The Novels of Charles Lever: The fortunes of Glencore

A study of the new scientific understanding of consciousness and the mind as a fifth dimension of reality • Introduces the existence of a fifth dimension--one of mind--an inner- or hyperspace where time is transcended • Shows how the barrier of the speed of light is actually a gateway demarking the fifth dimension Since the introduction of Descartes' dualism in the seventeenth century, the mind and the physical world have been viewed as disconnected entities. Yet qualities of mind such as awareness, purposeful action, organization, design, and even decision-making are present within the structure of matter and within the dimensions of space and time. The space-time continuum of scientists generally ignores the realm of the mind, though phenomena such as imaginary numbers, used by Einstein to combine space with time, are concepts that only exist in the mind. Marc Seifer contends that the inadequacy of four-dimensional models to account for our experience of mental phenomena points to the consciousness of the mind as a higher organizing principle, a fifth dimension where thoughts are as real and quantifiable as our familiar physical world. He shows that because thought enables us to move backward and forward through time--reflecting on the past and making plans for the future--this fifth dimension of mind breaks the laws of relativity, thereby transcending the speed of light. His extensive study of this fifth dimension ranges from relativity and ether theory to precognition, telepathy, and synchronicity, all from the perspective of the conscious universe.

Transcending Mission

The chapters of this book are nothing but mirrors for seeing your "self" from different angles. And though the journey we are about to embark on is an inner one, it will draw upon every aspect of your life. The only requirement asked of you is the willingness to honestly look at yourself in the most natural, intuitive manner. Remember, if we are seeking the root of "self," what we are actually seeking is you. As you read through these pages, you will find that you know much more than you thought you did about some very deep subjects. The fact is, you already know how to find yourself; you have just gotten distracted and disoriented. Once refocused, you will realize that you not only have the ability to find yourself, you have the ability to free yourself. Whether you choose to do so or not is entirely up to you. But upon completion of your journey through these chapters, there will be no more confusion, no more lack of empowerment, and no more blaming others. You will know exactly what must be done. And should you choose to devote yourself to the ongoing journey of self-realization, you will develop a tremendous sense of respect for who you really are. It is only then that you will come to appreciate the full depth of meaning in the advice: "This above all: to thine own self be true."

Dream No Little Dreams

The Restless Hungarian is the saga of an extraordinary life set against the history of the rise of modernism, the Jewish Diaspora, and the Cold War. A Hungarian Jew whose inquiring spirit helped him to escape the Holocaust, Paul Weidlinger became one of the most creative structural engineers of the twentieth century. As a young architect, he broke ranks with the great modernists with his radical idea of the “Joy of Space.” As an engineer, he created the strength behind the beauty in mid-century modern skyscrapers, churches, museums, and he gave concrete form to the eccentric monumental sculptures of Pablo Picasso, Isamu Noguchi, and Jean Dubuffet. In his private life, he was a divided man, living behind a wall of denial as he lost his family to war, mental illness, and suicide. In telling his father’s story, the author sifts meaning from the inspiring and contradictory narratives of a life: a motherless child and a captain of industry, a clandestine communist who designed silos for the world’s deadliest weapons during the Cold War, a Jewish refugee who denied he was a Jew, a husband who was terrified of his wife’s madness, and a man whose personal saints were artists.

I'll Meet You in Your Dreams

This book has two parts. Part I exposes seven false Secret Society "New World Order" constructs. Part II exposes the true nature of reality and what we need to do to "Transcend" this carbon matrix when we die. The chapters in part one are: The Sumerian Swindle. Reveals the Anunnaki, genetically engineers of the Nordic race. Explains how and why the money handlers ripped-off the Sumerian text to create the Old Testament. The Problem with Scientism. Exposes how the Secret Societies hide the hand of God in Creation via their false theories. The Creation of Islam. Quotes the work of the whistleblower and former Jesuit Alberto

Classics of Buddhism and Zen: The Sutra of Hui-neng, dream conversations, Kensho: the heart of Zen, rational Zen, Zen and the art of insight

What exactly does it take to bring out the best in you? Pure luck or simply one's fate? How far can one go through sheer grit, hard work and consistency? In *The Bold Dream: Transcending the Impossible*, a medical doctor and an aerospace engineer tell of how they scaled academic heights from under-resourced rural primary schools deep in the heart of the Rift Valley in Kenya, to the University of Oxford as Rhodes scholars. Through narration of real-life experiences, this book explores the challenges they faced while growing up and schooling, the push that their bold dreams gave them, and how they ended up in one of the most prestigious academic institutions in the world. Most importantly, they share deep, thought-provoking views on the sacrifices women in their community make, through the experiences of their mothers. Dr Elisha Ngetich and Dr Gladys Ngetich explore some of the consistent themes in their serendipitous climb to the University of Oxford to pursue PhD. An inspirational read, this book is a must read for anyone who wants to persistently pursue their bold dreams.

In his richly detailed, beautifully illustrated history of Shakespeare's most popular play - the first comprehensive study of *A Midsummer Night's Dream* in the theatre - Gary Jay Williams covers four hundred years of landmark productions in Europe, the United States, and Canada as well as important opera, dance, and film adaptations. Williams shows how the visual and musical vocabularies of production can be read as cultural texts and how these mediative texts determine this play's available meanings from generation to generation. His account, then, is the story of our imaginative and astonishing uses of Shakespeare's play. Williams offers detailed theatrical and cultural analyses of the productions of David Garrick, Ludwig Tieck,

Elizabeth Vestris, Charles Kean, Harley Granville-Barker, Sir Herbert Beerbohm Tree, Max Reinhardt, Peter Brook, Liviu Ciulei, and other artists. His engaging, intelligent study will be invaluable to scholars and teachers of Shakespeare and theatre history and to professional directors, designers, critics, and actors.

