### Hints of His Mortality

"The Joy Luck Club is one of my favorite books. From the moment I first started reading it, I knew it was going to be incredible. For me, it was one of those once-in-a-lifetime reading experiences that you cherish forever. It inspired me as a writer and still remains hugely inspirational." —Kevin Kwan, author of Crazy Rich Asians Amy Tan's beloved, New York Times bestselling tale of mothers and daughters Four mothers, four daughters, four families whose histories shift with the four winds depending on who's "saying" the stories. In 1949 four Chinese women, recent immigrants to San Francisco, begin meeting to eat dim sum, play mahjong, and talk. United in shared unspeakable loss and hope, they call themselves the Joy Luck Club. Rather than sink into tragedy, they choose to gather to raise their spirits and money. "To despair was to wish back for something already lost. Or to prolong what was already unbearable." Forty years later the stories and history continue. With

wit and sensitivity, Amy Tan examines the sometimes painful, often tender, and always deep connection between mothers and daughters. As each woman reveals her secrets, trying to unravel the truth about her life, the strings become more tangled, more entwined. Mothers boast or despair over daughters, and daughters roll their eyes even as they feel the inextricable tightening of their matriarchal ties. Tan is an astute storyteller, enticing readers to immerse themselves into these lives of complexity and mystery.

Lilly is at her wits' end - until a chance encounter with a dark, dangerous and powerful stranger changes her life forever. Enter the world of Mr Rikkard Ambrose, where the only rule is: Knowledge is power is time is money. Winner of the People's Choice Award 2015.

Uncertainty is a fundamental characteristic of weather, seasonal climate, and hydrological prediction, and no forecast is complete without a description of its uncertainty. Effective communication of uncertainty helps people better understand the likelihood of a particular event and improves their ability to make decisions based on the forecast. Nonetheless, for decades, users of these forecasts have been conditioned to receive incomplete information about uncertainty. They have become used to single-valued (deterministic) forecasts (e.g., "the high temperature will be 70 degrees Fahrenheit 9 days from now") and applied their own experience in determining how much confidence to place in the forecast. Most forecast products from the public and private sectors, including those from the National Oceanographic and Atmospheric Administration's National Weather Service, continue this deterministic legacy. Fortunately, the National Weather Service and others in the prediction community have recognized the need to view uncertainty as a fundamental part of forecasts. By partnering with other segments of the community to understand user needs, generate relevant and rich informational products, and utilize effective communication vehicles, the National Weather Service can take a leading role in the transition to widespread, effective incorporation of uncertainty information into predictions. "Completing the Forecast" makes recommendations to the National Weather Service and the broader prediction community on how to make this transition.

Today's college and university leaders face complex problems that test their political acumen as well as their judgment, intellect, empathy, and ability to plan and improvise. How do they thoughtfully and creatively rise to the challenge? In *Leading Colleges and Universities*, editors Stephen Joel Trachtenberg, Gerald B. Kauvar, and E. Gordon Gee bring together a host of presidents and other leaders in higher education who describe how they dealt with the issues. Each contributor has been effective as a president or other significant leader in postsecondary education. In this book they share real-life examples and stories that illustrate how they have dealt with the challenges they encountered. Together they answer these and other core questions: • How do you manage college athletics, faculty, a governing board, donors, and a local community? • What do you need to know about crisis management and legal affairs? • When should you be outspoken in the media and when should you be quiet? The book does not shy away from hot contemporary issues, tackling such controversial matters as free speech, Title IX, athletics, fraternities, student and faculty diversity, and board relations. Presidents and would-be presidentsâ€™ as well as boards, search committees, state boards, legislators, and others involved in higher educationâ€™ will find much helpful guidance in this timely book.

NOW A NATIONAL BESTSELLER "This man is a gift from God to the world. This book is a gift from Al Sharpton to us. Let's appreciate them both."—Michael Eric Dyson Beginning with a foreword by Michael Eric Dyson and closing with Rev. Al Sharpton's moving eulogy for George Floyd, *Rise Up* is a rousing call to action for our nation, drawing on lessons learned from Reverend Al Sharpton's unique experience as a politician, television and radio host, and civil rights leader. *Rise Up* offers timeless lessons for anyone who's stood at the crossroads of their personal or political life, weighing their choices of how to proceed. When the young Alfred Charles Sharpton told his mother he wanted to be a preacher, little did he know that his journey would also lead him to prominence as a politician, founder of the National Action Network, civil rights activist, and television and radio talk show host. His enduring ability and willingness to take on the political power structure makes him the preeminent voice for the modern era, a time unprecedented in its challenges. In *Rise Up*, Reverend Sharpton revisits the highlights of the Obama administration, the 2016 election and Trump's subsequent hold on the GOP, and draws on his decades-long experience with other key players in politics and activism, including Shirley Chisholm, Hillary Clinton, Dr. Martin Luther King Jr. and more. The time has come to take a hard look at our collective failures and shortcomings and reclaim our core values in order to build a clear and just path forward for America. Our nation today stands at a crossroads—and change can't wait. "Full of history, honesty, and valuable suggestions, *Rise Up* should be a staple in every home, school and library as an essential primer on civil and political rights in America."—Martin Luther King, III "If you want to learn how to use your voice to change a nation, you should study closely this man—and this book." —Van Jones "My Bed-Stuy (do or die) brother has been at the forefront of our battles again and again. From way back in da way back to this present revolution the world is in now, Rev. has been about Black Lives Matter from the jump, also at a time when it was not the most popular or hip thing to be about. I look forward, standing next to him, to see, to witness this new energy, this new day that is about to be in these United States of America."—Spike Lee
