluk ateliers in Cairo and Gutenberg's press in Mainz. Peters is an acknowledged expert who has written extensively on these three great world religions, each of them an inheritor of the faith of Abraham. Published in conjunction with an exhibit at the British Library, this illustrated book includes beautiful images of the rare editions on exhibit and constitutes Peters's most ambitious and illuminating examination yet of the sacred texts that so inform civilization both East and West.

Discussing the Bible and the Qur'an in one breath will surprise some Jews, Christians, and Muslims. But Anton Wessels argues that all three traditions must read the Scriptures together and not against each other. As his book title suggests, the three books, in the end, are actually one tale. Wessels accepts Muhammad as a prophet and takes the Qur'an seriously as Holy Scripture along with the Old and New Testaments -- without giving up his own Christian convictions. Respectfully reading the Torah, the Gospel, and the Qur'an together, he argues, is of crucial importance: our world often sees these religious books as the cause of conflicts rather than the solution to them.

of its audience. However, medieval Muslim commentators, working in a context of religious rivalry, developed stories that separate Qur'an and Bible, which this book brings back together. In a series of studies involving the devil, Adam, Abraham, Jonah, Mary, and Muhammad among others, Reynolds shows how modern translators of the Qur'an have followed medieval Muslim commentary and demonstrates how an appreciation of the Qur'an's Biblical subtext uncovers the richness of the Qur'an's discourse. Presenting unique interpretations of 13 different sections of the Qur'an based on studies of earlier Jewish and Christian literature, the author substantially re-evaluates Muslim exegetical literature. Thus *The Qur'an and Its Biblical Subtext*, a work based on a profound regard for the Qur'an's literary structure and rhetorical strategy, poses a substantial challenge to the standard scholarship of Qur'anic Studies. With an approach that bridges early Christian history and Islamic origins, the book will appeal not only to students of the Qur'an but of the Bible, religious studies and Islamic history.

No God but One: Allah or Jesus? (with Bonus Content)

The Fifth-Century Political Battles That Forever Changed the Church In this fascinating account of the surprisingly violent fifth-century church, Philip Jenkins describes how political maneuvers by a handful of powerful characters shaped Christian doctrine. Were it not for these battles, today's church could be teaching something very different about the nature of Jesus, and the papacy as we know it would never have come into existence. Jesus Wars reveals the profound implications of what amounts to an accident of history: that one faction of Roman emperors and militia-wielding bishops defeated another.

The Emergence of Islam

To my earthly father, my only worth was through my death. But God saw me so differently that, at first, I could barely comprehend it. Esther Ahmad thought she knew the way to earn her Muslim father's love. She raised her hand for the suicide mission, her

martyrdom guaranteeing her family a place in heaven. But God had a different mission for Esther—a journey out of Pakistan, from despair to hope, from shame to purity, and from Allah’s wrath to a Father’s love. In *Unveiled*, Esther examines a world in which women have no rights, no worth, no voice, and she shows how the treatment of Muslim women is linked directly to Islamic teachings. With vivid personal stories, she lays out the lies of the Qur’an against the truth she found in the Bible. This is no academic comparison but a question of life or death: What is a woman worth?
