NATIONAL BESTSELLER WINNER OF THE PULITZER PRIZE

The searing, post-apocalyptic novel about a father and son's fight to survive. A father and his son walk alone through burned America. Nothing moves in the ravaged landscape save the ash on the wind. It is cold enough to crack stones, and when the snow falls it is gray. The sky is dark. Their destination is the coast, although they don't know what, if anything, awaits them there. They have nothing; just a pistol to defend themselves against the lawless bands that stalk the road, the clothes they are wearing, a cart of scavenged food—and each other. *The Road* is the profoundly moving story of a journey. It boldly imagines a future in which no hope remains, but in which the father and his son, "each the other's world entire," are sustained by love. Awesome in the totality of its vision, it is an unflinching meditation on the worst and the best that we are capable of: ultimate destructiveness, desperate tenacity, and the tenderness that keeps two people alive in the face of total devastation. Following the events of *The Last Colony*, John Scalzi tells the story of the fight to maintain the unity of the human race. The people of Earth now know that the human Colonial Union has kept them ignorant of the dangerous universe around them. For generations the CU had defended humanity against hostile aliens, deliberately keeping Earth an ignorant backwater and a source of military recruits. Now the CU's secrets are known to all. Other alien races have come on the scene and formed a new alliance—an alliance against the Colonial Union. And

they've invited the people of Earth to join them. For a shaken and betrayed Earth, the choice isn't obvious or easy. Against such possibilities, managing the survival of the Colonial Union won't be easy, either. It will take diplomatic finesse, political cunning and a brilliant "B Team," centered on the resourceful Lieutenant Harry Wilson, that can be deployed to deal with the unpredictable and unexpected things the universe throws at you when you're struggling to preserve the unity of the human race. Being published online from January to April 2013 as a three-month digital serial, The Human Division will appear as a full-length novel of the Old Man's War universe, plus—for the first time in print—the first tale of Lieutenant Harry Wilson, and a coda that wasn't part of the digital serialization.

On her deathbed, Miss McThane entrusts Dower with a small, ticking clockwork box. The box is mysteriously linked to her. When she breathes her last, the box stops ticking and Dower is able to open it, to find hundreds of letters — written in an unknown hand, signed only with the initial S. They 're not love letters, but refer instead to the letter-writer 's ongoing search for some other person. The last is a simple note, reading “ Found him ” ... File Under: Fantasy

Grim Expectations

The revolutionary literary vision that sowed the seeds of Objectivism, Ayn Rand's groundbreaking philosophy, and brought her immediate worldwide acclaim. This modern classic is the story of intransigent young architect Howard Roark, whose integrity was as unyielding as granite of Dominique Francon, the exquisitely beautiful woman who loved Roark passionately, but married his worst enemy and of the fanatic denunciation unleashed by an enraged society against a great creator. As fresh today as it was then, Rand 's provocative novel presents one of the most challenging ideas in all of fiction—that man 's ego is the fountainhead of human progress “ A writer of great power. She has a subtle and ingenious mind and the capacity of writing brilliantly, beautifully, bitterly This is the only novel of ideas written by an American woman that I can recall. ” —The New York Times

contemporary life in a sustainable way. These changes have brought about the use of more and more innovative techniques, based on flexibility and reversibility, but the weight of materials, the time needed to implement these programmes, financial constraints and cultural compartmentalisation have deferred many of these projects and left us with a museum heritage frozen in time and quite unrelated to the original purpose of the buildings. The rise of a new national or international style or the creation of innovative techniques does not necessarily damage the integrity of a place. Modern techniques and materials, such as glass and steel, have a transparency, lightness, flexibility and reversibility that make them highly suitable for integrative undertakings. The examples presented in this book all demonstrate a desire to be considered as local projects and to take their place in an evolutionary interpretation of history. After more than a century of conflicting debate on the subject of rehabilitation, it seems that the aims expressed in the Charter of Venice have borne fruit by giving rise to quality and personalised buildings that themselves are a contribution to this debate.

