West of Jesus

Rising from the depths of the Pacific lies a fabled island, now submerged just below the surface of the ocean. Rumors and warnings about Cortes Bank abound, but among big wave surfers, this legendary rock is famous for one simple (and massive) reason: this is the home of the biggest rideable wave on the face of the earth. In this dramatic work of narrative non-fiction, journalist Chris Dixon unlocks the secrets of Cortes Bank and pulls readers into the harrowing world of big wave

surfing and high seas adventure above the most enigmatic and dangerous rock in the sea. The true story of this Everest of the sea will thrill anyone with an abiding curiosity of—and respect for—mother ocean.

CORRECTION: Regarding the book, *The Battle for Paradise* by Jeremy Evans, the following correction has been made on page 163 in paragraph three (3) to wit: “Weston once worked in concert with government officials in a pre-planned sting operation, complete with marked bills: Weston, whose role in the operation involved paying a bribe to the Golfito mayor for a concession and then documenting the bribe as a way to expose the mayor as a corrupt government official, was a former cocaine dealer, according to Dan, and someone who illegally acquired possession of his sawmill property.” Pavones, a town located on the southern tip of Costa Rica, is a haven for surfers, expatriates, and fishermen seeking a place to start over. Located on the Golfo Dulce (Sweet Gulf), a marine sanctuary and one of the few tropical fjords in the world, Pavones is home to a legendary surf break and a cottage fishing industry. In 2004 a multinational company received approval to install the world’s first yellowfin tuna farm near the mouth of the Golfo Dulce. The tuna farm as planned would pollute the area, endanger sea turtles, affect the existing fish population, and threaten the world-class wave. A lawsuit was filed just in time, and the project was successfully

stalled. Thus began an unlikely alliance of local surfers, fishermen, and global environmental groups to save a wave and one of the most biodiverse places on the planet. In *The Battle for Paradise*, Jeremy Evans travels to Pavones to uncover the story of how this ragtag group stood up to a multinational company and how a shadowy figure from the town's violent past became an unlikely hero. In this harrowing but ultimately inspiring story, Evans focuses in turn on a colorful cast of characters with an unyielding love for the ocean and surfing, a company's unscrupulous efforts to expand profits, and a government that nearly sold out the perfect wave.

Gerry Lopez, one of the most revered surfers of all time brings readers into the intimately personal sport with *Surf Is Where You Find It*, a collection of stories that recount harrowing waves, epic wipeouts, and heroes encountered over a lifetime on the water. From growing up in Hawaii in the '50s and '60s, to finding the tube in the early days at Pipeline, to pioneering legendary spots like Uluwatu and G-Land in Indonesia, Lopez has traveled for surf the world over. The Encyclopedia of Surfing

"Although Makaha is a small, isolated town on the Western coast of O'ahu, it has produced some of the most intriguing Hawaiians of the twentieth century: world-class surfers Buffalo Keaulana and his sons Rusty and Brian; beautiful skin diver and surfing pro Rell Sunn; and larger-than-life singer and songwriter Israel Kamakawiwo'ole. What connects them is a love for their culture, their people, and water sports. Fierce Heart combines stories of exciting surfing competitions, dramatic water rescues, and deep friendships with a look at the history and origins of one of the world's most thrilling extreme sports." --

Surfing with Sartre

Surfing only looks like a sport. To initiates, it is something else entirely: a beautiful

addiction, a demanding course of study, a morally dangerous pastime, a way of life. Raised in California and Hawaii, Finnegan started surfing as a child. He has chased waves all over the world, wandering for years through the South Pacific, Australia, Asia, Africa. A bookish boy, and then an excessively adventurous young man, he went on to become a writer and war reporter. *Barbarian Days* takes us deep into unfamiliar worlds, some of them right under our noses -- off the coasts of New York and San Francisco. It immerses the reader in the edgy camaraderie of close male friendships annealed in challenging waves.

