A Life of Lovely

Gossip meets history—a compulsively readable collection of Hollywood's most notorious clashes and controversies in the spirit of Hollywood Babylon Believe it or not, America's fascination with celebrity culture was thriving well before the days of TMZ, Perez Hilton, Charlie Sheen's

breakdown and allegations against Woody Allen. And the stars of yesteryear? They weren't always the saints that we make them out to be. BuzzFeed columnist Anne Helen Petersen is here to set the record straight with *Scandals of Classic Hollywood*. Pulling little-known gems from the archives of film history, Petersen reveals eyebrow-raising information, including: The smear campaign against the original It Girl, Clara Bow, started by her best friend The heartbreaking story of Montgomery Clift's rapid rise to fame, the car accident that destroyed his face, and the "long suicide" that followed Fatty Arbuckle's descent from Hollywood royalty, fueled by allegations of a boozy orgy turned violent assault Why Mae West was arrested and jailed for "indecent exposure charges" And much more Part biography, part cultural history, these stories cover the stuff that films are made of: love, sex, drugs, illegitimate children, illicit affairs, and botched cover-ups. But it's not all just tawdry gossip in the pages of this book. The stories are all contextualized within the boundaries of film, cultural, political, and gender history, making for a read that will inform as it entertains. Based on Petersen's popular column on the Hairpin, but featuring 100% new content, *Scandals of Classic Hollywood* is sensationalism made smart.

"Today, only twenty percent of Americans are wed by age twenty-nine, compared to nearly sixty percent in 1960. The Population Reference Bureau calls it a 'dramatic reversal.' [This book presents a] portrait of contemporary American life and how we got here, through the lens of the single American woman, covering class, race, [and] sexual orientation, and filled with anecdotes from contemporary and historical figures"--

Love That Bunch

You know the type: the woman who won't shut up, who's too brazen, too opinionated - too much. She's the unruly woman, and she embodies one of the most provocative and powerful forms of womanhood today. In *Too Fat, Too Slutty, Too Loud*, popular BuzzFeed columnist Anne Helen Petersen examines this phenomenon, using the lens of 'unruliness' to discuss the ascension of pop culture powerhouses like Amy Schumer, Nicki Minaj, and Caitlyn Jenner, and why the public loves to love (and hate) these controversial figures.

Too Fat, Too Slutty, Too Loud

Half a century after the publication of *The Feminine Mystique*, have women really exchanged purity and maternity to become desiring machines inspired only by variations of sex, shopping and masochism - all coloured a brilliant neuro-pink? In this volume, fifty women young and old - writers, politicians, actors, scientists, mothers - reflect on the shades that inspired them and what being woman means to them today. Contributors include: Margaret Atwood, Joan Bakewell, Bidisha, Lydia Cacho, Shami Chakrabarti, Lennie Goodings, Linda Grant, Natalie Haynes, Siri Hustvedt, Kathy Lette, Kate Mosse, Pussy Riot, Bee Rowlatt, Elif Shafak, Ahdaf Soueif, Sandi Toksvig, Natasha Walter, Timberlake Wertenbaker Jeanette Winterson - alongside the three editors.

Too Fat to Fish

In *We Are the Weather*, Jonathan Safran Foer explores the central global dilemma of our time in a surprising, deeply personal, and urgent new way. Some people reject the fact, overwhelmingly supported by scientists, that our planet is warming because of human activity. But do those of us who accept the reality of human-caused climate change truly believe it? If we did, surely we would be roused to act on what we know. Will future generations distinguish between those who didn't believe in the science of global warming and those who said they accepted the science but failed to change their lives in response? The task of saving the planet will involve a great reckoning with ourselves—with our all-too-human reluctance to sacrifice immediate comfort for the sake of the future. We have, he reveals, turned our planet into a farm for growing animal products, and the consequences are catastrophic. Only collective action will save our home and way of life. And it all starts with what we eat—and don't eat—for breakfast.