The End of All Things #1: The Life of the Mind

"As much as Scalzi has the scientific creativity of a Michael Crichton, he also has the procedural chops of a Stephen J. Canell to craft a whodunit with buddy-cop charm and suspects aplenty—most of them in someone else's body." —USA Today John Scalzi returns with *Head On*, the standalone follow-up to the New York Times bestselling and critically acclaimed *Lock In*. Chilling near-future SF with the thrills of a gritty cop procedural, *Head On* brings Scalzi's trademark snappy dialogue and technological speculation to the future world of sports. *Hilketa* is a frenetic and violent pastime where players attack each other with swords and hammers. The main goal of the game: obtain your opponent's head and carry it through the goalposts. With flesh and bone bodies, a sport like this would be impossible. But all the players are "threeeps," robot-like bodies controlled by people with Haden's Syndrome, so anything goes. No one gets hurt, but the brutality is real and the crowds love it. Until a star athlete drops dead on the playing field. Is it an accident or murder? FBI Agents and Haden-related crime investigators, Chris Shane and Leslie Vann, are called in to uncover the truth—and in doing so travel to the darker side of the fast-growing sport of *Hilketa*, where fortunes are made or lost, and where players and owners do whatever it takes to win, on and off the field. "A sparkling debut. Landragin ' s seductive literary romp shines as a celebration of the act of storytelling." —Publishers Weekly "Romance, mystery, history, and magical invention dance across centuries in an impressive debut novel." —Kirkus Reviews (Starred Review) "Deft writing seduces the reader in a complex tale of pursuit, denial, and retribution moving from past to future. Highly recommended." —Library Journal (Starred Review) Alex Landragin's Crossings is an unforgettable and explosive genre-bending debut—a novel in three parts, designed to be read in two different directions, spanning a hundred and fifty years and seven lifetimes. On the brink of the Nazi occupation of Paris, a German-Jewish bookbinder stumbles across a manuscript called Crossings. It has three narratives, each as unlikely as the next. And the narratives can be read one of two ways: either straight through or according to an alternate chapter sequence. The first story in Crossings is a never-before-seen ghost story by the poet Charles Baudelaire, penned for an illiterate girl. Next is a noir romance about an exiled man, modeled on Walter Benjamin, whose recurring nightmares are cured when he falls in love with a storyteller who draws

Finally, there are the fantastical memoirs of a woman-turned-monarch whose singular life has spanned seven generations. Crossings is an unforgettable adventure full of love, longing and empathy.

Everyone on Earth knows the tale I am part of. But you don't know my tale: How I did what I did — how I did what I had to do — not just to stay alive but to keep you alive, too. All of you. I'm going to tell it to you now, the only way I know how: not straight but true, the whole thing, to try make you feel what I felt: the joy and terror and uncertainty, panic and wonder, despair and hope. Everything that happened, bringing us to Earth, and Earth out of its captivity. All through my eyes. It's a story you know. But you don't know it all. John Perry did two things on his 75th birthday. First he visited his wife's grave. Then he joined the army. The good news is that humanity finally made it into interstellar space. The bad news is that planets fit to live on are scarce-and aliens willing to fight for them are common. The universe, it turns out, is a hostile place. So: we fight. To defend Earth (a target for our new enemies, should we let them get close enough) and to stake our own claim to planetary real estate. Far from Earth, the war has gone on for decades: brutal, bloody, unyielding. Earth itself is a backwater. The bulk of humanity's resources are in the hands of the Colonial Defense Force, which shields the home planet from too much knowledge of the situation. What's known to everybody is that when you reach retirement age, you can join the CDF. They don't want young people; they want people who carry the knowledge and skills of decades of living. You'll be taken off Earth and never allowed to return. You'll serve your time at the front. And if you survive, you'll be given a generous homestead stake of your own, on one of our hard-won colony planets. John Perry is taking that deal. He has only the vaguest idea what to expect. Because the actual fight, light-years from home, is far, far harder than he can imagine-and what he will become is far stranger.