For world-class surfer Bear Woznick, the ocean has always been the center of his universe. He's spent his entire life with it; riding its waves, learning from it, loving it. The ocean also nourishes the soul as Bear shows us on his surfboard. In *DEEP IN THE WAVE*, readers ride along with Woznick through the calmest of tides and most turbulent waves. Woznick's portrayal of the beauty and power of the ocean is truly inspiring and showcases the profound meaning surfing has had on his life. From the way a surfboard is painstakingly crafted, to the faith and patience that is required to ride a monster wave, Woznick weaves his relationship to surfing with his relationship to God, relating how the two are often one in the same. Instead of standing on the shore with our toes in the surf, Woznick takes us on the board--to the deep water--to watch and wait--and, if need be, to paddle hard to survive.

Surfing Photographs from the Seventies

As a teenager taking pictures of fellow surfers in 1960s La Jolla, Jeff Divine got to know the original alternative sport before the X-Games were even a gleam in a producer's eye. Through this rare collection of photographs from the momentous decade that followed, he conveys the feeling of being on the beach in its most creative era, being present at the inception of a subculture too large and photogenic to stay down long. The style, the athleticism and the escapism in these images will be familiar to those with even a lazy eye on pop culture; surfing is on the rise again.

"Heart warming read that discusses depression, radical life change, and muses on the plight of the lifelong intermediate grab a copy on Amazon" - David Lee Scales, Surf Splendor Podcast "I can recommend this book for non-surfers as much as surfers. It goes a long way towards explaining the hook that keeps people addicted to surfing and provides some personal lessons that can be applied to all walks of life" - Charlie Spurr - The Museum of British Surfing "Once I started reading, I

couldn't put it down. The writing is wonderful and Simon really nails it when he defines what an average surfer is and how surfing affects us all" - Imi Barneaud, The Ocean Riders Podcast "Short uses the term "average" not as in mediocre, but to make it relatable to the masses of surfers who are not professionals, and not beginners, but the wave-riders in between. He teaches life lessons with every chapter. You can be scared, intimidated, proud and brave, all in one session" - The Orange County Register From the author of "A Story about Surfing, Identity and Depression" comes the #1 New Release 'The Average Surfer's Guide' The Average Surfer's Guide to Travel, Waves and Progression is a book about surfing as much as it is about mental health, life balance and prioritizing one's passions. The author explores the metaphysical effects of surfing, the biological effects of surfing and how the sport, percolated into a lifestyle opens us up to travel, adventure, community and a true belonging and identity. The book takes us into situations that many are familiar with, but few of us speak of. Short bravely shares details from his darker days fighting a severe depression before learning some valuable life lessons. "Simon Short sat at the end of a Newport Beach rock jetty in the darkness, clutching a gun and ready to end his life as his depression hit an all-time low. For years, Short thought he was on the right track. The surfer from England moved to California after visiting for a surf trip in his early 20s, met a girl who became his wife and had a career as a police officer near Palm Springs. This was what he was supposed to do, right? When it all came crashing down a few years later, he found himself staring out into the ocean, the place that had been his one

constant source of solace since he was a teen." Feb 2019 - The OC Register The Average Surfer's Guide takes a unique approach by forgetting the glamour of professional surfing and telling honest, humorous and engaging stories from a true, every-day, average surfer. The book teaches us how to progress away from complacency, both in our surfing and our everyday lives. In the end, this book will make you a better surfer. Not through technique but through teaching a new mindset and outlook towards life and surfing. The Average Surfer's Guide takes us on a journey from dark to light and teaches us how to live a true, balanced life that is authentic to who we are and what makes us happy. In this case, surfing.

Time Surfing

They say Bethany Hamilton has saltwater in her veins. How else could one explain the tremendous passion that drives her to surf? How else could one explain that nothing - not even the loss of her arm in a horrific shark attack - could come between her and the waves? That Halloween morning in Kauai, Hawaii Bethany responded to the shark's stealth with a calmness beyond belief. Pushing pain and panic aside, she immediately thought: 'Get to the beach' Rushed to the hospital, where her father, Ted Hamilton, was about to undergo knee surgery, Bethany found herself taking his spot in the operating theatre. When the first thing Bethany wanted to know after surgery was 'When can I surf again?' it became clear that her unflinching spirit and determination were part of a greater story - a tale of courage

and faith that this modest and soft-spoken girl would come to share with the world.

