Coastal Charts for Cruising the Florida Keys

Arthur G. Adams has nurtured a lifelong interest in the Hudson River and its surrounding region. He has spent much of his life exploring its highways, byways, waterways, and foot trails from the Atlantic Coastal inlets to the Catskill and Berkshire Mountain Peaks. The Hudson Through the Years chronicles the history of the Hudson River region of New York State through five centuries, from its early inhabitants: its main Native American tribes and early Dutch and English settlers, through its current day residents. Tracing the history of the region from the American Revolution to the present, Adams incorporates the spread of industrialism, infrastructure, and transportation with tales of the early steamboats, ferries, horseboats, the Erie, Champlain, Iron and Anthracite canals, through the development of the trolleys, railroads, and automobiles. The book also includes details about the art and architecture of the region.

Cruising the Okeechobee Waterway

This book provides over 500 exercises with answers covering all aspects of small-craft navigation. These are practical problems that all navigators should know how to solve. Topics include: Piloting, Chart reading and plotting, Voyage planning, Dead reckoning, Compass use, Waypoint selection, Special publications, Rules of the road, Route design, Lights and buoys, Tides and currents, Electronic fixes, Depth sounding navigation The level of the exercises is comparable to that used in the USCG 100-Ton masters exam, which in turn is about the same used in the navigation certification programs of US Sailing, ASA, CYA and RYA. These practice problems are, however, designed to be practical and instructive, not just training exercises for certification exams. This Workbook is used by several navigation schools around the country. Selections are provided from each of these special publications along with exercises to insure their full use is mastered: NOAA Tide Tables, NOAA Current Tables, US Coast Pilot, USCG Light List, USCG Notices to Mariners, NOAA Chart Catalog The exercises that require a chart use nautical training chart No. 18465 Tr, available in print at reduced price from NOAA chart dealers and other outlets listed in the Appendix. You can also work the chart problems with an electronic chart (Raster Navigation Chart, RNC) number 18465 Tr. This custom echart is available as a download from www.starpath.com/18465tr. The echart can be viewed by any of several free echart viewer programs. Sources for free echart viewers and guidelines for their use are included in the Appendix. You can also use any full echart navigation program of your choice. We encourage navigators to solve the chart problems with both traditional paper plotting as well as electronically, using route tools, electronic bearing lines, and range rings.

The latest addition to Pelican's coastal charts series features full-color NOAA nautical charts for the waters from the Port of Miami to the Dry Tortugas. Beautifully produced with hard covers and a flexible spiral binding, these maps are sturdy and easy to use. Focusing on two routes to the Florida Keys--the inside route via the Intracoastal Waterway or the offshore option through Hawk Channel--Coastal Charts for Cruising the Florida Keys uses easy-to-read symbols to clearly mark anchorages, marinas, fueling stations, bridges, depth soundings, restaurants, historical sites, and other important bits of information for boaters. Coastal Charts for Cruising the Florida Keys are effective when used alone or as a companion to the new Cruising the Florida Keys (pb original) by Claiborne Young and Morgan Stinemetz. Every site and symbol noted in the chart book is cross-referenced to the corresponding page in the cruising guide, so boaters can access more information instantly.

Bull Canyon

In this story-filled monograph, Bunny Williams presents new work through 15 houses she has decorated and loved. She tells the tale of each "affair," tracing the style of the spaces, what drew her to the projects, and her approach to decor that evolves with the lives of her clients. She offers personal secrets for choosing classics—and for decorating with flexible pieces that can play more than one role in a design scheme. Along the way, she offers many amazingly chic, but always comfortable, residences whose interiors she has designed during the latest phase of her astounding career. As Bunny tells it, "The best pieces have the best stories," and in this book, she shows readers a fresh collection of projects that demonstrate just that.

Cruising the Gulf Coast

"The Bahamas are famous for sun, sand—and swimming pigs." —National Geographic In the middle of paradise, with billionaires and celebrities for neighbors, is an island populated only by swimming pigs. For decades, this archipelago of 365 islands would remain largely unknown to the world. It would not be a ruthless pirate, pioneering loyalists, a notorious drug kingpin, or the infamous Fyre Festival that would unveil Exuma to the world, but rather the most unlikely of creatures. Appearing in magazines, videos, newspapers, commercials, TV shows, and countless selfies, the Swimming Pigs of Exuma, in the Bahamas, have become a bucket-list sensation and have been named one of the marvels of the universe. But how did they reach this celebrity status? What made them so famous? And why, in February 2017, did so many of them die? Pigs of Paradise is an unlikely story of humble beginnings and a swift rise to

Learn how to access the deepest layers of your subconscious thinking to identify and correct limiting beliefs and enable life-changing physical and emotional healing. ThetaHealing® is a revolutionary healing modality, devised by Vianna Stibal, that taps into the brain's Theta waves to enable deep emotional and physical healing by changing our limiting beliefs. Yet often, we are afraid of digging to the deepest layers of our subconscious thinking, and instead gloss over them with new positive affirmations, or downloads; but they do not replace the deeply transformative work of exploring, understanding and correcting beliefs that were instilled in this life and past lives. This is the principle of digging for beliefs. In this essential book for any student of ThetaHealing, you'll learn:

- the five vital steps of digging for beliefs
- how to identify core beliefs and the 10 different approaches to change them
- when it's appropriate to erase a belief, and when to use it as a springboard for positive change
- common mistakes made in digging work and how to avoid them in your own practice

With examples from Vianna's workshops, you'll soon be equipped with the right tools to dig for beliefs and enable deep, life-changing healing for yourself and others.

The Sextant Handbook

Love Affairs with Houses

Loran and GPS notwithstanding, there will always be a place for the sextant aboard any blue-water boat, if for no other reason than the thrill and mystery of finding one's position on earth by gazing at the heavens. Here is the indispensable reference that should accompany the instrument aboard. Cmdr. Bruce Bauer, a professional navigator and master mariner with the U.S. Merchant Marine, has distilled years of hands-on experience into an eminently readable guide to buying, adjusting, using, and repairing sextants. The Sextant Handbook is dedicated to the premise that electronic navigation devices, while too convenient to disregard, are too vulnerable to rely on exclusively. The book is designed to make beginner and expert alike conversant with this most beautiful and functional of the navigator's tools.
