### 'All the World's a Stage'

Few are aware that the actual identity of William Shakespeare, a pen name, represents our greatest cultural mystery. Even fewer realize that Will Shakspeare of Stratford-on-Avon was an uneducated businessman who never owned a book, knew no foreign languages, never traveled and never wrote a word of poetry or prose. Shakspeare was a front for a complete fraud perpetrated by England's leading politician, Robert Cecil, for reasons of power and greed. The astonishing strength of Conventional Wisdom has kept the ruse going for 400 years, perpetrated by professors of English who, blinded by traditional dogma, refuse to accept the remarkable and growing body of evidence in favor of Edward de Vere. Volume 8 of the Anthology Series, Building the Case for Edward de Vere As Shakespeare, documents the quickening pace of Oxfordian discoveries in the late 1990s and early 2000s. These present massive problems for professors of English to combat in a convincing manner. Supreme Court Justice John Paul Stevens, 1991: For present purposes, I shall confine my analysis to the Sherlock Holmes principle that sometimes the fact that a watchdog did not bark may provide a significant clue about the identity of a murderous intruder. This concern directs our attention to three items of [the Shakespeare authorship controversy]. First, it is of interest that there is no mention of any library, or of any books at all, in his will, and no evidence that his house in Stratford ever contained a library. Second,

his son-in-law s detailed medical journals . . . contain no mention of the doctor s illustrious father-in-law. Finally is the fact that is most puzzling to me the seven-year period of silence that followed Shakespeare s [Shakspere s] death in 1616. Until the First Folio was published in 1623, there seems to have been no public comment in any part of England on the passing of the greatest literary genius in the country s history. It does seem odd that not even a cocker spaniel or a dachshund made any noise at all when he passed from the scene. "

This first of its kind collection of stories documents the power of music within the global Body of Christ. Agencies and churches around the world show how music has made as much impact in reaching the unreached as other methods of evangelism. Many of the stories come from far-off, exotic places where missionaries and musicians quietly fulfill their calling to encourage people groups to offer their indigenous songs to the Lord. These worship stories remind us that day by day, year by year, melody by melody, rhythm by rhythm, the great rehearsal is underway, awaiting the time when we join our voices with people from every tribal group and language in a continuous praise gathering proclaiming endless worship to God. A CD of indigenous worship music is included.

All the Worlds Reward presents ninety-eight tales from Norway, Denmark, Sweden, Swedish-speaking Finland, and Iceland. Each area is represented by the complete recorded repertoire of a single storyteller. Such a focus helps place the stories in the context of the communities in which they were performed and also reveals how individual folk artists used the medium of oral literature to make statements about their lives and their world. Some preferred jocular stories and others wonder tales; some performed mostly for adults, others for children; some used storytelling to criticize society, and others spun wish fulfillment tales to find relief from a harsh

reality. For the most part collected a century ago, the stories were gleaned from archives and printed sources; the Icelandic repertoire was collected on audiotape in the 1960s. Each repertoire was selected by a noted folklorist. Introductions to the storytellers and collectors and commentaries and references for the tales are provided. A general introduction, a comprehensive bibliography, and an index of the tales according to Aarne-Thompsons typology are also included. Period illustrations add charm to the stories.

William Shakespeare had it exactly right when he wrote, "All the World's a Stage". Whether we know it or not all of us are on stage and we are all living in our own stories. Some of them are sad; some of them are funny and some of them make us think about why we are here. Some of them linger with us long after they are read. We go back to them time and again trying to figure out why they've lingered so. Those are the very best ones.

Poems tall or short or wide— All are infinite inside. In Gilles Tibo's wonder-filled tribute to poetry, poems bloom in fields, fly on the wings of birds, and float on the foam of the sea. They are written in the dark of night, in the light of happiness, and in the warmth of the writer's heart. Each poem is illustrated with Manon Gauthier's whimsical paper collage art, which is both child-like and sophisticated. Rhymed or unrhymed, regular or irregular, the verses bring not just poems but the very concept of poetry to the level of a child, making them accessible to all. If all the world is a poem, then anyone can be a poet!

An unforgettable debut about a young woman's choice between the future she's always imagined and the people she's come to love. Charlotte, a gifted and superbly trained young musician, has been blindsided by a shocking betrayal in her promising career when she takes a babysitting job with the McLeans, a glamorous Upper East Side Manhattan family. At first, the nanny gig is just a way of tiding herself over until she has licked her wounds and figured out her next move as a composer in New York. But, as it turns out, Charlotte is naturally good with children and becomes as deeply fond of the two little boys as they are of her. When an unthinkable tragedy leaves the McLeans bereft, Charlotte is not the only one who realizes that she's the key to holding little George and Matty's world together. Suddenly, in addition to life's usual puzzles, such as sorting out which suitor is her best match, she finds herself with an impossible choice between her life-long dreams and the torn-apart family she's come to love. By turns hilarious, sexy, and wise, Caroline Angell's remarkable and generous debut is the story of a young woman's discovery of the things that matter most.