The Gentlemen's Hour

Welcome to Paradise, Now Go to Hell

What makes for a surfing life? With a blaze of groundbreaking performances and a swag of titles claimed from all over the world to his name, Australian world champion surfer Nat Young might know. His seventieth birthday inspired some reflection on exactly that, and on the waves and characters that have marked his remarkable life – Miki Dora and Midget Farrelly to name a few. But surfing for Nat Young – and so many like-minded surfers – has never been about winning, never been about the sport. It's a calling, an endless quest, a philosophy, a religion. Most of all, surfing is a way of life that has underpinned his other identities as board shaper, film producer, writer, raconteur, conservationist, activist, pilot, husband, father. Candid and wryly observed, Church of the Open Sky explores what it means

to be a surfer, with a collection of true stories of Nat's surfing life – and the friends, foes and heroes he's met along the way.

Switch-foot

From Susan Casey, bestselling author of *The Devil's Teeth*, an astonishing book about colossal, ship-swallowing rogue waves and the surfers who seek them out. For centuries, mariners have spun tales of gargantuan waves, 100-foot high or taller. Until recently scientists dismissed these stories—waves that high would seem to violate the laws of physics. But in the past few decades, as a startling number of ships vanished and new evidence has emerged, oceanographers realized something scary was brewing in the planet's waters. They found their

proof in February 2000, when a British research vessel was trapped in a vortex of impossibly mammoth waves in the North Sea—including several that approached 100 feet. As scientists scramble to understand this phenomenon, others view the giant waves as the ultimate challenge. These are extreme surfers who fly around the world trying to ride the ocean's most destructive monsters. The pioneer of extreme surfing is the legendary Laird Hamilton, who, with a group of friends in Hawaii, figured out how to board suicidally large waves of 70 and 80 feet. Casey follows this unique tribe of people as they seek to conquer the holy grail of their sport, a 100-foot wave. In this mesmerizing account, the exploits of Hamilton and his fellow surfers are juxtaposed against scientists' urgent efforts to understand the destructive powers of waves—from the tsunami that wiped out 250,000 people in the Pacific in 2004 to the 1,740-foot-wave that recently leveled part of the Alaskan coast. Like Jon Krakauer's *Into Thin Air*, *The Wave* brilliantly portrays human beings confronting nature at its most ferocious.

Chasing Dean

A finalist for the PEN Center USA Award for Nonfiction *Welcome to Paradise, Now Go to Hell*, is surfer and former war reporter Chas Smith's wild and unflinching look at the high-stakes world of surfing on Oahu's North Shore—a riveting, often humorous, account of beauty, greed, danger, and crime. For two months every winter, when Pacific storms make landfall, swarms of mainlanders, Brazilians,

Australians, and Europeans flock to Oahu's paradisiacal North Shore in pursuit of some of the greatest waves on earth for surfing's Triple Crown competition. Chas Smith reveals how this influx transforms a sleepy, laid-back strip of coast into a lawless, violent, drug-addled, and adrenaline-soaked mecca. Smith captures this exciting and dangerous place where locals, outsiders, the surf industry, and criminal elements clash in a fascinating look at class, race, power, money, and crime, set within one of the most beautiful places on earth. The result is a breathtaking blend of crime and adventure that captures the allure and wickedness of this idyllic golden world.

Empire in Waves

After arriving in Sun Haven, fifteen-year-old Kai can't wait to get on a board and surf again, but the locals patrolling the best spot on the beach will only let him into the lineup if he consents to compete against one of them.

