¶I have come at this time, in this place, and through this being to speak my truth, to speak the story of my life ¶ the true story of my life.¶ The purpose of this book is to clarify, to tell the truth, and to share my energies with you so that you can begin the transformation of your mind and, therefore, the transformation of your heart and your world. It is in the misteachings that have been associated with my name that much death and pain has been caused and that much guilt and self-recrimination has been expressed. That was not my purpose; that was not my lesson. This story will begin the change. It will not make the change. It will facilitate turning the key in the lock, but you must open the door and walk through it into a new realm that is opened by this information. That is your responsibility. We can only bring you the message, this channel and I. We can only work together to transmit the information, but it is through your actions and your transformation that you will see a change in your world, a change in the subjective world

that is manufactured from your beliefs, your thoughts, and your feelings. I talk about the truth of my birth and the truth of my life. I cover some stories that are recounted in the Bible and tell you the true story of those events. I describe some of my personal traits, my human traits, and I define what I am, who I am, and why these things happened. You will be able to understand the truth, and you will begin this reconditioning, this retooling of your mind — of your thoughts and beliefs — on this subject of my life, my meaning, and my purpose, for it is a long process. The time is ripe. The need for a spiritual revolution is here. — Jesus

## Jung's Map of the Soul

### Summary: The Untethered Soul: The Journey Beyond Yourself

The greatest battles we face are with ourselves In *You vs You*, author Todd Cahill starts with a simple premise: As people strive for any improvement in their lives—whether it's more income, a better relationship, a promotion, a bigger business, or a better body—the most important battles they will face are against themselves. People invite problems into their lives through poor choices, apathy, indecision, arrogance, anxiety, selfishness, and other traits they would rather not discuss but must be addressed. In this valuable book, Cahill shares what he has learned about these battles that either keep people from success and significance or usher them to victory. As a life coach and leadership trainer, he has taught thousands of people these lessons, and many of them are now experiencing a level of personal achievement, relational abundance, and financial freedom they never thought possible. People often self-sabotage if they're not mindful, wise, and willing. Cahill reinforces the idea that readers can choose today to fight against who they once were (or are) and become who they are made to be. *You vs You* is about that choice and the challenging, rewarding quest that ensues.

## Rebel Ideas

Girl gangs reigning terror at Facebook, narcissistic overlords at Google . . . this is the backdrop of *Lean Out*, which takes readers on the journey of Marissa Orr, a single mom of three trying to find success in her fifteen-year career at the world's top tech giants. Orr delivers an ambitious attempt to answer the critical question: What have we gotten wrong about women at work?

“This book is a must-read for insights on the impact that reversing systemic gender biases can have on creating more diverse, healthier workplaces for both women and men.” --Joanne Harrell, Senior Director, USA Citizenship, Microsoft

“This book will make you think differently about what it will take for women to succeed at the highest levels in American business.”

--Rishad Tobaccowala, Chief Growth Officer, Publicis Groupe

*Lean Out* offers a new and refreshingly candid perspective on what it's really like for today's corporate underdogs. Based on both in-depth research and personal experiences, Orr punctures a gaping hole in today's feminist rhetoric and sews it back up with compelling new arguments for the reasons more women don't make it to the top and how companies can better incentivize women by actually listening to what they have to say and by rewarding the traits that make them successful. In *Lean Out*, Orr uncovers: Why our pursuit to close the gender gap has come at the expense of female well-being. The need to redefine success and change the way corporations choose their leaders. The way most career advice books targeting professional women seek to change their behavior rather than the system. Why modern feminism has failed to make any progress on its goals for equality. More than fifty years since the passage of the Equal Pay Act, the wage gap still hovers at 80 percent, and only 5 percent of CEOs in the Fortune 500 are

women. Today, rising up the ranks in many companies still often means cutthroat, win-at-all-costs tactics, where being the loudest voice in the room is more important than being the person with the best ideas for moving the company forward. Not surprisingly, most women don't want to play this game. An everyday working woman with a sardonic sense of humor, Orr is an endearing antihero who captures the voice for a new generation of women at work. Lean Out presents a revolutionary path forward, to change the life trajectories of women in the corporate world and beyond.

