### The Stormrider Surf Guide

Australian surfing's cult hero lived two lives. In the 1970s 'MP' became the best surfer in the world, an electric lash of rockstar looks and rockstar habits, but with a pathological aversion to rockstar fame. But MP died on the night of 10 August 1983, when his schizophrenia caught up with him and his years of institutionalisation began. Emerging from the other side was Michael Peterson, a quiet, complex soul who lived with his mother and sat under a mango tree every morning, communing with the voices in his head. In 2004 Sean Doherty wrote a bestselling biography of Michael Peterson that laid his incredible story bare. Over the years that followed, and especially after Michael's death in 2012, hundreds of people - family, friends, surf stars and complete strangers - contacted Doherty with stories never before shared. Stories that spoke of the man, not the legend. Stories of Michael, not MP. Now Doherty has compiled these stories, anecdotes and tributes, completing the picture of one of surfing's most talented but tragic figures. Also featuring classic and unseen images of Peterson, along with photographs and

The world of skateboarding meets architectural beauty Fred Mortagne is a self-taught French director and photographer who is internationally acclaimed for his images of skateboarding and street photography. *Attraper au vol* (Catch in the Air) is the culmination of Mortagne's photographic career, from 2000 to 2015. A feast of lines and angles, his black-and-white compositions blend his subjects into their environments, offering an abstract perspective on architecture, geometry and the human figure. His work intrigues both skaters and nonskaters alike, as it emphasizes the esthetic beauty of skate and urban culture rather than pure performance (although the raw talent of his subjects is readily apparent). "As a young skate rat in the early nineties, I was super into watching skate videos, and very early I was sensitive to how the videos were made," he told an interviewer. "When the filming was good, I was super thrilled. This pushed me to begin filming my own clips with my friends, for fun for over 30 years, it has been the love of my life. Skateboarding has taken me to so many places--not just physically, but culturally and artistically." This book includes a foreword by the world-renowned photographer Anton Corbijn and an essay by legendary skateboarder Geoff Rowley, with whom Mortagne has worked extensively. Fred Mortagne, also known as French Fred, is a skateboarder, photographer and filmmaker living in France.

It is hard to imagine tourism without the creative use of seductive, as well as restrictive, imaginaries about peoples and places. These socially shared assemblages are collaboratively produced and consumed by a diverse range of actors around the globe. As a nexus of social practices through which individuals and groups establish places and peoples as credible objects of tourism, “ tourism imaginaries ” have yet to be fully explored. Presenting innovative conceptual approaches, this volume advances ethnographic research methods and critical scholarship regarding tourism and the imaginaries that drive it. The various authors contribute methodologically as well as conceptually to anthropology ’ s grasp of the images, forces, and encounters of the contemporary world.

Spellbinding action and breathless adventure – these are the realms of David Gemmell. His mythic characters represent the ultimates in good and evil, and everything in between. Brilliant warriors, they are heartbreakingly human in their ability to love, sacrifice, and summon extraordinary courage when all seems lost. With Stormrider, Gemmell continues his spectacular Rigante saga as the imperiled highland clan faces its deadliest threat . . . and calls for it's greatest hero. STORMRIDER A Novel of the Rigante Centuries ago, Connavar ’ s triumphant battles against the invading army of Stone gained the Rigante their freedom, yet magic that once flourished has been all but snuffed out. The Varlish king and his barons have stolen Rigante lands and robbed the people of their culture and liberty. From the Rigante's former seat of power the black-hearted Moidart rules; only in the north are the clansmen free. There, in the Druagh mountains, the magic still reigns, strengthened by bold, brilliant victories of the outlaw leader known as Ravenheart. One glorious spark, one moment of Rigante rebellion, has ignited a

revolution and forged a legend. The conquered clans set about to rediscover their greatness – yet theirs is not the only call to arms. In the south, civil war has drenched the land in blood, and the armies of destruction have begun creeping north. There the brooding Ravenheart waits, knowing the forces of the hated Moidart will come, led by the brutal ruler 's only son, Stormrider. Ravenheart and Stormrider: enemies of uncommon courage, are unaware that the fate of the world lies in their hands. Faced with this inexorable advance, deadly foes will be forced to unite, and a secret lost in the uncharted past will return to haunt these two warriors as they face the vengeance of an ancient evil. Immense armies of darkness advance on the highlanders, and it seems as if nothing will stop them. They crush their enemies with ease, until only a few thousand men stand before them, with no help in sight. But these are not ordinary men they face. They are clansmen, and more than that, they are Rigante.

Jeff Anderson and literacy coach Whitney La Rocca take you into primary and intermediate classrooms where students are curious about language, engage with the world around them, and notice and experiment with the conventions all writers use. Instead of chanting grammar rules or completing countless convention worksheets, we invite young writers to explore conventions as special effects devices that activate meaning. Our students study authentic texts and come to recognize these "patterns of power"--the essential grammar conventions that readers and writers require to make meaning. The first part of the book introduces a vibrant approach to grammar instruction and sets up what you need to immerse yourself in the Patterns of Power process, inviting students to experiment and play with language. The second part of the book offers over seventy practical, ready-to-use lessons, including: Extensive support materials Over 100 mentor sentences, curated for grades 1-5 Student work samples Tips and power notes to facilitate your own knowledge and learning Examples for application In Patterns of Power Jeff and Whitney suggest that taking just five minutes from your reading workshop and five minutes from your writing workshop to focus on how the conventions connect reading and writing will miraculously affect your students' understanding of how language works for readers and writers.

## Dare, Dream, Do

Over 400 dynamic color photos and a concise text rich in facts show important developments in surfing over the last century. The ancient Polynesian heritage of surfing is presented through its introduction to the modern world by Hawaiians such as Duke Kahanamoku in the early 1900s. Emphasis is given to a later period when surfing's popularity grew steadily in southern California during the 1950s and 1960s and surf culture was assimilated into a west-coast lifestyle. The music, filmmaking, photography, design, and literature of surfing all have influenced popular culture internationally. Surfboards are shown here to have evolved from 150-pound solid redwood boards to "hollow" boards of the 1930s and lightweight foam and fiberglass boards of the 1970s. Northern Californians contributed the development of the wetsuit as an adaptation to cold water conditions. As a result, the endless summer now can be found on any beach in the world. This book is based on the exhibition "He'e Nalu: Wave Riding" presented at the San Francisco Airport Museums from October, 1997 to February, 1998.