Caught Inside

Zen monk and coach Paul Loomans is the creator of Time Surfing, a 7-step approach to help anyone create more time in their life. "This book is for anyone who feels trapped by over-full, over-scheduled days. It explains how to escape the

raging storms of busyness and find your way back to a more enjoyable and natural relationship with the clock. Time Surfing is a beautiful idea, expressed brilliantly in this beautiful book.” Tony Crabbe, author of international bestseller *Busy: How to Thrive in a World of Too Much* Who has time these days? Any moments that haven't already been accounted for are swallowed up by smartphones, social media and working into the evening hours. Stress can often seem to be caused solely by the outside world, but in fact it also comes from within. This book will inspire and guide you to choose peace as a basis for carrying out all your daily activities, whether at work or in the home. The approach is based on a step-by-step method called Time Surfing, which consists of seven simple and easy-to-learn instructions backed with targeted tips and techniques. Rooted in Zen Buddhism, the emphasis is very much on making the most of the time you have rather than trying to control time itself. The instructions – which include making time for “breathers” throughout the day and finishing a task before starting another – will feel instinctive, and will make it possible for you to surf over the waves of time. You will learn that you can trust your intuition when it comes to choosing what to do, and, as a result, your actions will be not only inspired but also very effective. The focus you experience will be relaxed and unforced. But, more than anything else, an inner sense of calm will arise.

Force of Nature

From the bestselling author of *Assholes: A Theory*, a book that—in the tradition of *Shopclass as Soulcraft*, *Barbarian Days* and *Zen and the Art of Motorcycle Maintenance*—uses the experience and the ethos of surfing to explore key concepts in philosophy. The existentialist philosopher Jean-Paul Sartre once declared "the ideal limit of aquatic sports . . . is waterskiing." The avid surfer and lavishly credentialed academic philosopher Aaron James vigorously disagrees, and in *Surfing with Sartre* he intends to expound the thinking surfer's view of the matter, in the process elucidating such philosophical categories as freedom, being, phenomenology, morality, epistemology, and even the emerging values of what he terms "leisure capitalism." In developing his unique surfer-philosophical worldview, he draws from his own experience of surfing and from surf culture and lingo, and includes many relevant details from the lives of the philosophers, from Aristotle to Wittgenstein, with whose thought he engages. In the process, he'll speak to readers in search of personal and social meaning in our current anxious moment, by way of doing real, authentic philosophy.

Barbarian Days

Surfing today evokes many things: thundering waves, warm beaches, bikinis and lifeguards, and carefree pleasure. But is the story of surfing really as simple as popular culture suggests? In this first international political history of the sport, Scott Laderman shows that while wave riding is indeed capable of stimulating tremendous pleasure, its globalization went hand in hand with the blood and repression of the long twentieth century. Emerging as an imperial instrument in post-annexation Hawaii, spawning a form of tourism that conquered the littoral Third World, tracing the struggle against South African apartheid, and employed as a diplomatic weapon in America's Cold War arsenal, the saga of modern surfing is only partially captured by Gidget, the Beach Boys, and the film *Blue Crush*. From nineteenth-century American empire-building in the Pacific to the low-wage labor of the surf industry today, Laderman argues that surfing in fact closely mirrored American foreign relations. Yet despite its less-than-golden past, the sport continues to captivate people worldwide. Whether in El Salvador or Indonesia or points between, the modern history of this cherished pastime is hardly an uncomplicated story of beachside bliss. Sometimes messy, occasionally contentious, but never dull, surfing offers us a whole new way of viewing our globalized world.

Rockaway

The inspirational story of one woman learning to surf and creating a new life in gritty, eccentric Rockaway Beach Unmoored by a failed marriage and disconnected from her high-octane life in the city, Diane Cardwell finds herself staring at a small group of surfers coasting through mellow waves toward shore—and senses

something shift. Rockaway is the riveting, joyful story of one woman's reinvention—beginning with Cardwell taking the A Train to Rockaway, a neglected spit of land dangling off New York City into the Atlantic Ocean. She finds a teacher, buys a tiny bungalow, and throws her not-overly-athletic self headlong into learning the inner workings and rhythms of waves and the muscle development and coordination needed to ride them. As Cardwell begins to find her balance in the water and out, superstorm Sandy hits, sending her into the maelstrom in search of safer ground. In the aftermath, the community comes together and rebuilds, rekindling its bacchanalian spirit as a historic surfing community, one with its own quirky codes and surf culture. And Cardwell's surfing takes off as she finds a true home among her fellow passionate longboarders at the Rockaway Beach Surf Club, living out "the most joyful path through life." Rockaway is a stirring story of inner salvation sought through a challenging physical pursuit—and of learning to accept the idea of a complete reset, no matter when in life it comes.