It's Not Just About the Money True wealth is not about buckets of cash. True wealth is not about designer clothes. It is not about a new Mercedes. It is not about living in a palatial estate. True wealth, asserts David Gikandi, is about discovering value within yourself and value within other people. It is about a kind of conscious living that incorporates gratitude, a belief in abundance, and the experience of joy. Based on the recent discoveries of theoretical physics and a close reading of inspirational classics of the last century, Gikandi creates a new model for the creation of personal wealth; a new model that shows readers how to create abundance by saving, giving, offering charity, and building happy relationships. Learn to use an internal mantra to build wealth consciousness. Practice conscious and deliberate thoughts and intentions. Decide, define, and set goals you can believe in. explore this question, you find out how elusive it really is. Are you a physical body? A collection of experiences and memories? A partner to relationships? Each time you consider these aspects of yourself, you realize that there is much more to you than any of these can define. The Untethered Soul, spiritual teacher Michael Singer explores the question of who we are and arrives at the conclusion that our identity is to be found in our consciousness, the fact of our ability to observe ourselves, and the world around us. By tapping into traditions of meditation and mindfulness, Singer shows how the development of consciousness can enable us all to dwell in the present moment and let go of painful thoughts and memories that keep us from achieving happiness and self-realization. This book, copublished with the Institute of Noetic Sciences (IONS), offers a frank and friendly discussion of consciousness and how we can develop it. In part one, he examines the notion of self and the inner dialogue we all live with. Part two examines the experience of energy as it flows through us and works to show readers how to open their hearts to the energy of experience that permeates their lives. Ways to overcome tendencies to close down to the rest of the world are the subject of part three. Enlightenment, the embrace of universal consciousness, is the subject of part four. And finally, in part five, Singer returns to daily life and the pursuit of unconditional happiness. Throughout, the book maintains a light and engaging tone, free from heavy dogma and prescriptive religious references. The easy exercises that figure in each chapter help readers experience the ideas that Singer presents.

he decided to embark on mission to get to the bottom of his fears. Through a series of events that included a vision quest in a secluded cabin and studying with Sufi masters, Buddhist teachers and Native-American shamans, Reb Zalman found a way to turn aging into the most meaningful and joyous time in his life. In this inspiring and informative guide, Reb Zalman shares his wisdom and experience with readers. He shows readers how to create an aging process for themselves that is full of adventure, passion, mystery, and fulfillment, rather than anxiety. Using scientific research--both neurological and psychological-- Reb Zalman offers techniques that will expand horizons beyond the narrow view of "the present" into a grand and enduring eternity. By harnessing the power of the spirit, as well as explaining exactly how to become a sage in their own community, he gives readers a helpful and moving way to use their own experiences to nurture, heal, and perhaps even save a younger generation from the prison of how we typically regard aging. In this updated version of his popular book, Reb Zalman has added a brand new introductory chapter that provides insight into the shifts that have taken place in our culture since the first edition of this book came out in the 1990s. He speaks about the role the 78 million (now aging) Baby Boomers are currently playing in how we think about aging. Additionally he provides new inspiring ideas about the importance of an elder's role in shaping society, and explains how elders can embrace the power they have to provide value and wisdom to those around them.

meditation, providing a nuts-and-bolts stage-based system that helps all levels of meditators establish and deepen their practice. Providing step-by-step guidance for every stage of the meditation path, this uniquely comprehensive guide for a Western audience combines the wisdom from the teachings of the Buddha with the latest research in cognitive psychology and neuroscience. Clear and friendly, this in-depth practice manual builds on the nine-stage model of meditation originally articulated by the ancient Indian sage Asanga, crystallizing the entire meditative journey into 10 clearly-defined stages. The book also introduces a new and fascinating model of how the mind works, and uses illustrations and charts to help the reader work through each stage. This manual is an essential read for the beginner to the seasoned veteran of meditation.

The book begins with the premature ageing disorder Hutchinson-Gilford Progeria syndrome and spins a web of interconnected biological domains involving lamins, telomeres, alternative splicing, genetics, epigenetics, and molecular clocks. The profound influence of culture is explored since cultural inheritance and genetic inheritance are the two intertwined processes driving human evolution. An empirical framework is developed to describe human ageing at the individual level and the implications of this framework on the whole concept of diseases are discussed.
