through a typical interview giving sample answers that will put you in a good light. If you have a dream job in mind, you will need the tools provided. The suggestions are practical and clearly explained; the book is never esoteric or confusing. The point is to prepare in advance and not get surprised when you walk in the door. It is all about selling yourself to a prospective employer by showing that your background and experience meet his or her needs in fulfilling the company position. One secret about interviewing is to get the interviewer to reveal information, so that you can match your skills to what is needed for the job. All the best techniques are in the pages of this helpful book. Another tip is to research company leaders in advance and acquire sufficient knowledge of the firm's mission statement and goals. The book also amply covers verbal and non-verbal skills, the role of body language, how to dress to stand out, and the ups and downs of negotiating one's salary. Last but not least, the text includes discussing career expectations, one's strengths and weaknesses, and being a team player.

Tap into your "sixth sense" and become a better, more confident tarot reader. Most all tarot books present card-by-card interpretations as well as an instruction on how to read spreads. This book takes the next logical step inward by presenting

the art of reading in a workbook format, and helps you learn to interpret the cards intuitively. The book falls into two parts. The first part concerns learning about the cards, and includes exercises for each card that teaches you to trust your interpretation of the card. The second part helps you develop that ability, a skill that Reed calls “intuition.” All the exercises, stories, card meanings, and techniques really serve one purpose: to go beyond learning Tarot to living it. It’s not enough to memorize the meanings of the cards, and you can’t do a reading with a workbook at your side forever. In order to deliver a meaningful, accurate tarot reading, you need to hone your intuition. Without a comfortable connection to your sixth sense, the tarot readings lack finesse and becomes nothing more than cookie-cutter interpretations. When you’re fluent in your intuition, you can develop better readings and unique interpretations for each person. In this book, Reed teaches by example. She presents the basics of intuitive tarot reading—reading without any questions, any backstory, anything to go on. This book is filled with exercises to hone your intuition and sharpen your interpretation skills.

This is an essential guide for all Witches wanting to go beyond the basic understanding of Magickal tools. Starting out with fundamental information on Magickal paraphernalia, their use and care, this book also examines how to intricately weave the Magickal with the mundane so that you can breathe Magickal energies into every aspect of your home, inside and out. Many students of Magick, after learning of the basic tools and their uses, forget to take the extra step of integrating Magick into their everyday existence. Witchcraft is not something you do; it's a way of life. Magickal applications should not be confined to rituals or spell work. For the modern-day Witch, Magick does not just exist in the sanctuary or temple, but flows through the practitioner and into every space in and around the home. For both the beginning or practiced Witch.

The very idea that Buddhist teachings can be mastered will arouse controversy within Buddhist circles. Even so, Daniel Ingram insists that enlightenment is an attainable goal, once our fanciful notions of it are stripped away, and we have learned to use meditation as a method for examining reality rather than an opportunity to wallow in self-absorbed mind-noise. This book sets out concisely the difference between concentration-based (sometimes referred to as Zen) and insight (Vipassana) meditation. The author provides example practices and, most importantly, he presents detailed maps of the states of mind we are likely to encounter and the stages we must negotiate as we move through clearly defined cycles of insight.

Conversations with the Dream Mentor

We all face death, but how many of us are actually ready for it? Whether our own death or that of a loved one comes first, how prepared are we, spiritually or practically? In *Preparing to Die*, Andrew Holecek presents a wide array of resources to help the reader address this unfinished business. Part One shows how to prepare one's mind and how to help others, before, during, and after death. The author explains how spiritual preparation for death can completely transform our relationship to the end of life, dissolving our fear and helping us to feel open and receptive to letting go in the dying process. Daily meditation practices, the stages of dying and how to work with them, and after-death experiences are all detailed in ways that will be particularly helpful for those with an interest in Tibetan Buddhism and in Tibetan approaches to conscious dying. Part Two addresses the practical

issues that surround death. Experts in grief, hospice, the funeral business, and the medical and legal issues of death contribute chapters to prepare the reader for every practical concern, including advance directives, green funerals, the signs of death, warnings about the funeral industry, the stages of grief, and practical care for the dying. Part Three contains heart-advice from twenty of the best-known Tibetan Buddhist masters now teaching in the West. These brief interviews provide words of solace and wisdom to guide the dying and their caregivers during this challenging time. *Preparing to Die* is for anyone interested in learning how to prepare for death from a Buddhist perspective, both spiritually and practically. It is also for those who want to learn how to help someone else who is dying, both during the time of illness and death as well as after death.

The Esoteric Dream Book

Mercedes Lackey's magical Elemental Masters series recasts familiar fairy tales in a richly-imagined alternate Victorian world. For seventeen years, Marina Roeswood had lived in an old, rambling farmhouse in rural Cornwall in the care of close friends of her wealthy, aristocratic parents. As the ward of bohemian artists in Victorian England, she had grown to be a free thinker in an environment of fertile creativity and cultural sophistication. But the real core of her education was far outside societal norms. For she and her foster parents were Elemental Masters of magic, and learning to control her growing powers was Marina's primary focus. But

though Marina's life seemed idyllic, her existence was riddled with mysteries. Why, for example, had she never seen her parents, or been to Oakhurst, her family's ancestral manor? And why hadn't her real parents, also Elemental Masters, trained her themselves? That there was a secret about all this she had known from the time she had begun to question the world around her. Yet try as she might, she could get no clues out of her guardians. But Marina would have answers to her questions all too soon. For with the sudden death of her birth parents, Marina met her new guardian—her father's eldest sister Arachne. Aunt Arachne exuded a dark magical aura unlike anything Marina had encountered, a stifling evil that seemed to threaten Marina's very spirit. Slowly Marina realized that her aunt was the embodiment of the danger her parents had been hiding her from in the backwoods of Cornwall. But could Marina unravel the secrets of her life in time to save herself from the evil that had been seeking her for nearly eighteen years?

The "Master Key" is here given to the world as a means of tapping the great cosmic intelligence and attracting from it that which corresponds to the ambitions, and aspirations of each reader. Every thing and institution we see around us, created by human agency, had first to exist as a thought in some human mind. Thought therefore is constructive. Human thought is the spiritual power of the cosmos operating through its creature man. "The Master Key" instructs the reader how to use that power, and use it both constructively and creatively. The things