The Average Surfer's Guide

Author of the New York Times bestselling novel *The Dog Stars* With grit, poetry, and humor, Peter Heller, acclaimed author of *The Whale Warriors* recounts his

remarkable journey of discovery—of surfing, an entirely new challenge; of the ocean’s beauty and power; of the strange surf subculture; of love; and, most of all, of how to seek adventure while crafting a meaningful life. Having resolved to master a big-hollow wave— that is, to go from kook (surfese for beginner) to shredder—in a single year, Heller travels from Southern California down the coast of Mexico in the company of his girlfriend and the eccentric surfers they meet. Exuberant and fearless, Heller explores the technique and science of surfing the secrets of its culture, and the environmental ravages to the stunning coastline he visits. As Heller plumbs the working of his own heart and finds joy in both love and surfing, he affords readers vivid insight into this fascinating world, with all of its perils and pleasures, its absurdity and wonder. Exhilarating, entertaining, and moving, *Kook* is a love story between a man and his surfboard, a man and his girlfriend, a not-so-old man and the sea.

Let My People Go Surfing

“Meldahl takes the reader on a tour of coastal Southern California, deftly explaining its complex geologic history, coastal geology, surfing spots, and the processes that shape them. Richly illustrated and told with great humor and enlightening analogies, *Surf, Sand, and Stone* is easily accessible yet contains valuable resources for those who want to delve deeper.”—Mark Johnsson, staff geologist, California Coastal Commission "*Surf, Sand, and Stone* is an entertaining

and very readable explanation of the complex geology and oceanography of the Southern California coast. Meldahl must be an excellent teacher as he has a real gift for writing about complex topics in a comfortable, engaging, and fascinating manner." —Gary Griggs, Director, Institute of Marine Sciences, UC Santa Cruz

Southern California is sandwiched between two tectonic plates with an ever-shifting boundary. Over the last several million years, movements of these plates have dramatically reshuffled the Earth's crust to create rugged landscapes and seascapes riven with active faults. Movement along these faults triggers earthquakes and tsunamis, pushes up mountains, and lifts sections of coastline. Over geologic time, beaches come and go, coastal bluffs retreat, and the sea rises and falls. Nothing about Southern California's coast is stable. Surf, Sand, and Stone tells the scientific story of the Southern California coast: its mountains, islands, beaches, bluffs, surfing waves, earthquakes, and related phenomena. It takes readers from San Diego to Santa Barbara, revealing the evidence for how the coast's features came to be and how they are continually changing. With a compelling narrative and clear illustrations, Surf, Sand, and Stone outlines how the coast will be altered in the future and how we can best prepare for it.

Deep in the Wave

After spending two years in bed with Lyme disease, Steven Kotler had lost everything: his health, his job, his girl, and, he was beginning to suspect, his mind.

Kotler, not a religious man, suddenly found himself drawn to the sport of surfing as if it were the cornerstone of a new faith. Why, he wondered, when there was nothing left to believe in, could he begin to believe in something as unlikely as surfing? What was belief anyway? How did it work in the body, the brain, our culture, and human history? With the help of everyone from rebel surfers to rocket scientists, Kotler undertakes a three-year globetrotting quest. The results are a startling mix of big waves and bigger ideas: a surfer's journey into the biological underpinnings of belief itself.

Rising from the depths of the North Pacific lies a fabled island, now submerged just 15 feet below the surface of the ocean. Rumors and warnings about Cortes Bank abound, but among big wave surfers, this legendary rock is famous for one simple (and massive) reason: this is the home of the biggest rideable wave on the face of the earth. In this dramatic work of narrative non-fiction, journalist Chris Dixon unlocks the secrets of Cortes Bank and pulls readers into the harrowing world of big wave surfing and high seas adventure above the most enigmatic and dangerous rock in the sea. The true story of this Everest of the sea will thrill anyone with an abiding curiosity of and respect for mother ocean.
