Researchers from a variety of disciplines have collected verbal protocols of reading as a window on conscious reading processes. Because such work has occurred in different disciplines, many who have conducted verbal protocol analyses have been unaware of the research of others. This volume brings together the existing literature from the various fields in which verbal protocols of reading have been generated. In so doing, the authors provide an organized catalog of all conscious verbal processes reported in studies to date -- the most complete analysis of conscious reading now available in the literature. When the results of all of the studies are considered, there is clear support for a number of models of reading comprehension including reader response theories, schema perspectives, executive processing models, and bottom-up approaches such as the one proposed by van Dijk and Kintsch. The summary of results also demonstrates that none of the existing models goes far enough. Thus, a new framework -- constructively responsive reading -- is described. This new model encompasses reader response, schematic and executive processing, and induction from word- and phrase-level comprehension to higher-order meaning. The important concept in this new model is that readers respond to bits and pieces of text as they are encountered, all as part of the overarching goal of constructing meaning from text. This volume also includes a critical review of the thinking aloud methodology as it has been used thus far. This examination suggests that it continues to be an immature methodology, and that much work is needed if a complete theory of conscious processing during reading is to be developed via verbal protocol analysis. Finally, after reviewing what has been accomplished to date, the authors provide extensive discussion of the work that remains to be done and the adequacy of the verbal protocol methodology for permitting telling conclusions about text processing.

Automated Speaking Assessment: Using Language Technologies to Score Spontaneous Speech provides a thorough overview of state-of-the-art automated speech scoring technology as it is currently used at Educational Testing Service (ETS). Its main focus is related to the automated scoring of spontaneous speech elicited by TOEFL iBT Speaking section items, but other applications of speech scoring, such as for more predictable spoken responses or responses provided in a dialogic setting, are also discussed. The book begins with an in-depth overview of the nascent field of automated speech scoring—its history, applications, and challenges—followed by a discussion of psychometric considerations for automated speech scoring. The second and third parts discuss the integral main components of an automated speech scoring system as well as the different types of automatically generated measures extracted by the system features related to evaluate the speaking construct of communicative competence as measured defined by the TOEFL iBT Speaking assessment. Finally, the last part of the book touches on more recent developments, such as providing more detailed feedback on test takers' spoken responses using speech features and scoring of dialogic speech. It concludes with a discussion, summary, and outlook on future developments in this area. Written with minimal technical details for the benefit of non-experts, this book is an ideal resource for graduate students in courses on Language Testing and Assessment as well as teachers and researchers in applied linguistics.

HOW IS THIS TOEFL BOOK DIFFERENT? This TOEFL book is different because it uses an integrated vocabulary learning system called recycling. Recycling is simple. Each exercise is divided into four quizzes. Quiz 1, a multiple-choice vocabulary quiz, introduces ten new words. Next, you will do Quiz 2, which is a sentence-completion quiz based on the ten words in Quiz 1. Next, you will do Quiz 3, a spelling quiz. The speaker in the audio will say the same ten words in turn. You will then have ten seconds to spell each word by saying it and typing it. Finally, you will do Quiz 4, which is a 60-word typing test based on the ten new words you have been recycling through Quizzes 1, 2 and 3, plus words, phrases and idioms recycled from previous exercises. **BONUS MATERIAL** Learn essential rhetorical strategies and a test-proven way to develop opinion-based and fact-based TOEFL essays.

Increase your TOEFL iBT score by increasing your speaking and writing scores. How? By using the strategy called argument mapping. Why argument mapping? Because the TOEFL iBT speaking and writing sections are all argument-based tasks. That means if you want high speaking and writing scores, you must know how to map out (develop and deliver) spoken and written arguments, quickly and proficiently. With argument mapping, you will be able to do just that. Best of all, you can apply argument mapping to all six speaking tasks and both writing tasks. That means you will spend less time reading about strategies and more time practicing them. You Will Also Learn: * Essential rhetorical strategies and opinion development strategies * Step-by-step basic responses for all speaking and writing tasks * Step-by-step advanced responses for all speaking and writing tasks * Step-by-step emergency responses for all speaking and writing tasks * How to revise your spoken and written responses to maximize scoring * How to rate spoken and written responses quickly and proficiently ARGUMENT DEVELOPMENT Learn basic and advanced argument development strategies to maximize your speaking and writing scores. By doing so, you can increase your TOEFL score. ARGUMENT MAPPING Learn test-proven speaking and writing strategies quickly and proficiently using the graphics-based strategy called argument mapping. SCORING STRATEGIES Learn how to think like a TOEFL rater so you know exactly what to say and write to maximize scoring.
