The 1st Place Winner in the 2020 PenCraft Awards for Non-fiction, in the Travel Adventure category. It all starts with a simple plan. Take a three-week vacation in the summer. Fly to the Canary Islands to meet up with friends and help sail their new catamaran across the Atlantic. As it turns out, the vacation needs to be extended. Meeting up with friends is not so simple and the last part of the plan. The story follows the tried-and-true monomyth plot structure. In the departure part of the narrative, the protagonist lives in his ordinary world and receives an invitation to go on a long distance sailing trip. At first he is reluctant, but a friend and mentor persuade him to go for it. The initiation section begins when he arrives in the Canary Islands, where he faces tasks and trials. Far offshore, he eventually reaches the central crisis of his adventure, the storm, where he and his friends are pushed to their limits. For days, they sail through the storm and later are rewarded with perfect weather conditions as they make their passage across the mid-Atlantic. The protagonist then returns home with a greater appreciation of his ordinary world. Written by an author with undoubted credentials, the intriguing tale offers interesting tidbits along the way. The book's foreword is a fitting endorsement written by renowned boat designer John Shuttleworth, an expert in the field.

## The Complete Sailing Manual, 4th Edition

Long before he was one of America's leading yachting writers, Nigel Calder was a novice cruiser with ambitions grander than his experience. Nigel and his partner Terrie were young and foolish, with a home-built boat that was new and untested, one child already and another on the way - but they were determined to complete an adventurous 18-month voyage from New Orleans to Venezuela and back. It was the voyage that made Calder the yachtsman he is today,

a marvellous romp through the West Indies, seeing an unspoilt Caribbean, while learning hard-won lessons from direct experience - troubleshooting engines, kedging off shoals and reefs, and most importantly navigating Nada, a yacht that quickly became very much part of the burgeoning Calder family too. An adventure story and a colourful travelogue in one, Shakedown Cruise is a must-read for all who are curious about what it takes to become a cruising sailor or create an adventurous life, as well as those who are just looking to sail along with Nigel and his family.

This book covers every aspect of beginning sailing—from hoisting sail to docking and anchoring—and specifically prepares the learner to qualify for sailing certification according to international standards. ## This is Catamaran Sailing

*A Child of the Sea* is the true story of Jimmy Cornell's daughter sailing around the world on the family's small yacht from the age of 7 to 14, based on Doina's diaries, letters and memories. From 1975 to 1981 the Cornell family visited 54 countries, sailed more than 68,000 miles, and travelled about the same distance overland. The story is told from Doina's point of view, although the main part of the book focuses on the family's three-year stay in the Pacific when she is aged between 10 and 13. *Child of the Sea* is unusual in that it gives a glimpse into a life that most young children couldn't imagine, swimming, diving and playing the days away in deserted anchorages; visiting some of the most beautiful islands in the world; falling in love with the sea in all its ever-changing moods, from balmy trade wind ocean passages to the treacherous breakers that crash onto tropical reefs, and taking a full part in sailing and

handling the yacht on passage. The book also tells the story of a girl's coming of age in the South Pacific, understanding different cultures and values, and experiencing at first-hand how people judge each other depending on the colour of their skin - from the time on Easter Island when tourists mistake Doina for a Polynesian girl, to her and her brother's hostile prejudiced reception back in an English school at the end of their journey. What do children need to grow up happy and healthy? Security with their family; an element of risk; freedom to explore the world; openness to other peoples and cultures; closeness with nature and the elements and an appreciation of the environment and our finite resources. The sailing life offers all this and more, and this book captures it all.

## Rya Catamaran Handbook

The vast majority of sailing yacht scenarios comprise a couple sailing the boat together, and needing to carry out all manoeuvres and activities themselves with no help from a back-up crew. Their boat handling, navigation, sail handling, anchoring and mooring skills all have to be carried out both efficiently and effectively, preferably with the minimum of physical effort (to conserve energy). But most sailing technique books assume a crew of 3 or 4, all willing to lend a hand. This book is therefore a first, addressing the most common sailing scenarios that anyone cruising will have to deal with, and providing clever, original, highly effective (and most importantly successfully tried and tested by the author) techniques and solutions for dealing with the huge variety of essential operations on a boat – from sail setting and reefing, to picking up mooring buoys in a variety of wind and tide situations, anchoring, berthing and leaving a pontoon shorthanded, picking up a man overboard, sailing in fog and heavy weather – and even going up the mast. This book will be a godsend to anyone sailing single or shorthanded – including couples with young children who need to

be supervised by one parent whilst the other runs the boat.

Organised into techniques for different cruising scenarios, the book features step by step sequential photos showing exactly how to approach each situation and carry out the task in hand.

## Catamaran Sailing

This is an A-Z of seamanship skills for multihull sailors. There are many textbooks on the market which detail general seamanship principles. This is not one of them. Multihull Seamanship is about sea-going catamarans and trimarans and the skills needed to understand and enjoy them to their utmost. Both racing and cruising yachts are catered for, as are trailer-able multihulls. Seamanship is not a black and white skill. It is an evolution of knowledge, a building of information through experiment, thought and experience. There is no definitive word on an evolving skill. Multihull Seamanship started as Dr Gavin Le Sueur's personal index of 'how-to's. It has grown through experience and others sharing their knowledge. It should be on the book shelf of every catamaran and trimaran. This book is for people who are already multihull sailors, or for those who are contemplating multihull sailing. It has served this community for over 20 years and this second edition is fully updated. It is illustrated with delightful line drawings by Nigel Allison.