All the Rules

Award-winning author and powerhouse talent Roxane Gay burst onto the scene with *An Untamed State* and the New York Times bestselling essay collection *Bad Feminist* (Harper Perennial). Gay returns with *Difficult Women*, a collection of stories of rare force and beauty, of hardscrabble lives, passionate loves, and quirky and vexed human connection. The women in these stories live lives of privilege and of poverty, are in marriages both loving and haunted by past crimes or emotional blackmail. A pair of sisters, grown now, have been inseparable ever since they were abducted together as children, and must negotiate the elder sister's marriage. A woman married to a twin pretends not to realize when her husband and his brother impersonate each other. A stripper putting herself through college fends off the advances of an overzealous customer. A black engineer moves to Upper Michigan for a job and faces the malign curiosity of her colleagues and the difficulty of leaving her past behind. From a girls' fight club to a wealthy subdivision in Florida where neighbors conform, compete, and spy on each other, Gay delivers a wry, beautiful, haunting vision of modern America reminiscent of Merritt Tierce, Jamie Quatro, and Miranda July.

Bitch Planet #1

To understand how we got here, we have to rewind the VHS tape. 90s Bitch tells the real story of women and girls in the 1990s, exploring how they were maligned by the media, vilified by popular culture, and objectified in the marketplace. Trailblazing women like Hillary Clinton, Anita Hill, Marcia Clark, and Roseanne Barr were undermined. Newsmakers like Monica Lewinsky, Tonya Harding, and Lorena Bobbitt were shamed and misunderstood. The advent of the 24-hour news cycle reinforced society's deeply entrenched sexism. Meanwhile, marketers hijacked feminism and poisoned girlhood for a generation of young women. Today, there are echoes of 90s "bitchification" nearly everywhere we look. To understand why, we must revisit and interrogate the 1990s—a decade in which female empowerment was twisted into objectification, exploitation, and subjugation. Yarrow's thoughtful, juicy, and timely examination is a must-read for anyone trying to understand 21st century sexism and end it for the next generation.

Scandals of Classic Hollywood

CATCH THE TV ADAPTATION OF SHRILL ON BBC3 NOW 'Women are told, from birth, that it's our job to be small: physically small, small in our presence, and small in our impact on the world. We're supposed to spend our lives passive, quiet and hungry. I want to obliterate that expectation' Guardian columnist Lindy West wasn't always loud. It's difficult to believe she was once a nerdy, overweight teen who wanted nothing more than to be invisible. Fortunately for women everywhere, along the road she found her voice - and how she found it! That cripplingly shy girl who refused to make a sound, somehow grew up to be one of the loudest, shrillest, most fearless feminazis on the internet, making a living standing up for what's right instead of what's cool. In Shrill, Lindy recounts how she went from being the butt of people's jokes, to telling her own brand of jokes - ones that carry with them with a serious message and aren't at someone else's expense. She reveals the obstacles and stereotyping she's had to overcome to make herself heard, in a society that doesn't think women (especially fat women and feminists) are or can be funny. She also tackles some of the most burning issues of popular culture today, taking a frank and provocative look at racism, oppression, fat-shaming, twitter-trolling and even rape culture, unpicking the bullshit and calling out unpalatable truths with conviction, intelligence and a large dose of her trademark black humour. 'Lindy West is an essential (and hilarious) voice for women. Her talent and bravery have made the Internet a place I actually want to be.' Lena Dunham

The Intelligence of Dogs

One woman's journey to find herself through juicing, veganism, and love, as she went from fat to thin and from feeding her emotions to feeding her soul. From the extra pounds and unrelenting bullies that left her eating lunch alone in a bathroom stall at school to the low self-esteem that left her both physically and emotionally vulnerable to abuse, Jasmin Singer's struggle with weight defined her life. Most people think there's no such thing as a fat vegan. Most people don't realize that deep-fried tofu tastes amazing and that Oreos are, in fact, vegan. So, even after Jasmin embraced a vegan lifestyle, having discovered her passion in advocating for the rights of animals, she defied any

“skinny vegan” stereotypes by getting even heavier. More importantly, she realized that her compassion for animals didn’t extend to her own body, and that her low self-esteem was affecting her health. She needed a change. By committing to monthly juice fasts and a diet of whole, unprocessed foods, Jasmin lost almost a hundred pounds, gained an understanding of her destructive relationship with food, and finally realized what it means to be truly full. Told with humble humor and heartbreaking honesty, this is Jasmin’s story of how she went from finding solace in a box of cheese crackers to finding peace within herself. From the Trade Paperback edition.