This startlingly original and highly readable volume adds a new richness and depth to an element of U.S. history that is all too often taken for granted. In *American Consumer Society*, Regina Lee Blaszczyk examines the emergence of consumerism in the Victorian era, and, in tracing its evolution over the next 140 years, shows how the emergence of a mass market was followed by its fragmentation. Niche marketing focused on successive waves of new consumers as each made its presence known: Irish immigrants, urban African Americans, teenagers, computer geeks, and soccer moms, to name but a few. Blaszczyk demonstrates that middle-class consumerism is an intrinsic part of American identity, but exactly how consumerism reflected that identity changed over time. Initially driven to imitate those who had already achieved success, Americans eventually began to use their purchases to express themselves. This led to a fundamental change in American culture—one in which the American reverence for things was replaced by a passion for experiences. New Millennium families no longer treasured exquisite china or dress in fine clothes, but they'll spare no expense on being able to make phone calls, retrieve emails, watch ESPN, or visit web sites at any place, any time. Victorian mothers just wouldn't understand. Using materials and techniques from

business history, art history, anthropology, sociology, material culture, and good story-telling, this lavishly illustrated and highly thoughtful narrative offers a compelling re-interpretation of American culture through the lens of consumerism, making it perfect for use not only as supplementary reading in the U.S. survey, but also for a variety of courses in Business, Culture, Economics, Marketing, and Fashion and Design history.

Dream Big! Heroes Who Dared to be Bold

It is sometimes said that the most segregated time of the week in the United States is Sunday morning. Even as workplaces and public institutions such as the military have become racially integrated, racial separation in Christian religious congregations is the norm. And yet some congregations remain stubbornly, racially mixed. *People of the Dream* is the most complete study of this phenomenon ever undertaken. Author Michael Emerson explores such questions as: how do racially mixed congregations come together? How are they sustained? Who attends them, how did they get there, and what are their experiences? Engagingly written, the book enters the worlds of these congregations through national surveys and in-depth studies of those attending racially mixed churches. Data for the book was collected over seven years by the author and his research team. It includes more than 2,500 telephone interviews, hundreds of written surveys, and extensive visits to mixed-race congregations throughout the United States. *People of the Dream* argues that multiracial congregations are bridge organizations that gather and facilitate cross-racial friendships, disproportionately housing people who have substantially more racially diverse social networks than do other Americans. The book

concludes that multiracial congregations and the people in them may be harbingers of racial change to come in the United States.

Romantic Origins

Poems of Felicia Hemans

One of the most influential singers and songwriters of all time, Sam Cooke was among the first to blend gospel music and secular themes--the early foundation of soul music. He was the opposite of Elvis: a black performer who appealed to white audiences, who wrote his own songs, who controlled his own business destiny. No biography has previously been written that fully captures Sam Cooke's accomplishments, the importance of his contribution to American music, the drama that accompanied his rise in the early days of the civil rights movement, and the mystery that surrounds his death. Bestselling author Peter Guralnick tells this moving and significant story, from Cooke's childhood as a choirboy to an adulthood when he was anything

but. With appearances by Martin Luther King Jr., Malcolm X, James Brown, Harry Belafonte, Aretha Franklin, Fidel Castro, The Beatles, Sonny and Cher, Bob Dylan, and other central figures of this explosive era, DREAM BOOGIE is a compelling depiction of one man striving to achieve his vision despite all obstacles--and an epic portrait of America during the turbulent and hopeful 1950s and 1960s. The triumph of the book is the vividness with which Peter Guralnick conveys the astonishing richness of the black America of this era--the drama, force, and feeling of the story. This enhanced edition includes: Exclusive video footage prepared specifically for the enhanced eBook that has never been seen before. Rare audio clips.

Our Moonlight Revels

A candid memoir of building an acting career—and a happy life—with cerebral palsy: “It’s a joy to read this book” (Ian McShane). Exposing real pain, unstoppable perseverance, and unquestionable faith in the human spirit, this autobiography offers a true glimpse beyond actress Geri Jewell’s public image as a one-dimensional hero. Born with cerebral palsy, Jewell made history when she became the first person with a disability cast in a recurring role on American television in *The Facts of Life*, and in the years that followed she experienced a string of other successes, including a performance at the White House and a role on HBO’s *Deadwood*. But along with such accomplishments, this personal story also depicts some of the less-than-rosy events that happened behind closed doors during her initial climb to fame—among them, her release from *The Facts of Life*; her manager’s embezzlement of the money she made on the show; and her struggle with chronic pain, despair, and a fear of

revealing her true sexual identity. Told with grace and humor, this inspirational narrative presents an honest portrayal of a woman who refused to give up when others kept knocking her down.

The Bold Dream

Longing for adventure, Priscilla Morton leaves Boston and heads for Texas, never dreaming that the adventure she seeks will leave her badly injured and her parents dead. Priscilla is determined to rebuild her life and make a home for herself in the beautiful Hill Country. But the bandits who took her parents' lives also destroyed her hope for the future. Ranch foreman Zachary Webster knows what the future holds for him, and it's not a woman like Priscilla. She deserves a cultured East Coast gentleman, not a cowboy who's haunted by memories of his mistakes. The best thing he can do is leave her alone. When necessity draws them together, Priscilla and Zach begin to forge a life that, like the scattered petals of her childhood, is filled with promise. But then the past intrudes, threatening their very existence.