What if we saw indigenous people as the active agents of global exploration rather than as the passive objects of that exploration? What if, instead of conceiving of global exploration as an enterprise just of European men such as Columbus or Cook or Magellan, we thought of it as an enterprise of the people they discovered? 'The World and All the Things upon It' addresses these questions by tracing how the Kanaka Maoli explored the outside world and generated their own understandings of it in the century after James Cook's arrival in 1778.

The world is a mess. The privileged few prosper. The masses suffer. And everyone feels spiritually empty. Most people would blame capitalism, racism, or some other "ism". But according to Sharif M. Abdullah, the problem is not ideology. It's exclusivity -- our desire to stay separate from other people. In *Creating a World That Works for All*, Abdullah takes a look at the mess we live in -- and presents a way out. To restore balance to the earth and build community, he says, people must stop blaming others, embrace inclusivity, and become "menders". He outlines three simple tests -- for "enoughness", exchangeability, and common benefit -- to guide people as they transform themselves and the world.

Rudy Wiebe's latest novel is at once an enthralling saga of the Mennonite people and one man's emotional voyage into his heritage and his own self-discovery. Ambitious in its historical sweep, tender and humane, *Sweeter Than All the World* takes us on an extraordinary odyssey never before fully related in a contemporary novel. The novel tells the story of the Mennonite people from the early days of persecution in sixteenth-century Netherlands, and follows their emigration to Danzig, London, Russia, and the Americas, through the horrors of World War II, to settlement in Paraguay and Canada. It is told episodically in a double-stranded narrative. The first strand consists of different voices of historical figures. The other narrative voice is that of Adam Wiebe, born in Saskatchewan in 1935,

whom we encounter at telling stages of his life: as a small boy playing in the bush, as a student hunting caribou a week before his wedding, and as a middle-aged man carefully negotiating a temporary separation from his wife. As Adam faces the collapse of his marriage and the disappearance of his daughter, he becomes obsessed with understanding his ancestral past. Wiebe meshes the history of a people with the story of a modern family, laying bare the complexities of desire and family love, religious faith and human frailty. The past comes brilliantly alive, beginning with the horrors of the Reformation, when Weynken Claes Wybe is burned at the stake for heretical views on Communion. We are caught up in the great events of each century, as we follow in the footsteps of Adam's forebears: the genius engineer who invented the cable-car system; the artist Enoch Seeman, who found acclamation at the royal court in London after having been forbidden to paint by the Elders; Anna, who endures the great wagon trek across the Volga in 1860, leaving behind her hopes of marriage so that her brothers will escape conscription in the Prussian army; and Elizabeth Katerina, caught in the Red Army's advance into Germany when rape and pillage are the rewards given to soldiers. The title of the novel, taken from a hymn, reflects the beauty and sorrow of these stories of courage. In a startling act of invention, *Sweeter Than All the World* sets one man's quest for family and love against centuries of turmoil. Rudy Wiebe first wrote of Mennonite resettlement in his 1970 epic novel *The Blue Mountains of China*. Since then, much of his work has focused on re-imagining the history of the Canadian Northwest. In *Sweeter Than All the World*, as in many of his most acclaimed novels, Wiebe has sought out real historical characters to tell an extraordinary story. William Keith, a University of Toronto professor and author of a book about Wiebe, writes: "Wiebe has a knack for divining wells of human feeling in historical sources." Here, all the main characters share his name, and the history is one to which he belongs. Moreover, alongside those flashbacks into history is revealed an utterly compelling contemporary story of a man whose background is not totally unlike the author's own. Wiebe sets his narrative against his two favourite backdrops: the northern Alberta landscape, and the shared memories of the Mennonite people. *Sweeter Than All the World* is a compassionate, erudite and stimulating work of fiction that shares the deep-rooted concerns of all of Wiebe's work: how to make history live in our imagination, and how we can best live our lives.

### **All the Money in the World**

The New York Times bestselling, groundbreaking investigation of how the global elite's efforts to "change the world" preserve the status quo and obscure their role in causing the problems they later seek to solve. An essential read for understanding some of the egregious abuses of power that dominate today's news. Former New York Times columnist Anand Giridharadas takes us into the inner sanctums of a new gilded age, where the rich and powerful fight for equality and justice any way they can--except ways that threaten the social order and their position atop it. We see how they rebrand themselves as saviors of the poor; how they lavishly reward "thought leaders" who redefine "change" in winner-friendly ways; and how they constantly seek to do more good, but never less harm. We hear the limousine confessions of a celebrated foundation boss; witness an American president hem and haw about his plutocratic benefactors; and attend a cruise-ship conference where entrepreneurs celebrate their own self-interested magnanimity. Giridharadas asks hard questions: Why, for example, should our gravest problems be solved by the unelected upper crust instead of the public institutions it erodes by lobbying and dodging taxes? He also points toward an answer: Rather than rely on scraps from the winners, we must take on the grueling democratic work of building more robust, egalitarian institutions and truly changing the world. A call to action for elites and everyday citizens alike.