Fifty Shades of Feminism

The New York Times bestseller One of America’s most original and biting comic satirists, Denis Leary takes on all the poseurs, politicians, and pop culture icons who have sucked in public for far too long. Sparing no one, Leary zeroes in on the ridiculous wherever he finds it—his Irish Catholic upbringing, the folly of celebrity, the pressures of family life, and the great hypocrisy of politics—with the same bright, savage, and profane insight he brought to his critically acclaimed one-man shows No Cure for CancerLock ’n Load. Proudly Irish-American, defiantly working class, with a reserve of compassion for the underdog and the overlooked, Leary delivers blistering diatribes that are both penetrating social commentary with no holds barred and laugh-out-loud funny. As always, Leary’s impassioned comic perspective in Why We Suck is right on target. Leary is the star and co-creator of the Emmy-nominated television show Rescue Me.

The deluxe eBook edition of stand-up comedian and WNYC podcaster Phoebe Robinson's *You Can't Touch My Hair* brings Phoebe's hilarious voice off the page, directly into your eyes and ears. This enhanced edition features exclusive video footage with cameos by some of Phoebe's comedy besties, plus more than an hour of audio where Phoebe talks regrettable crushes from the 90s, advice she wishes someone had given her as a teenager, the influence of RuPaul, and much more. Delivered in her signature style, Phoebe serves laughter and levity alongside more serious topics at rapid-fire speeds, topped—as always—with pop culture references for days. A hilarious and timely essay collection about race, gender, and pop culture from upcoming comedy superstar and 2 Dope Queens podcaster Phoebe Robinson *Being a black woman in America means contending with old prejudices and fresh absurdities every day. Comedian Phoebe Robinson has experienced her fair share over the years: she's been unceremoniously relegated to the role of "the black friend," as if she is somehow the authority on all things racial; she's been questioned about her love of U2 and Billy Joel ("isn't that . . . white people music?"); she's been called "uppity" for having an opinion in the workplace; she's been followed around stores by security guards; and yes, people do ask her whether they can touch her hair all the time. Now, she's ready to take these topics to the page—and she's going to make you laugh as she's doing it. Using her trademark wit alongside pop-culture references galore, Robinson explores everything from why Lisa Bonet is "Queen. Bae. Jesus," to breaking down the terrible nature of casting calls, to giving her less-than-traditional advice to the future female president, and demanding that the NFL clean up its act, all told in the same conversational voice that launched her podcast, 2 Dope Queens, to the top spot on iTunes. As personal as it is political, *You Can't Touch My Hair* examines our cultural climate and skewers our biases with humor and heart, announcing Robinson as a writer on the rise.*

#VERYFAT #VERYBRAVE

The early work of the pioneering feminist cartoonist plus her acclaimed new story "Dream House" Aline Kominsky-Crumb immediately made her mark in the Bay Area's underground comix scene with unabashedly raw, dirty, unfiltered comics chronicling the thoughts and desires of a woman coming of age in the 1960s. Kominsky-Crumb didn't worry about self-flattery. In fact, her darkest secrets and deepest insecurities were all the more fodder for groundbreaking stories. Her exaggerated comix alter ego, Bunch, is self-destructive and grotesque but crackles with the self-deprecating humor and honesty of a cartoonist confident in the story she wants to tell. Collecting comics from the 1970s through today, *Love That Bunch* is shockingly prescient while still being an authentic story of its era. Kominsky-Crumb was ahead of her time in juxtaposing the contradictory nature of female sexuality with a proud, complicated feminism. Most important, she does so without apology. One of the most famous and idiosyncratic cartoonists of our time, Kominsky-Crumb traces her steps from a Beatles-loving fangirl, an East Village groupie, an adult grappling with her childhood, and a 1980s housewife and mother, to a new thirty-page story, "Dream House," that looks back on her childhood forty years later. *Love That Bunch* will be Kominsky-Crumb's only solo-authored book in print. Originally published as a book in 1990, this new expanded edition follows her to the present, including an afterword penned by the noted comics scholar Hillary Chute.

