“ Humorous and forthright[Gaby] Dunn makes facing money issues seem not only palatable but possibly even fun.Dunn ’ s book delivers. ” —Publishers Weekly The beloved writer-comedian expands on her popular podcast with an engaging and empowering financial literacy book for Millennials and Gen Z. In the first episode of her “ Bad With Money ” podcast, Gaby Dunn asked patrons at a coffee shop two questions: First, what ’ s your favorite sex position? Everyone was game to answer, even the barista. Then, she asked how much money was in their bank accounts. People were aghast. “ That ’ s a very personal question, ” they insisted. And therein lies the problem. Dunn argues that our inability to speak honestly about money is our #1 barrier to understanding it, leading us to feel alone, ashamed and anxious, which in turns makes us feel even more overwhelmed by it. In Bad With Money, she reveals the legitimate, systemic reasons behind our feeling of helplessness when it comes to personal finance, demystifying the many signposts on the road to getting our financial sh*t together, like how to choose an insurance plan or buy a car, sign up for a credit card or take out student loans. She speaks directly to her audience, offering advice on how to make that #freelancelife work for you, navigate money while you date, and budget without becoming a Nobel-winning economist overnight. Even a topic as notoriously dry as money becomes hilarious and engaging in the hands of Dunn, who weaves her own stories with the perspectives of various comedians, artists, students, and more, arguing that—even without selling our bodies to science or suffering the indignity of snobby thrift shop buyers—we can all start taking control of our financial futures.

experience: Disability Visibility brings together the voices of activists, authors, lawyers, politicians, artists, and everyday people whose daily lives are, in the words of playwright Neil Marcus, "an art . . . an ingenious way to live." According to the last census, one in five people in the United States lives with a disability. Some are visible, some are hidden--but all are underrepresented in media and popular culture. Now, just in time for the thirtieth anniversary of the Americans with Disabilities Act, activist Alice Wong brings together an urgent, galvanizing collection of personal essays by contemporary disabled writers. There is Harriet McBryde Johnson's "Unspeakable Conversations," which describes her famous debate with Princeton philosopher Peter Singer over her own personhood. There is columnist s. e. smith's celebratory review of a work of theater by disabled performers. There are original pieces by up-and-coming authors like Keah Brown and Haben Girma. There are blog posts, manifestos, eulogies, and testimonies to Congress. Taken together, this anthology gives a glimpse of the vast richness and complexity of the disabled experience, highlighting the passions, talents, and everyday lives of this community. It invites readers to question their own assumptions and understandings. It celebrates and documents disability culture in the now. It looks to the future and past with hope and love"--

The Allegory of the Cave, or Plato's Cave, was presented by the Greek philosopher Plato in his work Republic (514a – 520a) to compare "the effect of education () and the lack of it on our nature". It is written as a dialogue between Plato's brother Glaucon and his mentor Socrates, narrated by the latter. The allegory is presented after the analogy of the sun (508b – 509c) and the analogy of the divided line (509d – 511e). All three are characterized in relation to dialectic at the end of Books VII and VIII (531d – 534e). Plato has Socrates describe a group of people who have lived chained to the wall of a cave all of their lives, facing a blank wall. The people watch shadows projected on the wall from objects passing in front of a fire behind them, and give names to these shadows. The shadows are the prisoners' reality.