The Girl Who Said Sorry

In this New York Times Book Review Editors' Choice, the son of working-class Mexican immigrants flees a life of labor in fruit-packing plants to run in a Native American marathon from Canada to Guatemala in this "stunning memoir that moves to the rhythm of feet, labor, and the many landscapes of the Americas" (Catriona Menzies-Pike, author of *The Long Run*). Growing up in Yakima, Washington, Noé A. Alvarez worked at an apple-packing plant alongside his mother, who "slouched over a conveyor belt of fruit, shoulder to shoulder with mothers conditioned to believe this was all they could do with their lives." A university scholarship offered escape, but as a first-generation Latino college-goer, A. Alvarez struggled to fit in. At nineteen, he learned about a Native American/First Nations movement called the Peace and Dignity Journeys, epic marathons meant to renew cultural connections across North America. He dropped out of school and joined a group of Dene, Secwepemc, Gitksan, Dakelh, Apache, Tohono O'odham, Seri, Purepecha, and Maya runners, all fleeing difficult beginnings. Telling their stories alongside his own, A. Alvarez writes about a four-month-long journey from Canada to Guatemala that pushed him to his limits. He writes not only of overcoming hunger, thirst, and fear—dangers included stone-throwing motorists and a mountain lion—but also of asserting Indigenous and working-class humanity in a capitalist society where oil extraction, deforestation, and substance abuse wreck communities. Running through mountains, deserts, and cities, and through the Mexican territory his parents left behind, A. Alvarez forges a new relationship with the land, and with the act of running, carrying with him the knowledge of his parents' migration, and—against all odds in a society that exploits his body and rejects his spirit—the dream of a liberated future. "This book is not like any other out there. You will see this country in a fresh way, and you might see aspects of your own soul. A beautiful run." —Luis Alberto Urrea, author of *The House of Broken Angels* "When the son of two Mexican immigrants hears about the Peace and Dignity Journeys—'epic marathons meant to renew cultural connections across North America'—he's compelled enough to drop out of college and sign up for one. Spirit Run is Noé A. Alvarez's account of the four months he spends trekking from Canada to Guatemala alongside Native Americans representing nine tribes, all of whom are seeking brighter futures through running, self-exploration, and renewed relationships with the land they've traversed." —*Runner's World*, Best New Running Books of 2020 "An anthem to the landscape that holds our identities and traumas, and its profound power to heal them." —Francisco Cantu, author of *The Line Becomes a River*

An Experience Definitely Worth Allegedly Having is a collection of essays on travel selected by Edith Zimmerman, the founder of the colorfully offbeat women's website *The Hairpin*. Like *The Hairpin*, these essays are funny, weird, adventurous, and moving. There are stories about

following a mysterious stranger's maps in Mexico, attending endless step aerobics classes in Buenos Aires, faking a terrible British accent in London, and navigating a nude spa in Stockholm. About loneliness, connection, and sunburn. And about daring ourselves to be brave and embracing being scared. These stories are tied together by relationships: making them, losing them, how we behave in their absence. How we thrive when we're far from home and falling in and out of love in all of the world's beautiful places.

Your Captivating Love

****A Stylist Book Club pick**** 'In a time when women are under constant attack, I am so grateful for Anne Helen Petersen's sharp and topical book. Petersen nails the magnetism of women who break boundaries and the punishment that often comes along with it. All women will see a bit of themselves in the "unruly" Jessica Valenti, New York Times-bestselling author of *Sex Object* You know the type: the woman who won't shut up, who flaunts it, who's too brazen, too opinionated – too much. Sometimes, she's the life of the party; others, she's the focus of gossip. She's the unruly woman, and she's one of the most provocative, powerful forms of womanhood today. The unruly woman has been around for as long as there have been boundaries of what constitutes acceptable 'feminine' behaviour – that is, for ever – but these days she is more visible and less easily dismissed than ever before. In *Too Fat, Too Slutty, Too Loud*, cultural critic and BuzzFeed writer Anne Helen Petersen explores 'unruliness' through the lens of eleven pop culture powerhouses, including Serena Williams, Melissa McCarthy, Nicki Minaj, Madonna, Kim Kardashian, Hillary Clinton, Caitlyn Jenner and Lena Dunham. Petersen examines why our culture loves to love and berate these controversial figures for being 'too' something: too queer, too strong, too naked, too old, too shrill, too much. This is an incisive, candid, conversation starting analysis of the part influential women play in redefining contemporary femininity. 'An oasis in a world of hot takes, a set of crisp essays on the provocateurs who fascinate and enrage us. With warmth and wit, Anne Helen Petersen celebrates the power of being just a little too much, seeking the rebel inside the trainwreck' Emily Nussbaum, *New Yorker* critic 'Raucous and smart . . . Because these criticisms are, writ large, the same ones flung daily at non-celeb women, the book is a timely and essential read' *US Elle* 'Anne Helen Petersen's gloriously bumptious, brash ode to nonconforming women suits the needs of this dark moment . . . Crucial reading' Rebecca Traister, author of *All the Single Ladies*

Can't Even

An optimistic look at the future of American leadership by a brilliant young reporter A new generation is stepping up. There are now twenty-six millennials in Congress--a fivefold increase gained in the 2018 midterms alone. They are governing Midwestern cities and college towns, running for city councils, and serving in state legislatures. They are acting urgently on climate change (because they are going to live it); they care deeply about student debt (because they have it); they are utilizing big tech but still want to regulate it (because they understand how it works). In *The Ones We've Been Waiting For*, *TIME* correspondent Charlotte Alter defines the class of young leaders who are remaking the nation--how grappling with 9/11 as teens, serving in Iraq and Afghanistan, occupying Wall Street and protesting with Black Lives Matter, and shouldering their way into a financially rigged political system has shaped the people who will govern the future. Through the experiences of

millennial leaders--from progressive firebrand Alexandria Ocasio-Cortez to Democratic presidential hopeful Pete Buttigieg to Republican up-and-comer Elise Stefanik--Charlotte Alter gives the big-picture look at how this generation governs differently than their elders, and how they may drag us out of our current political despair. Millennials have already revolutionized technology, commerce, and media and have powered the major social movements of our time. Now government is ripe for disruption. *The Ones We've Been Waiting For* is a hopeful glimpse into a bright new generation of political leaders, and what America might look like when they are in charge.

You Can't Touch My Hair Deluxe

Lacing cultural criticism, Victorian literature, and storytelling together, Too Much explores how culture corsets women's bodies, souls, and sexualities - and how we might finally undo the strings. Written in the tradition of Shri!ll, Dead Girls, Sex Object and other frank books about the female gaze, Too Much encourages women to reconsider the beauty of their excesses - emotional, physical, and spiritual. Rachel Vorona Cote braids cultural criticism, theory, and storytelling together in her exploration of how culture grinds away our bodies, souls, and sexualities, forcing us into smaller lives than we desire. An erstwhile Victorian scholar, she sees many parallels between that era's fixation on women's 'hysterical' behavior and our modern policing of the same; in the space of her writing, you're as likely to encounter Jane Eyre and Lizzie Bennet as you are Britney Spears and Lana Del Rey. This book will tell the story of how women, from then and now, have learned to draw power from their reservoirs of feeling, all that makes us 'too much'.

Do you find yourself mindlessly scrolling through Instagram because you're too exhausted to pick up a book? Are you mired in debt, or feel like you work all the time, or feel pressure to take whatever gives you joy and turn it into a monetizable hustle? Welcome to burnout culture. While burnout may seem like the default setting for the modern era, in Can't Even, BuzzFeed culture writer and former academic Anne Helen Petersen argues that burnout is a definitional condition for the millennial generation, born out of distrust in the institutions that have failed us, the unrealistic expectations of the modern workplace, and a sharp uptick in anxiety and hopelessness exacerbated by the constant pressure to "perform" our lives online. The genesis for the book is Petersen's viral BuzzFeed article on the topic, which has amassed over seven million reads since its publication in January 2019. Can't Even goes beyond the original article, as Petersen examines how millennials have arrived at this point of burnout (think: unchecked capitalism and changing labor laws) and examines the phenomenon through a variety of lenses—including how burnout affects the way we work, parent, and socialize—describing its resonance in alarming familiarity. Utilizing a combination of sociohistorical framework, original interviews, and detailed analysis, Can't Even offers a galvanizing, intimate, and ultimately redemptive look at the lives of this much-maligned generation, and will be required reading for both millennials and the parents and employers trying to understand them.

Spirit Run

"I want you to take every step of your life with excitement for where you are headed. And I want you to feel beautiful and confident as you do." But how? When the enemy whispers lies that you are not smart enough, pretty enough, or rich enough? Or you are too dumb, too loud, too quiet, too thin, too fat, too much or not enough? What if you don't have what it takes to be who you really want to be? In Looking for Lovely, Annie F. Downs shares personal stories, biblical truth, and examples of how others have courageously walked the path God paved for their lives by remembering all God had done, loving what was right in front of them, and seeing God in the everyday—whether that be nature, friends, or the face they see in the mirror. Intensely personal, yet incredibly powerful, Looking for Lovely will spark transformative conversations and life changing patterns. No matter who we are and what path God has us on, we all need to look for lovely, fight to finish, and find beautiful in our every day!

The Stars in Our Eyes

Too girly or too boyish. Too quiet, too loud. Be ambitious, but don't hurt feelings. Be inquisitive, but don't interrupt. Be outspoken, but don't be bossy. Most of all, be yourself-but be a lady. What's a girl to do in a world filled with contradicting gender expectations, aside from saying sorry?

Crash and Burn

Veteran comedian Artie Lange turns an unflinching eye and his signature wit on his perilous descent into drug addiction, life-threatening depression, and ultimately, his recovery, in the follow-up to his hilariously raw debut, the #1 New York Times bestseller *Too Fat to Fish*. At a high point in his career, Artie Lange played a sold-out show in Carnegie Hall and totally killed—yet during his standing ovation, all he could think of were the two bags of heroin in his pocket. In the midst of a deep, self-destructive depression, addicted to heroin and prescription drugs, he lashed out at everyone around him—from his fellow cast members on *The Howard Stern Show*, to celebrity guests, to his longtime friends, and even his own family. By turns dark and disturbing, hilarious and heartbreaking, and always drop-dead honest, the New York Times bestseller *Crash and Burn* lifts the curtain on Lange's dangerous slide. For the first time, Artie reveals all: the full truth behind his now legendary *Stern Show* meltdown, his suicide attempt (which he relates in terrifying detail), surprising stints in rehab, and painful relapses. With the help and support of friends and family, Artie claws his way back, turning his life and career around. And despite his slip-ups, backslides, and permanent losses, Artie forges on.

An Experience Definitely Worth Allegedly Having

Unruly women have been making a spectacle of themselves in film and on television from Mae West to Roseanne Arnold. In this groundbreaking work, Kathleen Rowe explores how the unruly woman—often a voluptuous, noisy, joke-making rebel or "woman on top"—uses humor and excess to undermine patriarchal norms and authority. At the heart of the book are detailed analyses of two highly successful unruly women—the comedian Roseanne Arnold and the Muppet Miss Piggy. Putting these two figures in a deeper cultural perspective, Rowe also examines the evolution of romantic film comedy from the classical Hollywood period to the present, showing how the comedic roles of actresses such as Katharine Hepburn, Barbara Stanwyck, and Marilyn Monroe offered an alternative, empowered image of women that differed sharply from the "suffering heroine" portrayed in classical melodramas.

Too Loud Lily

A rallying cry for rejecting fatphobia and thriving at any size Evette Dionne wants fat women to take back their bodies—from the diet industry, doctors, harassers, and anyone else who treats them as problems to be solved. Author and *Bitch Media* editor-in-chief Dionne deftly illustrates the complexities of life as a fat woman of color in a thin-obsessed, racist culture and eviscerates the unspoken rules that allow this culture to continue. Drawing on her own experiences, Dionne explores subjects ranging from dating while fat to finding adequate healthcare

in a medical system that prioritizes thinness, to the particular stigma experienced by fat black women. In this powerful and wildly liberating manifesta, Dionne enjoins all women to reclaim the story of their own bodies and assert their right to live in the world as they are.

Too Much

****One of NPR's Best Books of 2017**** “Petersen's gloriously bumptious, brash ode to nonconforming women suits the needs of this dark moment. Her careful examination of how we eviscerate the women who confound or threaten is crucial reading if we are ever to be better.”—Rebecca Traister, New York Times bestselling author of *All the Single Ladies* From celebrity gossip expert and BuzzFeed culture writer Anne Helen Petersen comes an accessible, analytical look at how female celebrities are pushing the boundaries of what it means to be an “acceptable” woman. You know the type: the woman who won't shut up, who's too brazen, too opinionated—too much. She's the unruly woman, and she embodies one of the most provocative and powerful forms of womanhood today. In *Too Fat, Too Slutty, Too Loud*, Anne Helen Petersen uses the lens of “unruliness” to explore the ascension of pop culture powerhouses like Lena Dunham, Nicki Minaj, and Kim Kardashian, exploring why the public loves to love (and hate) these controversial figures. With its brisk, incisive analysis, *Too Fat, Too Slutty, Too Loud* will be a conversation-starting book on what makes and breaks celebrity today. “Must-read list.”—Entertainment Weekly Named one of *Cosmopolitan's* “Books You Won't Be Able to Put Down This Summer” Selected as one of Amazon's “Best Books of the Month” A Refinery29 Editors' Pick
